About Me:

I'm a rather strict vegan so I'm a rather caring individual in nature. I love music 'in general' and singing along with the music I listen to.

I'm also pretty spiritual and in multiple philosophies, though I relate most with the philosophies of Wicca and Hinduism.

I belong with an eclectic Pagan and Wiccan circle. I also attend Krishna Consciousness (Hindu path) studies [at times] and I've visited a Buddhist temple and would like to again. I've found that the limitations of a single religious path are not for me, so I walk a few paths to our One of all :o)

One World of Love,

Ahimsa and Blessed Be ~)O(~

**I am a homosapien, much like U... Every Sentient Being is
with a Soul; Is with a Spirit. This if You believe Human
animals have a Soul or a Spirit.**

Sit or Stand and think of this.

**We see with the neurological connection between our eyes
and our mind. So do all other Sentient beings.**
