

Divine Light Reiki

Divine Light Reiki Master Course

Divine Light Reiki is based a Japanese therapy called Jôrei, or Johrei, that was developed in the early 20th century by Mokichi Okada, founder of the Church of World Messianity. It is a system of spiritual healing that aims to eliminate toxins from the body through the application of Divine energy. A treatment lasts 30–45 minutes, and is conducted with the client fully clothed and seated. The therapist will ask questions about physical and mental health, and then hold their right hand over the body to channel healing energy; areas of toxic buildup are found and, with the Light, the toxins are channeled to the kidneys, which flush them out....
