"Mr. Premiere a situation has developed that affects both our countries and the world and I feel it necessary to convey to you a problem that we share in common."

"Mr. President I agree."

As you must appreciate the tension between our two great nations has often brought us to the brink of showmanship with all the tapestry of a Greek comedy and our impasse last year was foolish and deadly. The division that separates us is through misunderstanding, politics, and cultural differences. Pint we have one thing in common which I would like to address to your working group on the UFO problem."

"Yes, yes...I agree with your assessment We nearly tied the knot that divides us permanently. Our working group believes the same way as yours. The UFO problem presents grave dangers i to our

countries and to the whole world. If we allow suspicions and miscalculations to force our military defense systems to react to this problem...God will never forgive us."

JlThen you agree Mr. Premiere that we should cooperate together on this issue?"

"Yes, Mr. President"

"Mr. Premiere, I have begun an initiative with our NASA to exchange information with your Academy of Sciences in which I hope will foster mutual concern over this problem and hopefully find some resolution, I have also instructed our CIA to provide me with full disclosure on the phantom aspects and classified programs in which I can better assess the situation. Can you persuade your KGB to do likewise."

"Mr. President, I cannot guarantee full cooperation in this area but I owe it to future history and the security of our planet to try. As you must know I have been somewhat limited in my official capacity as Party Chairman to order such cooperation in this area. We too feel that the UFO is a matter of highest importance to our collective security. If I can arrange for a secret meeting between our working groups at a secret location and at a time designated by you, I feel that this much on my part can happen."

"Mr. Premiere, if a meeting at this level can convene it will be a important first step. It will lead to more dialog and trust between our countries and reduce the ever present threat of nuclear war."

"Yes, Mr. President it will"

"Then we are in agreement"

"Yes."

"Until we talk again, this conversation is classified top secret between ns."

"Yes. Until we talk again."

MAJIC EYES ONLY is the most authoritative and comprehensive chronicle ever published on the subject of worldwide UFO crashes and subsequent military retrievals from 1897 to the present. The author guides the reader through 74 UFO crash incidents supported by

compelling evidence in the form of official documents, eyewitnesses and in some cases physical evidence.

Since 1984, multiple sources have leaked, revealed or discovered some 3,500 pages of UFO documents, hundreds classified Top Secret and linked to Majestic 12. These MJ-12 documents, coupled with the Leonard Stringfield data and strong investigations by other case experts, provide a powerful core of UFO crash incidents.

The idea that major governments have covered up the true nature of the UFO phenomenon for more than half a century through unprecedented secrecy, deception and intimidation strikes many reasonable citizens as preposterous. Yet, this book provides a wealth of evidence, including declassified and leaked government documents and credible eyewitness testimony, that supports the uncomfortable truth of this "preposterous" notion.

Authority of Director of
Central Intelligence Clarified

The following letter is considered to be of fundamental importance to the CIA's responsibility in **collecting** UFO Intelligence and redefines the authority of the DCI. This letter was written in 1962, signed by President Kennedy, and directed to John A. McCone, who succeeded Allen W. Dulles as Director in late 1961. Prior to this letter, uncertainty had prevailed among the various units in the UFO intelligence community as to whether the DCI was simply head of another agency or chief of the entire system. The letter reaffirms that the Director is both the President's personal representative and the government's chief intelligence officer.

In carrying out your newly assigned duties as Director of Central Intelligence it is my wish that you serve as the Government's principal foreign intelligence officer, and as such that you undertake, as an integral part of your responsibility, the coordination and effective guidance of the total United States foreign intelligence effort. As the Government's principal intelligence officer, you will assure the proper coordination, correlation, and evaluation of intelligence from all sources and its prompt dissemination to me and to other recipients as appropriate. In fulfillment of these tasks I shall expect you to work closely with the heads of all departments and agencies having responsibilities in the foreign intelligence field.

In coordinating and guiding the total intelligence effort, you will serve as Chairman of the United States Intelligence Board, with a view to assuring the efficient and effective operation of the Board and its associated bodies. In this connection I note with approval that you have designated your deputy to serve as a member of the Board, thereby bringing to the Board's deliberations the relevant facts and judgements of the Central Intelligence Agency.

With the heads of the Departments and Agencies concerned you will maintain a continuing review of the programs and activities of all U.S. agencies engaged in foreign intelligence activities with a view to assuring efficiency and effectiveness and to avoiding undesirable duplication.

As head of the Central Intelligence Agency, while you will continue to have over-all responsibility for the Agency, I shall expect you to delegate to your principal deputy, as you may deem necessary, so much of the direction of the detailed operation of the Agency as may be required to permit you to carry out your primary task as Director of Central Intelligence.

It is my wish that you keep me advised from time to time as to your progress in the implementation of this directive and as to any recommendations you may have which would facilitate the accomplishment of these objectives.

Received 6/30/99
Timothy Cooper

June 23, 1999

Mr. Timothy Cooper
P.O. Box 1206
Big Bear Lake, CA 92315

Mr. Cooper:

I am a retired CIA counterintelligence officer who worked for Jim Angelton from [REDACTED] secret files [REDACTED] sensitive files that would connect MJ-12 to JFK's murder. This document did not exist officially and has never been disclosed within the agency. AWD was very fearful of disclosure to unauthorized channels and leaks in the White House. I literally snatched the "Directives" from the fire and have kept them safe from review. To allow a review would compromise future directors and put the agency in a difficult position.

I feel the time is fast approaching when the files of the Majestic/Jehovah project will be pried loose and the public's right to know should begin. We in CI have monitored civilian UFO research for a long time and have played a major role in keeping the UFO community busy. [REDACTED] that the MJ-12 Directives be sent to you and hopefully, be disseminated in a responsible manner.

I think your decision to work with Dr. Wood was a good one. He has credibility and good science skills. I hope you have read the BLUE BOOK/MAJIC Report with an open mind and a critical eye for detail. This, you might say, is the missing BLUE BOOK files (don't confuse these with Project BLUE BOOK). You need proof and here it is. I don't think you realize it but you and Dr. Wood have started a shit storm. Nixon's SCEO ordered all MJ-12 documentation purged and destroyed. This one was not. This carbon copy is the only link to MJ-12 and don't expect any more in the future. Everything is now on computers and there is no existing paper trail to my knowledge. If you play your cards right, you should make progress with what you have. I caution you to be careful about who you talk to and trust with this information.

