Had enough?
New Party Offers Real Change
The Justice Party is organizing a grassroots, broad-based, real political alternative to the corporate controlled Democratic and Republican parties. The Justice Party is founded on the principle of “Justice for All”—social justice, civic justice, environmental justice and economic justice for all and not just for the wealthiest Americans and corporations.

The Justice Party plans to run candidates during the 2012 election cycle and has selected for President, Rocky Anderson, former two-term mayor of Salt Lake City. We plan to build a grassroots political party in every state.

The Justice Party is constructing its political platform now, a platform that defends the people against the corporate and concentrated wealth that today totally controls our political system.

The Justice Party invites you to help build America’s just future!

“Have you had enough?” asks Rocky Anderson.
Would you support the formation of a new party that will commit to:

Economic Justice:
Implement major domestic green jobs and infrastructure programs,
Re-establish and make viable workers’ right to organize,
Create a fair, democratic, and transparent financial sector that serves the needs of start-ups, small business and consumers,
End incentives for U.S. companies to send jobs overseas,
Enact a financial transaction tax that will curb reckless speculation and provide revenue for job creation, job training and education,
End the Bush tax cuts for the wealthy,
Compassionate and rational immigration reform,
End to subsidies for oil and gas companies,
Free education through four years of college or equivalent as a right,
Protect public investments by opposing and reversing the privatization of public assets.

Environmental Justice:
Enforce employee and environmental safeguards in trade agreements,
Ban the Canada-to-Mexico tar sands pipeline and mountain top removal,
Enhance air and water quality protections by strengthening the EPA,
Take aggressive action and leadership on the climate crisis and the environment.

Social and Civic Justice:
Affordable universal health care through Improved Medicare for all,
An end to the wars; reduce the military budget and redirect money to domestic economy,
Marriage equality,
End race and gender discrimination,
Treat substance abuse within a public health framework rather than as a criminal matter,
Repeal the PATRIOT Act,
Abolish corporate personhood and implement campaign finance reform to end the corrupting influence of money in politics,
Prosecute the illegal conduct that led to the economic melt-down.
Our message resonates with everybody across partisan boundaries. I don't think there is anyone in the country that hasn’t absolutely had it with the corrupting influence of money. We are truly living in a new Gilded Age, with the greatest level of income disparity since the 1920’s.
