Cassiopeia is yet another constellation. Etymologically, the name means "she whose words excel" — no wonder Joanna feels a connection.

Cassiopeia (mythology)

For the constellation, see [Cassiopeia \(constellation\)](#).

Cassiopeia (Κασσιόπεια), also **Cassiopeia**

The king of Ethiopia Cepheus and the queen Cassiopeia thank Perseus for freeing their daughter Andromeda, La Délivrance d'Andromède (1679) Pierre Mignard, Louvre

(Κασσιόπεια), is the name of several figures in [Greek mythology](#).

1 Wife of Cepheus

The Queen **Cassiopeia**, wife of king **Cepheus** of **Æthiopia**, was beautiful but also arrogant and vain; these latter two characteristics led to her downfall. In some sources she was the daughter of **Coronus** and **Zeuxo**.

Her name in [Greek](#) is Κασσιόπη, *Kassiope*; other variants of the name in Greek are Κασσιόπεια, *Kassiopeia* and Κασσιέπεια, *Kassiepeia*.

The boast of Cassiopeia was that both she and her daughter **Andromeda** were more beautiful than all the **Nereids**, the nymph-daughters of the sea god **Nereus**. This brought the wrath of **Poseidon**, ruling god of the sea, upon the kingdom of **Ethiopia**.

Accounts differ as to whether Poseidon decided to flood the whole country or direct the sea monster **Cetus** to destroy it. In either case, trying to save their kingdom, Cepheus and Cassiopeia consulted a wise oracle, who told them that the only way to appease the sea gods was to sacrifice their daughter.

Accordingly, Andromeda was chained to a rock at the sea's edge and left there to helplessly await her fate at the hands of the sea monster **Cetus**. But the hero **Perseus**

Poseidon's punishment: Cassiopea as a constellation sitting in the heavens tied to a chair. Hyginus, Poeticon Astronomicum. "U.S. Naval Observatory Library"

arrived in time, killed **Cetus**, saved **Andromeda** and ultimately became her husband.

Since Poseidon thought that Cassiopeia should not escape punishment, he placed her in the heavens tied to a chair in such a position that, as she circles the celestial pole in her throne, she is upside-down half the time. The constellation resembles the chair that originally represented an instrument of torture. Cassiopeia is not always represented tied to the chair in torment, in some later drawings she is holding a mirror, symbol of her vanity, while in others she holds a palm leaf, a symbolism that is not clear.^[1]

As it is near the pole star, the constellation **Cassiopeia** can be seen the whole year from the northern hemisphere, although sometimes upside down.

2 Wife of Phoenix

A different **Cassiopeia** or **Cassiepeia** was a daughter of **Arabus** and the wife of King **Phoenix**, according to **Hesiod**.^[2] She is given as the mother of the hero **Atymnius**, by either her husband or the god **Zeus**. Other accounts also claim she was the mother, by Phoenix, of **Phineus** and **Carme**, although the latter is more often said to be a daughter of **Eubuleus**, a Cretan.