In the context of the above it has become necessary to review and evaluate duplication of field activities in light of the current situation. To eliminate this problem, I have drafted new directives for your review and consideration. Please evaluate each draft on its own merit with the goal of finding acceptable solutions in which all can agree on. As you must know LANCER has made some inquiries regarding our activities which we cannot allow. Please submit your views no later than October. Your action to this matter is critical to the continuance of the group.

DRAFT

Directive Regarding President's EYES ONLY

In the likely event that the subject of unidentified flying objects or unconventional aerial weapons is a subject matter under discussion with the Chief Executive, National Security Council Staff, department heads, the Joint Chiefs, and foreign representatives, a clarification of the question is in order to ascertain the reason(s) for bringing up the subject. A standard response should suffice to redirect the question. Under no circumstances should a member suggest or by inference, that the subject is classified as a national security threat. In the unlikely event that UFO's overtly display hostile intent towards the security of the United States, as a group, and after consultation, should a full disclosure be made in accordance with the law as required.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED

DATE 11/11/83 BY [REDACTED]

Writing of telephone conversation between reporter [Barney Kilgallen] and his close friend, [Howard Rothberg] (A); from writing of telephone conversation of [Marilyn Monroe] and Attorney General Robert Kennedy (B); Appraisal of Content: [REDACTED]

1. Rothberg discussed the apparent break of subject with Kilgallen and the break up with the Kennedys. Rothberg told Kilgallen that she was attending Hollywood parties hosted by the "inner circle" among Hollywood's elite and was becoming the talk of the town again. Rothberg indicated in so many words, that she had secrets to tell, no doubt arising from her trysts with the President and the Attorney General. One such secret mentions the visit by the President at a secret air base for the purpose of inspecting things from outer space. Kilgallen replied that she knew what might be the source of visit. In the mid-fifties Kilgallen learned of secret effort by US and UK governments to identify the origins of crashed spacecraft and dead bodies, from a British government official. Kilgallen believed the story may have come from the New York Times in the late forties. Kilgallen said that if the story is true, it would cause terrible embarrassment for Jack and his plans to have NASA put men on the Moon.
2. Subject repeatedly called the Attorney General and complained about the way she was being ignored by the President and his brother.
3. Subject threatened to hold a press conference and would tell all.
4. Subject made references to "bases" in Cuba and knew of the President's plan to kill Castro.
5. Subject made reference to her "diary of secrets" and what the newspapers would do with such disclosures.

Operations Review
by Allen W. Dulles

THE MJ-12 PROJECT

The Overview. In pursuant to the Presidential National Security Memorandum of June 28, 1961, the U.S. intelligence operations against the Soviet Union are currently active in two broad areas; aircraft launch vehicles incorporating ELINT and SIGINT capabilities; and balloon borne decoys with ECM equipment.

The Situation. The overall effectiveness about the actual Soviet response and alert status is not documented to the point where U.S. intelligence can provide a true picture of how Soviet air defenses perceive unidentified flying objects.

Informational sources have provided some detail on coded transmissions and tactical plans whose reliability is uncertain, and thus, do not give us precise knowledge of Soviet Order of Battle. Current estimates place Soviet air and rocket defenses on a maximum alert footing with air operations centered on radar and visual verification much the same as ours.

Future psychological warfare plans are in the making for more sophisticated vehicles whose characteristics come very close to phenomena collected by Air Force and NSA elements authorized for operations in this area of intelligence.

Basis for Action. Earlier studies indicated that Americans perceived U.F.O. sightings as the work of Soviet propaganda designed to convince U.S. intelligence of their technical superiority and to spread distrust of the government. CIA conducted three reviews of the situation utilizing all available information and concluded that 80% of the sighting reports investigated by the Air Force's Project Blue Book were explainable and posed no immediate threat to national security. The remaining cases have been classified for security reasons and are under review. While the possibility remains that true U.F.O. cases are of non-terrestrial origin, U.S. intelligence is of the opinion that they do not constitute a physical threat to national defense. For reasons of security, I cannot divulge pertinent data on some of the more sensitive aspects of MJ-12 activities which have been deemed properly classified under the 1954 Atomic Energy Act of 1954.

I hope this clarifies the necessity to keep current operations within CIA activities in sensitive areas from becoming official disclosure. From time to time, updates will be provided through NIE as more information becomes available.

"Mr. Premiere a situation has developed that affects both our countries and the world and I feel it necessary to convey to you a problem that we share in common."

"Mr. President I agree."

"As you must appreciate the tension between our two great nations has often brought us to the brink of showmanship with all the tapestry of a Greek comedy and our impasse last year was foolish and deadly. The division that separates us is through misunderstanding, politics, and cultural differences. But we have one thing in common which I would like to address to your working group on the UFO problem."

"Yes, yes...I agree with your assessment. We nearly tied the knot that divides us permanently. Our working group believes the same way as yours. The UFO problem presents grave dangers to our

countries and to the whole world. If we allow suspicions and miscalculations to force our military defense systems to react to this problem...God will never forgive us."

"Then you agree Mr. Premiere that we should cooperate together on this issue?"

"Yes, Mr. President."

"Mr. Premiere, I have begun an initiative with our NASA to exchange information with your Academy of Sciences in which I hope will foster mutual concern over this problem and hopefully find some resolution. I have also instructed our CIA to provide me with full disclosure on the phantom aspects and classified programs in which I can better assess the situation. Can you persuade your KGB to do likewise."

"Mr. President, I cannot guarantee full cooperation in this area but I owe it to future history and the security of our planet to try. As you must know I have been somewhat limited in my official capacity as Party Chairman to order such cooperation in this area. We too feel that the UFO is a matter of highest importance to our collective security. If I can arrange for a secret meeting between our working groups at a secret location and at a time designated by you, I feel that this much on my part can happen."

"Mr. Premiere, if a meeting at this level can convene it will be a important first step. It will lead to more dialog and trust between our countries and reduce the ever present threat of nuclear war."

"Yes, Mr. President it will."

"Then we are in agreement."

"Yes."

“Until we talk again, this conversation is classified top secret between us.”

“Yes. Until we talk again.”

Dear Dr. Menzel:

Please accept my deepest apologies for the delay in answering your letter of 2 August, as well as the acknowledgment of the receipt of your book. I was away for some time during the summer and the Navy Department forwarded your letter to my home where I was a long time receiving it.

Thank you very much for your book. To my mind, it was very well done and I enjoyed it and found it of great interest. I should say that you have effectively put to rest all surmises about flying saucers being from "outer space". You have done a thorough and praiseworthy job.

