

Maitreya Educational Center

Purpose

The purpose of the Maitreya Educational Center is to provide education to individuals on how to take charge of their lives and become their own masters. The Center is dedicated to making available to the world the teachings of the Ascended Masters as communicated by the Master Maitreya through his channel Margaret McElroy.

Two Spiritual Energies – Maitreya and Sister

I work with two energies - Sister and Maitreya. Sister connected with me from the world of Spirit in 1993 and has been with me since. She has lived many lives, and her name comes from having been a sister in a religious order. In one of her incarnations she lived just the opposite of her religious life and was a prostitute of quite high renown. She is as experienced on the subject of sexual energy as she is on her life as a nun and she was actually awarded sainthood for her religious life. These experiences allow her to speak both on an incredibly spiritual level and a down-to-earth grass-roots level.

The other energy I channel - and the one I have become more known for - is Maitreya. He is what is known as an 'Ascended Master' in the world of Spirit - spiritually-enlightened beings who in past incarnations were ordinary humans, but who have undergone a

process of spiritual transformation. But he has always said, "Do not put me on a pedestal. Yes, I am ascended and have much knowledge, but I am just a teacher, nothing more." Maitreya has been working with me since 1992. I have worked on a deep trance level with him since the beginning, and as I was working with him he taught me many things I needed to learn. Now, we work side by side in all we do.

When I do a channeling, whether with Sister or Maitreya, their energy merges with mine, and my voice and personality become distinctly different. There are many levels of communicative states with these energies. When I first began channeling Sister's energy I was doing what is known as "conscious channeling", in which the words poured out of my mouth and I could hear myself speaking. Over the years I have become more of a deep trance channel, so that now my voice, posture and energy change quite dramatically and I am not aware of what is being said. The energy in the room also changes and is quite beautiful - many people cannot help falling into a very deeply relaxed state or even drift into sleep.

The aim of these energies is to assist us with raising our vibration to a higher consciousness and helping the earth plane to change and become a less aggressive place to live. I consider myself such a fortunate person to have these energies in my life, and also be able to work with them as I do.

Although I am Margaret McElroy and have free will and choice in all I do, when I work on a spiritual level I am one with both of these souls. But they do not dictate to me. I have chosen to work with them and,

as such, know that what I teach is coming from the higher source. Can I say "No" to their channeling through me? Yes, I can, but I very rarely do as they only come when they are needed. For the rest of the time, I am alone.
