Is UFO orb over Dome of the Rock in Jerusalem a context communication by ET?

By [Alfred Lambremo...](#) - 1 year 10 months ago

by Alfred Lambremont Webre

A second independent [video](#) and [news report](#) emerged today on January 30, 2011 confirming the authenticity of the UFO orb over Mount Zion and the Dome of the Rock in Jerusalem at 1 AM on the morning of January 28, 2011.

On January 28, 2011 at 1 AM, a UFO orb appeared over the Mount Zion and the Dome of the Rock-Temple Mount in Jerusalem. A [video](#) of the UFO orb states, "Two men capture a film of what might be one of the most interesting UFO clips ever caught.

"Witnesses noticed the large oval shaped UFO suspended on the night skyline. At about one minute into [the clip](#) the UFO descends almost to ground level directly over the Dome of the Rock-Temple Mount. The oval UFO hovers there for a short while, flashes lights into surrounding buildings then shoots upwards at an incredible speed. Witnesses were totally taken back and amazed at what they had just seen."

One UFO specialist in UFO orbs after viewing this video wrote the following to this reporter, "Presumably you noted the lights on the Mothership near the end of the second video."

Three questions now linger for UFO and Exopolitics experts and observers around the world

Question #1: Is the Dome of the Rock UFO orb a genuine ET phenomenon?

Question #2: Is the ET or interdimensional intelligence behind the Dome of the Rock UFO Orbs sending an intentional, meaningful "context communication" to humanity by this UFO event?

Question #3: Does the Dome of the Rock UFO event fit the pattern predicted by former NORAD officer Stanley A. Fulham in his Dec. 3, 2010 communiqué that [Extraterrestrial] "[Interventions](#) will then accelerate, not so much over our cities, but dispersed over our continents with sightings increasing in duration. The intent of these interventions is to increase mankind's acceptance of the alien phenomena, so that hopefully, we will be prepared to accept a face-to-face encounter and communicate, perhaps as early as next year (2011)."