As I told you at the last "Ends of the Earth", I resigned from NICAP about 20 months ago feeling that it had degenerated from an organization honestly trying to find out something definite about possible unknowns, into a body bickering about personalities. The Air Force, too, could have helped by not being so secretive.

At all events, you have done a fine job and I am very grateful you were so kind as to send me your book.

Again with thanks and the hope of seeing you at the next "Ends of the Earth", please believe me

Most cordially,

R. H. Hillenkoetter

MEMORANDUM FOR
The Director

[REDACTED], Central Intelligence Agency

SUBJECT: Classification review of all UFO intelligence files affecting National Security

As I had discussed with you previously, I have initiated [REDACTED] and have instructed James Webb to develop a program with the Soviet Union in joint space and lunar exploration. It would be very helpful if you would have the high threat cases reviewed with the purpose of identification of bona fide as opposed to classified CIA and USAF sources. It is important that we make a clear distinction between the knowns and unknowns in the event the Soviets try to mistake our extended cooperation as a cover for intelligence gathering of their defence and space programs.

When this data has been sorted out, I would like you to arrange a program of data sharing with NASA where Unknowns are a factor. This will help NASA mission directors in their defensive responsibilities.

I would like an interim report on the data review no later than February 1, 1964.

/s/ John F. Kennedy

Received 7/9/99
Jimmy Cooper

IMPORTANT

July 7, 1999

Please read everything I am about to tell you as the truth. I am not a prankster or a wacko. My reason for typing this letter is to give you the facts as I know them. I am what is called in spy jargon a "walk in." I became such in [1982] when I learned about [Bill Moore] and his ["aviary"] sources who were really [OSI agents.] Unlike yourself and others, Moore was taken in by the deception about Majestic Twelve and EBE's. He was promised "inside" information regarding the Roswell case. From what I know about Moore and his desire to be on the "inside" led him to hoax some documents based on material supplied to him by OSI. I think he was so taken in by the material that he believed it himself and went off the deep end. You seemed by what I have been told and what I have read about you on the internet to be a level-headed guy with some real backing and good information on the UFO issue. You may not know now, but you have some really important stuff that is creating a lot of tension in the UFO community. If you don't, you have better appreciate it. You have been given information that no one has. To make my point a little more clearer, remember a few years back when you got [the JFK memo?] [William Colby] got fingered in it and someone decided to [shut him up] before he was questioned about it. Coincidence? No way! He was not the first to be eliminated and won't be the last. I assure you. You have been left alone for the most part I think because you are a nobody in the UFO community and have no credibility with them and that is good. I think "they" wanted it this way. Being a high profile personality is not always a good thing. Look how STF got put on the "watch list" by the OSI. Too high of a profile and too vocal with national identity. Linda Howe is another example.

IMPORTANT

IMPORTANT

When high profile individuals begin making waves with allegations and hard proof they put themselves in very difficult situations in which they have to defend constantly. The demise of several key personalities in just the last five years should tell you something.

Now, I want to fill you in on some things regarding the special studies and conclusions by the defunct MJ-12 group.

- a. MJ-12 does not exist as a government intelligence entity. It ceased to exist in 1969 and became a private concern financed by big money and big science.
- b. The group has been called by many names. The most recent one was used in 1992 and was identified by the name [JEHOVAH.] At one time it was called [ZODIAC] and may have changed in 1995.
- c. The UFO/EBE Working Group is an international consortium financed and supported by some of the biggest money institutions and private industrialists in the world.
- d. MJ-12 was a consolidation of two Pentagon projects [MAJESTIC] and [JEHOVAH] overseen by a group of twelve high level military, intelligence, and scientific institutions within the defense establishment hence MJ-12. Each code name had classification above TOP SECRET and fell into a classification called MOST SECRET.

MAJESTIC originally was a government panel appointed by HST to look into the possibility of extraterrestrial contact and to seek ways of detecting nonterrestrial signals through the creation of the NSA. The highest classification in 1952 was [TRINE] and later [UMBRA] As of 1990 it is [SACRED.]

ADAM & EVE

[JEHOVAH] was a DoD project to back engineer the hardware and research the physics. [Dr. J. Robert Oppenheimer] was appointed by [Dr. Bush] to head this project. The project name was coined by [Albert Einstein] in [1949.] Oppenheimer held this job until 1953 until the AEC no longer considered him reliable and had his security clearance taken away and lost his government job in 1954.

Einstein became unreliable in 1955 and died of "cancer".

Oppenheimer continued as a MJ-12 player until his death from "cancer."

In [1960] MJ-12 concluded that UFOs were a possible threat to U.S. defenses and could instigate mass paranoia. They also concluded that the EBEs could gain control of U.S. defenses

IMPORTANT

during a nuclear crisis by [interfering with the guidance and targeting computers of the Atlas ICBMs based in Turkey.]

- j. In 1960, [President Eisenhower] approved a joint defense plan written by MJ-12 that in the event the U.S. came under a nuclear attack by the USSR through EBE deception the U.S. would not retaliate with proposed USAF [SIOP] and only after confirmation of UFO misidentification launch surgical strikes on the USSR. The purpose of the strikes was to take out USSR command and control infrastructure preventing an all out nuclear war.
- k. During the Cuban Missile Crisis President Kennedy was briefed by MJ-12 and was told that the EBE deception was the reason the Soviets wanted to place first strike nuclear weapons in Cuba and he therefore restricted U.S. nuclear forces from initiating the [GRAND TOUR] to bomber strikes. [General LeMay] was so furious with JFK that he secretly gave orders to SAC to go ahead with SIOP in the event the U.S. perceived a first strike warning from Russia.
- l. In 1963, JFK sought to ease the uneasy tension by extending cooperation with the USSR in outer space investigation of UFOs through a joint moon project. MJ-12 was opposed to this because they felt the militarization of the moon would place the U.S. in a dangerous situation with the EBES who control the dark side of the moon.
- m. In [1964,] President Johnson was briefed by MJ-12 on the dangerous relationship with EMEs and how they [influenced the doctrines and policies of U.S. foreign relations.] MJ-12 successfully prevented [NICAP] representatives from issuing their conclusions on UFOs to government leaders and blocked attempts by NICAP to brief Johnson on the UFO threat. MJ-1 was responsible for this coup.
- n. In [1969,] President Nixon was briefed by MJ-12 on all aspects of UFO activity and the EBE problem since 1947. Fearing possible leaks within his NSC and national security advisor [Kissinger,] Nixon approved a Special Classified Executive Order that required the U.S. intelligence community to purge all references to MJ-12 in their UFO files and to destroy documents that could connect him to JFK's assassination by MJ-12. As Vice President, Nixon approved [ZR RIFLE] written by the [40 Committee] (MJ-1 issued new directives that sanctioned JFK's murder) for political assassination operation.
- o. After the press learned of the Watergate break in and theft of documents that could link MJ-12 to the 40 Committee, MJ-12 arranged for Nixon's exposure to [ZR RIFLE] and black mailed him which led to his resignation.
- p. MJ-12 arranged for the removal of FBI Director [J. Edgar Hoover] in 1972 through "natural causes" because he "knew too much" and had used his [Contract killers] to eliminate unreliable individuals who could expose MJ-12's existence and activities

