Orb Phenomenon - a personal theory

*From the perspective of a well versed and critical eye,
Gazing and seeing, familiar with phenomenon,
And metaphysical disclosure,
Noticing clear shapes and forms within the 'traditional pattern'
Intuitive synopsis thus states that:*

*"Orbs are inter-dimensional portals or doorways,
From other realms to this dimension,
Apparently a one way stream,
Entities pass through an apparent needle's eye in this dimension"
It is the only conclusion which can be made.
There have been witnessed several types of orbs,
With differing colours,
and in different heights above the ground ...
The orb phenomenon sighted in recent times,
Fuelling a much deeper analysis of these magical doors ...
---Matthew James*
