

Beyond Sufism

ONEness of HEARTs is the name of volumes of chats [spiritual teachings] *channeled from Mevlana Rumi and other saints to [Garib](#)* [Sabahat Akşiray] since 1968 until today. Its style is similar to Mesnevi [Mathnawi], however, the content is quite different....

ONEness of HEARTs is from Allah to humans who live in the 21st century.

Teachings of ONEness of HEARTs are like annotations on Koran, by The Writer of Koran. The best terms that can be used to describe “ONEness of HEARTs” may be: “*user’s manual of life/universe,*” or “*instruction book to reach God.*” We think that Allah allows us to learn about HIM and the universe because of the progress in science that has been taking place in the 20th and 21st centuries. In other words, thanks to [science](#), today we can perceive/understand The Creator, not just 'believe in God.'

ONEness of HEARTs is like a school of theology of which the instructors are not mortals but immortals that include Hazrat Mohammad [Prophet Mohammad], Hazrat Isa [Jesus Christ], and Hazrat Musa [Moses]. It is a self-study spiritual guide, however, saints say that in order to

be able to understand, one needs [to wish for The Meaning from heart, to read in order and more than once.](#)