IMPORTANT

Mr. Cooper, I could go on and on but I think you get the gist of it. I cannot verify everything I have written here but with a little reading and research I think you can judge for yourself whether all this is true or not. Consider the JFK murder for example. Everyone believes he was a victim of a "lone nut" assassin as the Warren Commission Report said (which by the way was pure fiction). It was not the Cuban problem or the Cubans. Cuba was a screen to keep civilian researchers and the Congress away from the true motive for his death. Simply put, Kennedy would have interfered with MJ-12's effort to come up with a defense and a plausible explanation to the UFO/EBE problem and was too sensitive an issue for interruption even by a president. Everyone believes that a president is in charge of his own office. That is simply NOT TRUE! Presidents can be and are compromised about issues they don't need to know of. The reason is a simple one. It gives them plausible deniability just like CIA directors who are often asked this question: 'What do we know about UFOs?' Once exposed to the data they are changed and are stuck with this problem: 'What do I tell the President?' You can't tell the President without telling others. There is no such thing as a secret in the White House. Just look at the China espionage case. Until he really needs to know nothing will be told him and that is that. This is the real dilemma for those in "the know" because the [EMEs] (extraterrestrial materialized entities) have complete control over UFOs (not to be confused with man-made UAVs often mistaken for UFOs for they have been around since the 1950s and are operated and controlled by the USAF, CIA and NRO) and can appear anywhere as anything at any time. Do you understand now. The intelligence behind true UFO sighting cases can [materialize] and

██████████

IMPORTANT

appear at will to anyone at anytime any place. Why do you think the Air Force wanted Project Blue Book terminated? Because they could not explain them in conventional terms without being laughed at by scientists. After 12,000 cases they had all the evidence they needed and handed it over to the CIA and NSA. Was it mere coincidence that Blue Book was terminated (after Apollo 11) landed on the moon? And, do you think it was mere coincidence that the [Dead Sea Scrolls] appeared about the same time the UFOs were found in [New Mexico?] Everything associated with UFOs has a purpose and so far, no one has figured it out yet. The appearance of UFOs in our century is no accident. Why do you think the UFO Study Group appointed in 1947 was called MAJESTIC? And, why do you think the other project was called JEHOVAH? Put the two together and see for yourself. [It is SPIRITUAL!] If you don't believe me just read the Bible. Yes, the Bible. Mj-12 did and it scared the shit out of them. The 12 Apostles and the 12 created in 1947. One is an antitypical reflection of the other except the antitypical 12 are not spiritual men and couldn't grasp the significance and amount of what was happening on the world scene. I know this sounds crazy and unbelievable but it is true, believe me. I have from reliable sources that the CIA used [Jacques Vallee's] books as a guide for interpreting the human response to the UFO contact problem and I suggest you do the same. He is studied at the CIA and NSA and is quoted in their literature. One thing that you should concern yourself with and that is the possible undercurrent of image and character assassination that may be used against you if you are taken too seriously by the media and the press. Unless you have strong backing by the responsible members of the UFO

IMPORTANT

and the media you could end up like some others who have tried to use this knowledge for their own personal gain. I also caution you about the [severe psychological and spiritual affects] from UFO investigations. Some well known researchers have suffered [personal identity questions] and loss of close family ties and even faith itself. Don't let this happen to you. You have to maintain a balance and perspective when investigating this phenomenon. Some have lost all sense of reality and have suffered insanity as a result. I wouldn't recommend getting involved in remote viewing for a solution. The EMEs are not to be believed and are quite deceptive. I'll let you in on one secret that MJ-12 found early on. The earth's environment has undergone significant changes and we are part of the ENVIRONMENT! The redacted portion of the Library book found in New Mexico predicts a world wide invasion of EMEs in the year 2030 according to the lunar calendar which commences sometime [after 1999.] [The CIA] has undertaken a survey project called [ENVIRONMENT] through a joint CIA-civilian project called [MEDEA] to look at what damage has been caused by EME controlled UFO activity especially around nuclear power plants and industrial waste production. The [digital Trojan Horse] is going to wreck havoc soon and we have the EMEs to blame. (not really, the army is responsible for that one). To reduce it in a few words, WE ARE CATTLE AND SUBJECT TO SLAUGHTER BY EMEs. That is the GAME PLAN. The "insiders" know this and are taking advantage of the situation. [population control] through [biological warfare] and [regional conflicts.]

If UFOs trigger a nuclear exchange lets say between India and Pakistan, or between China and Japan, or North and South Korea, or between Israel and Iraq, the NATO countries will surely take advantage and try to finish them off. Keep an eye on Russia and China. They may start something along these lines and try to draw the U.S. into it. In order to justify this kind of [population control] they may invent a crisis from outer space. They may try to convince the world that extraterrestrials may invade our planet and eliminate the human race and therefore they need to deploy their space defenses and kill a number of people in the process. Already there are events taking place all over the U.S. and in other countries that are UFO related that bear this out. We are being [inoculated] for possible [biological warfare] and at the same time being [conditioned] (programmed) for [extraterrestrial contact.] This was and still is the agenda of secret government preparations. They know it is coming but don't know when and how.

I hope you don't take all this as the rantings of a raging lunatic. What I have written is based on what I have learned over the years and my association with the intelligence community who is equally in the dark as to the ultimate conclusion. I have included some goodies for you which you might find helpful. Lot's of luck to you and keep plugging away. The answer may be a simple one.

Did President Kennedy... Meet Extraterrestrials?

by **Michael Salla**, Ph.D.

Part I

Was President Kennedy Given ET UFO Message About Cuba?

