

**Where do UFOs really come from? Layne holds an inter-dimensional, etheric-based theory. He terms those from the other realms as Etherians and the UFOs themselves sometimes appear as living creatures, referred to as aeroforms. Much of the information was corroborated by the scientific work of Trevor James Constable or came directly from intelligences channeled through Mark Probert, the greatest psychic medium of his time. Do not discount channeled material until you read this book. Layne was scientific in his approach until hearing Probert's amazing messages, which independently verifies his research. Covers propulsion systems, vibrational frequencies, and the sudden appearance of these craft more accurately than most scientific books on this subject have ever done.**

**Meade Layne** (September 8, 1882 – May 12, 1961) was an early researcher of ufology and parapsychology, best known for proposing an early version of the interdimensional hypothesis to explain flying saucer sightings.<sup>[1]</sup> Layne was the founder and first director of Borderland Sciences Research Associates. Prior to his public work studying ufos, Layne was professor at the University of Southern California, and English department head at Illinois Wesleyan University and Florida Southern College.

## "Etheria"

Layne speculated that, rather than representing advanced military or extraterrestrial technology, flying saucers were piloted by beings from a parallel dimension, which he called Etheria, and their "ether ships" were usually invisible but could be seen when their atomic motion became slow enough.<sup>[1]</sup> He further claimed that Etherians could become stranded on the terrestrial plane when their ether ships malfunctioned,<sup>[2]</sup> and that various governments were aware of these incidents and had investigated them.<sup>[2]</sup>

Furthermore, Layne argued that Etherians and their ether ships inspired much of earth's mythology and religion,<sup>[1]</sup> but that they were truly mortal beings despite having a high level of technological and spiritual advancement.<sup>[1]</sup> He claimed that their motive in coming to the terrestrial plane of existence was to reveal their accumulated wisdom to humanity.<sup>[3]</sup> These revelations would be relayed through individuals with sufficiently developed psychic abilities, allowing them to contact the Etherians and communicate with them directly;<sup>[2]</sup> in particular, he relied extensively on the mediumship of Mark Probert as confirmation of his theories.
