

# *The Independent Science of Mind Fellowship*

## **WE BELIEVE:**

**We believe everything is Mind.**

**We believe that all matter is a mental construct, that what appears to be matter in this world is moving mental energy.**

**We believe that all energy is a mental construct, that what appears to be energy in this world is precisely mental energy.**

**We believe that everything in the whole of creation is One Mind and everything is a part of that One Mind. We call that One Mind the Source of Everything.**

**We believe you and I and everything else in the creation is a part of the Source of Everything. (You and I are all children of the Divine.)**