May 20, 2009

A rare video has surfaced with important interviews and testimony concerning [George Adamski](#)'s claims of having filmed flying saucers and having met with their extraterrestrial occupants.

The video gives credence to Adamski's claims of having secret meetings with European dignitaries including Pope John XXIII and members of the Pentagon to secretly brief them about extraterrestrial life. Among the more controversial of Adamski's claims is that *he privately met with President Kennedy in late 1961*. Adamski claims he passed on a message from his extraterrestrial contacts about a future world crisis.

If true, Adamski and his extraterrestrials played an unknown role in advising Kennedy on the best strategy for future events such as *the Cuban missile crisis*.

The video contains a number of interviews with individuals that personally knew Adamski and were privy to the unique circumstances of his alleged contacts with extraterrestrials. [Desmond Leslie](#), a former Royal Air Force pilot, Irish Lord and cousin to Winston Churchill, related his own investigation of Adamski. Adamski claimed he secretly visited Pope John XXIII and passed on a message from the extraterrestrials to him shortly before the Pope's death.

Leslie was subsequently able to confirm Adamski's did meet Pope John XXIII and was given a papal gold medallion for his service.

One of the most powerful pieces of evidence confirming Adamski's claims of *regular meetings with extraterrestrials* occurred at the Silver Spring, Maryland home of **Madeline Rodeffer** on February 26, 1965. Rodeffer worked as a secretary for the US Air Force and was physically present when Adamski sighted a bell shaped flying saucer at her home. She saw it for approximately 10 minutes and at times could see human looking figures through the portholes.

Adamski filmed the saucer using her camera when she was unable to film it herself due difficulties from a recovering broken leg. Prior to the sighting, she saw three young men arriving in an Oldsmobile who told Adamski to get ready to film the flying saucer. Adamski told Rodeffer that they were *part of a human looking contingent of extraterrestrials living among humanity*.

The film was subsequently analyzed by three independent photo/film image experts.

- One was [William Sherwood](#), who at the time worked at Eastman Kodak as an optical physicist. He traveled to Rodeffer's home and was able to determine that the flying saucer in the film was not a model but approximately 27 feet in size. Sherwood subsequently concluded that the film was genuine.
- Another visual imagery expert was Colonel [Colman Von Kevieszky](#) who worked at the time with the United Nations audiovisual department. He also traveled to Rodeffer's home to investigate the video and confirmed that it was genuine.
- Finally, [Bob Oechsler](#), who worked as a physicist and NASA mission specialist, also independently concluded that the film was genuine and depicted a flying saucer.

[Video segment with Rodeffer discussing 1965 filming of flying saucer](#)

Other witnesses were interviewed who said they saw flying saucers in association with Adamski's visits.

One of these was Major **Hans Peterson** from the Danish Air Force who had also worked at the Danish NATO exchange office in Washington DC. Peterson had arranged lectures for Adamski in Scandinavia and personally saw flying saucers during Adamski's visits.

Adamski's claim of having an ordnance pass which gave him access to U.S. military facilities was confirmed by **William Sherwood**. Sherwood himself had previously worked for the U.S. Ordnance Department and possessed his own ordnance pass. Sherwood saw Adamski's Ordnance pass thereby giving credence to Adamski's claims that he secretly briefed the Pentagon about his extraterrestrial contacts.

If Adamski did regularly brief the Pentagon and European VIPs, then it's very possible that one or more U.S. Presidents also met with him, and received messages from extraterrestrials. This leads to Adamski's claim that he *secretly met with President Kennedy* around October 1961 to deliver a message from the "space brothers."

According to Major Peterson, the message contained advise on a world crisis to occur in about a year that was later revealed to be the October 1962 Cuban Missile crisis.

If true, the contents of the message may have helped Kennedy develop the right strategy for dealing with a conflict that could easily have escalated into a Third World War. The extraterrestrial message, apparently, also contained an invitation for Kennedy to meet with them in California.

While there is no direct independent evidence supporting Adamski's claim, there is important circumstantial evidence that President Kennedy accepted the invitation.

This had dire consequences.

Part II

Did President Kennedy Meet Extraterrestrials?

May 22, 2009

According to claims [in a rare video](#), **George Adamski** met with President Kennedy at the White House in late 1961 and passed on a letter to him from human looking extraterrestrials.

In addition to giving advice on the Cuban missile crisis, the alleged letter also contained an invitation for Kennedy to meet with the extraterrestrials.

If Kennedy did attend such a meeting, it may explain:

- why he was certain about human looking [extraterrestrial life](#)
- made undisclosed trips to Air Force bases to deal with the UFO issue
- why he instructed NASA to cooperate with the USSR on joint space and lunar missions, and to release classified UFO files

President Kennedy arrives at Homestead AFB, Florida, 1962

Lou Zinstag, Carl Jung's niece [describes what she was told by Adamski](#) concerning Kennedy's alleged meeting with extraterrestrials:

I still remember his [Adamski's] White House story. He told me that he had been entrusted with a written invitation for President Kennedy to visit one of the space people's huge mother ships at a secret airbase in Desert Hot Springs, California, for few days. In order to keep this visit absolutely secret, Adamski was to take the invitation directly to the White House through a side door.

Still glowing with excitement and smiling happily, he explained how the row of cars in which his taxi was traveling had to stop because of a red light just in front of this particular door where a man he knew - a spaceman, he said - was standing ready to let him in.

Adamski later learned that Kennedy had spent several hours at the airbase after having canceled an important trip to New York, and that he had a long talk with the ships crew, but that he had not been invited for a flight."

The quality of witness testimonies, photos and film evidence presented in the rare video (see part one above, of this investigative series), all lead to the conclusion that *George Adamski was largely telling the truth about his flying saucer sightings and contacts with human looking extraterrestrials.*

There is however no direct physical evidence that Kennedy met with the extraterrestrials Adamski was in contact with. There is, however, circumstantial evidence that such a meeting did happen, and it influenced Kennedy's policies on space cooperation and UFOs.

The first set of circumstantial evidence concerns Kennedy's certain knowledge of UFOs and human looking extraterrestrials.

A former flight steward and loadmaster on Air Force One, [Bill Holden](#), confirmed that Kennedy was aware of UFOs and human looking extraterrestrials. In a June 2007 interview, Holden explained that in June 1963, while flying to Germany on Air Force One, he placed two newspapers before Kennedy where UFOs were clearly pictured on the front page.

In response to Kennedy's question of what he thought of UFOs, Holden said:

"For us to believe that we are the only intelligent beings in the world is unbelievable. So, yes, I believe that there is such a thing as other human species as well as UFOs."

