dont blame you for keeping your family away, but it wont be terrorists if something happens, it will be those behind the new world order, to further there agender, iraq was was based on a lie of weponns of mass destruction, only mass destruction was when they invaded iraq.

Sentence of Death has been passed for the WAR Maker's & False Flag Mission Maker's. They know who they are. They may blow people up at the olympics and twin towers etc, but they will be dealt with as the swines they are.