In response President Kennedy said:

"You're right, young man."

The unqualified nature of Kennedy's response revealed his knowledge that both UFOs and human looking extraterrestrials were real. This is circumstantial evidence that Kennedy was either briefed or did meet with human looking extraterrestrials as Adamski claimed.

A second set of circumstantial evidence concerns [a leaked document](#) that claims that Kennedy knew, while serving in the U.S.

Congress, about UFO crashes and the recovery of alien bodies. As a former Naval Intelligence officer, Kennedy was deemed reliable to receive such highly classified information. While the authenticity of the document in question, "Interplanetary Phenomenon Unit Summary," is disputed, the U.S. Army did finally acknowledge through FOIA responses that the *Interplanetary Phenomenon Unit* did at one time exist and was abolished in the late 1950s.

The helps support the legitimacy of the leaked document. Furthermore, the claim that Kennedy had knowledge of UFO crash retrieval operations is supported by British UFO researcher **Timothy Good**. In his book [Need to Know](#) (2007), Good cites a reliable military source that Kennedy was taken to see the alien bodies from Roswell.

Good wrote:

"Around 1961/1962 President J.F. Kennedy expressed a wish to see the alien bodies associated with an alien crash-site. He had obviously been informed of their existence and wished to see for himself the evidence...According to information received, the alien bodies were taken to Florida when Kennedy went to see them [at] a medical facility."
[pp. 420-21]

If the leaked document and/or the military whistleblower are accurate, then President Kennedy was aware of the reality of extraterrestrial life and technology. If Kennedy was so interested in seeing dead alien bodies during the early part of his administration, then *it is very plausible that he would have accepted an invitation to meet with live extraterrestrials* as Adamski claimed.

The third set of circumstantial evidence concerns President Kennedy secretly traveling to an undisclosed Air Force base to watch UFOs.

A reliable source, according to [UFO researcher Timothy Cooper](#), said that Kennedy,

"did fly out to an air force base to personally watch an unidentified bogie track from an aircraft under tight security which got no press coverage sometime in 1962."

If Kennedy did travel to a secret airbase in California to meet with live extraterrestrials, then the incident described by Cooper offered at least one opportunity for such a meeting to take place.

Kennedy's alleged meeting with extraterrestrials, would have made him the second U.S. President to meet extraterrestrial ambassadors in the California desert. The first allegedly occurred on [February 20, 1954 with President Eisenhower](#) at Edwards Air Force base.

So far, the circumstantial evidence reveals that President Kennedy had been briefed about UFOs and extraterrestrial life earlier in his political career. Also, Kennedy knew that some extraterrestrials looked similar to humans. Finally, Kennedy secretly traveled to one or more undisclosed Air Force bases to view UFOs in action in 1962. The circumstantial evidence considered so far, does make plausible Adamski's claim that Kennedy secretly traveled to California to meet with extraterrestrials sometime in 1961/1962.

More circumstantial evidence for such a meeting is found in Kennedy's initiative to get the *USSR and USA to cooperate in joint space and lunar missions*, and to release classified UFO files.

Part III

Kennedy linked US-USSR space missions with classified UFO files

May 27, 2009

In 1963, President **John F. Kennedy** launched a ground breaking initiative to get the USSR and USA to cooperate in joint space and lunar missions. In the background of this publicly announced initiative with powerful Cold War implications was a more secretive attempt to release classified UFO files.

Leaked documents reveal that Kennedy instructed the CIA to release classified UFO files as part of the cooperative space effort with the Soviet Union. If Kennedy had succeeded, there would have been joint space mission to the moon and eventual public release of classified UFO files by both the US and USSR. President Kennedy's assassination quickly led to the abandonment of his joint moon mission with the USSR, and ended his administration's effort to force the CIA to release classified UFO files.

In a speech before the United Nations General Assembly on September 20, 1963, [President Kennedy said](#):

Finally, in a field where the United States and the Soviet Union have a special capacity - in the field of space - there is room for new cooperation, for further joint efforts in the regulation and exploration of space. I include among these possibilities a joint expedition to the moon.

In putting into effect his commitment for joint space missions, President Kennedy issued [National Security Action Memorandum No. 271](#) on November 12, 1963 with the subject header: "Cooperation with the USSR on Outer Space Matters:"

I would like you to assume personally the initiative and central responsibility within the Government for the development of a program of substantive cooperation with the Soviet Union in the field of outer space, including the development of specific technical proposals. I assume that you will work closely with the Department of State and other agencies as appropriate.

The Memorandum went on to say that the cooperation was a direct outcome of Kennedy's September 20 proposal,

"for broader cooperation... in outer space, including cooperation in lunar landing programs."

The Memorandum was classified "Confidential" and circulated to:

- James Webb (NASA Administrator)
- the Secretary of State
- the Secretary of Defense
- the Director of the CIA
- the President's Science Advisor
- three other agency directors.

[President Kennedy Speech to UN General Assembly on US-USSR Joint Moon Mission](#)

In addition to the *Confidential National Security Action Memorandum*, Kennedy issued a more highly classified “Top Secret” Memorandum to the Director of the CIA.

Dated the same day of November 12, 1963 the subject header of the file was:

“Classification review of all UFO intelligence files affecting National Security.”

The Top Secret Memorandum [went on to say](#):

[I] have instructed James Webb to develop a program with the Soviet Union in Joint space and lunar explorations. It would be very helpful if you would have the high threat [UFO] cases reviewed with the purpose of identification of bona fides as opposed to classified CIA and USAF sources.... When this data has been sorted out, I would like you to arrange a program of data sharing with NASA where Unknowns [UFOs] are a factor. This will help NASA mission directors in their defensive responsibilities. I would like an interim report on the data review no later than February 1, 1964.

It's important to note that CIA Memorandum refers to the National Security Action Memorandum issued to Webb on the same day.

Even though the leaked *Top Secret Memorandum to the CIA* has not been officially acknowledged (it has been ranked [medium-to-high level of authenticity](#)), there is no question about the legitimacy of the *National Security Action Memorandum (NSAM)*.

The November 12, [1963 National Security Action Memorandum](#) clearly showed that Kennedy had decided to cooperate with the USSR on “Outer Space Matters.” If Kennedy had been warned by about the dangers of future conflict with the Soviet Union and/or with extraterrestrial life, then sharing classified UFO files was an obvious way to implement the National Security Action Memorandum.

At the time of Kennedy's initiative, the USAF was conducting a public investigation of UFO cases and made many available under [Project Blue Book](#).

UFO cases that had national security implications, however, were investigated under a separate reporting system. [Joint Army Navy Air Publication \(JAMAP\) 146](#) created the Communications Instructions for *Reporting Vital Intelligence Sightings* (CIRVIS system) that required all civilian and military pilots in the US and Canada to report UFO sightings. UFO sightings with national security implications were investigated under the CIRVIS system.

These UFO cases were classified and their release was an offense under the Espionage Act. Less important UFO sightings were

not classified and made available through the Blue Book reporting system. The separate investigation systems for UFO sightings was eventually disclosed in 1979 by a document released through the Freedom of Information Act.

In the released [memorandum dated Oct 20, 1969](#), Brigadier General **C.H. Bolender** acknowledged:

“reports of unidentified flying objects which could affect national security are made in accordance with JANAP 146 or Air Force Manual 55-11, and are not part of the Blue Book system.”

In 1963, President Kennedy was therefore seeking the release of classified UFO files collected through the CIRVIS reporting mechanism, and not those made available through Project Blue Book.

In conclusion, *National Security Action Memorandum No 271* and the associated *Top Secret CIA Memorandum* issued on November 12, 1963 are evidence that Kennedy firmly linked cooperation with the USSR on “outer space matters” with the release of classified UFO files. For undisclosed reasons, Kennedy was convinced that the CIA was the lead agency for ensuring the release of UFO files.

This suggests that the USAF and the other military services were secretly required to release UFO files reported through the CIRVIS system to the CIA. Kennedy was therefore directly confronting the CIA over its ultimate control of classified UFO files.

Ten days after the two November 12 memoranda were issued, President Kennedy was dead.

Part IV

Kennedy assassination linked to CIA and classified UFO files

June 9, 2009

On November 12, 1963, President John Kennedy issued two Presidential memoranda instructing **NASA** and the **CIA** to begin cooperating with the USSR on joint space missions including a lunar landing. On the same day, a conversation occurred between Kennedy and Soviet Premier Nikita Khrushchev on the importance of sharing information concerning UFOs as they moved forward with joint space missions.

Leaked documents concerning the alleged conversation and the role of the CIA in controlling UFO information directly implicate the CIA in Kennedy's assassination ten days later.

In addition to the two Presidential memoranda cited earlier in Part III above, another leaked document shows the extent to which Kennedy was prepared to cooperate with the Soviet Union in declassifying UFO files. The aim was to avoid the risk of a mistaken military confrontation over UFOs.

The document (below images) is allegedly a *Top Secret NSA* intercept of a “Hot Line” conversation between President Kennedy and Soviet Premiere Nikita Khrushchev dated November 12, 1963.

"Mr. Premiere a situation has developed that affects both our countries and the world and I feel it necessary to convey to you a problem that we share in common."

"Mr. President I agree."

"As you must appreciate the tension between our two great nations has often brought us to the brink of showmanship with all the tapestry of a Greek comedy and our impasse last year was foolish and deadly. The division that separates us is through misunderstanding, politics, and cultural differences. But we have one thing in common which I would like to address to your working group on the UFO problem."

"Yes, yes...I agree with your assessment. We nearly tied the knot that divides us permanently. Our working group believes the same way as yours. The UFO problem presents grave dangers to our

countries and to the whole world. If we allow suspicions and miscalculations to force our military defense systems to react to this problem...God will never forgive us."

"Then you agree Mr. Premiere that we should cooperate together on this issue?"

"Yes, Mr. President."

"Mr. Premiere, I have begun an initiative with our NASA to exchange information with your Academy of Sciences in which I hope will foster mutual concern over this problem and hopefully find some resolution. I have also instructed our CIA to provide me with full disclosure on the phantom aspects and classified programs in which I can better assess the situation. Can you persuade your KGB to do likewise."

"Mr. President, I cannot guarantee full cooperation in this area but I owe it to future history and the security of our planet to try. As you must know I have been somewhat limited in my official capacity as Party Chairman to order such cooperation in this area. We too feel that the UFO is a matter of highest importance to our collective security. If I can arrange for a secret meeting between our working groups at a secret location and at a time designated by you, I feel that this much on my part can happen."

"Mr. Premiere, if a meeting at this level can convene it will be a important first step. It will lead to more dialog and trust between our countries and reduce the ever present threat of nuclear war."

"Yes, Mr. President it will."

"Then we are in agreement."

"Yes."

"Until we talk again, this conversation is classified top secret between us."

"Yes. Until we talk again."

Kennedy and Khrushchev discussed the importance of their respective UFO working groups to deal with the UFO problem to avoid the risk of future conflict.

Kennedy told Khrushchev:

"I have begun an initiative with our NASA to exchange information with your Academy of Sciences in which I hope will foster mutual concern over this problem and hopefully find some resolution."

Kennedy was certainly referring here to the National Security Action Memorandum released on the same day, November 12 1963. Kennedy also said,

"I have also instructed our CIA to provide me with full disclosure on the phantom aspects and classified programs in which I can better assess the [UFO] situation."

While the NSA intercept has not been conclusively determined to be authentic (it has been [ranked medium-to-high level of authenticity](#)), it is consistent with the [November 12 National Security Action Memorandum 271](#) titled: "Cooperation with the USSR on Outer Space Matters."

The risk of mistaken identification of UFOs leading to an accidental nuclear war was also allegedly considered by NATO at the same time. According to [Robert Dean](#), a retired Command Sergeant Major who worked at **NATO** headquarters from 1963-1967, in 1964 NATO issued a Cosmic Top Secret document dealing with the threat posed by UFOs being confused with a nuclear first strike by the Soviet Union.

Titled simply "The Assessment," [Dean said](#) that it was feared that mistaken UFO sightings could start an accidental nuclear war. Dean's statement validates the content of the alleged Hotline transcript and gives support to its authenticity.

More circumstantial evidence for the accuracy of the Hotline transcript was found in a series of 1997 interviews conducted by Khrushchev's son, Sergei. Dr [Sergei Khrushchev said](#) after his father initially refused Kennedy's offer in September of joint space and lunar missions, that "in the weeks after the rejection, his father had second thoughts."

In another interview, [he said](#):

I walked with him, sometime in late October or November, and he told me about all these things. He told me that we

have to think about this and maybe accept this idea. I asked why they would know everything, our secrets? He said it's not important. The Americans can design everything they want. It is a very well developed country, but we will have to save money. It's very expensive...

He thought also of the political achievement of all these things, that then they would begin to trust each other much more. After the Cuban missile crisis, his trust with President Kennedy was raised very high. He thought that it's possible to deal with this President, he didn't think that they could be friends, but he really wanted to avoid the war, so through this co-operation they could sojourn their thoughts on these achievements.

The *November 12 National Security Action Memorandum* revealed that Khrushchev had only just accepted Kennedy's offer.

The Hotline conversation shows that Kennedy and Khrushchev reaching agreement on a broad range of issues concerning sharing UFOs information and joint cooperation in space. The dating of the Hotline conversation is consistent with the agreement reached in the background over this period between Kennedy and Khrushchev.

This gives more confidence that the Hotline document is genuine.

President Kennedy & Governor Connolly shot in Dallas.

Ten days after the breathtaking events of November 12, Kennedy was assassinated.

The most documented source of a CIA link to the Kennedy assassination was the investigation by **Jim Garrison**, District Attorney of New Orleans. Garrison found much documentary evidence to demonstrate that Lee Harvey Oswald was involved in a conspiracy led by Clay Shaw.

Garrison discovered that Shaw had an "*extensive international role as an employee of the CIA.*"

While Garrison was unsuccessful in earning a conviction against Shaw, Garrison was partly vindicated in 1979 by the House Select Committee on Assassinations.

The Committee concluded:

"The committee believes, on the basis of the evidence available to it, that President John F. Kennedy was probably assassinated as a result of a conspiracy. The committee was unable to identify the other gunmen or the extent of the conspiracy."

Historians who view the CIA as complicit in Kennedy's assassination point to the CIA's role in covert operations in Vietnam as the reason why the CIA wanted Kennedy's removal from office.

Col **Fletcher Prouty**, in his well documented book, [*JFK: The CIA, Vietnam and the Plot to Assassinate John F. Kennedy*](#), reveals that Kennedy was attempting to end the CIA's influence over covert operations. Chief among these was the escalating U.S. involvement in Vietnam that Kennedy wanted to end and was why he was assassinated. There is, however, a more compelling reason for why the CIA wanted Kennedy's removal for office - the CIA's role in controlling UFO information.

President Kennedy's bold attempt to cooperate with the Soviet Union in joint space and lunar missions is a historic fact. What is not well known is that this required extensive sharing of UFO information to prevent any misunderstandings over UFOs sightings that could spark military hostilities and jeopardize space cooperation.

Documents confirm that on November 12, 1963 Kennedy and Khrushchev had agreed on steps to share UFO information precisely for this reason, and Kennedy identified the CIA as the lead U.S. agency to implement the process. Kennedy's assassination by a hit team organized by a CIA asset, Clay Shaw, directly implicates the CIA.

CIA officials complicit in the Kennedy assassination were likely acting to preserve the *CIA's institutional power and influence* through its control of UFO information.

There was, however, another secretive organization that was even more threatened by Kennedy's efforts to share UFO files with the USSR – the *MJ-12 Special Operations Group*.

President John F. Kennedy's desire to cooperate with the Soviet Union in joint space and lunar missions led to him asking the CIA to release classified UFO information to the Soviets.

On November 12, 1963, Kennedy issued two Presidential Memoranda and participated in a Hotline discussion with Soviet Premier Nikita Khrushchev to finalize details for future joint space missions. Most importantly, agreement was reached on the need for sharing both countries most sensitive UFO files. Both Kennedy and Khrushchev were concerned that a mistaken identification of UFOs could lead to nuclear war and jeopardize space cooperation.

Kennedy's Memorandum to the Director of the CIA to share UFO files was relayed on to the James Jesus Angleton, the CIA's chief of counterintelligence, who controlled access to the nation's most sensitive UFO files. In responding to Kennedy's request, Angleton followed a secret directive from former CIA Director Allen W. Dulles to ensure that under no circumstances would any U.S. President or his staff gain access to classified UFO files.

Earlier in this series I referred to [a Top Secret NSA intercept](#) of a "Hot Line" conversation between President **Kennedy** and Soviet Premiere **Nikita Khrushchev** dated November 12, 1963. Kennedy and Khrushchev discussed the importance of their respective UFO working groups dealing with the UFO problem to avoid the risk of future nuclear conflict.

Other (leaked) government documents refer to an "MJ-12 Special Studies Project" as the name of the project housing the U.S. UFO working group. For example, on July 14, 1954 a memorandum was sent by President Eisenhower's National Security Advisor Robert Cutler to U.S. Air Force Chief of Staff, General Nathan Twining to schedule a meeting for the MJ-12 Special Studies Project briefing.

The *Cutler-Twining memo* (below image) was found at the National Archives in 1985 and is the most authoritative documentary evidence so far that the name of the U.S. UFO working group during the Eisenhower and Kennedy administrations was associated with the *MJ-12 Special Studies Project*.

Note by STPriedman This memo was discovered at the National Archives by Ms. Moore and Janine Shandera in 1985 in the 126th box of USAF files they went through after the file had been declassified. It is a carbon in original form.

Record Group No. 20 341, Records of the Headquarters United States Air Force

Another leaked document that has been investigated and found to be authentic, more specifically names the U.S. UFO working group as the *MJ-12 Special Studies Group* or more simply, [MJ-12](#).

A top secret document was allegedly rescued from a fire burning the remainder of James Angleton's files after his death on May 12, 1987.

A former counterintelligence colleague of Angleton, who claimed to be present at the burning, sent it on June 23, 1999 to **Timothy Cooper**, a UFO researcher best known for his role in making public leaked MJ-12 documents (see cover letter).

Accompanying the burned memo was a one-page cover letter (above image) to Tim Cooper regarding the history of these eight new directives concerning the MJ-12 program.

Startling revelations in the Source S-1 letter include:

"sensitive files that would connect MJ-12 to JFK's murder.

This document did not exist officially and has never been disclosed within the agency...

We in CI have monitored civilian UFO research for a long time and have played a major role in keeping the UFO community busy...

Nixon's special classified executive order (SCEO) ordered all MJ-12 documentation purged and destroyed.

This one was not. This carbon copy is the only link to MJ-12 and don't expect any more in the future.

Everything is now on computers and there is no existing paper trail to my knowledge..."

The redactions were done by the Majestic Documents team to protect the identity of the author.

According to Dr **Robert Wood** and **Ryan Wood**, the burned document,

is an original carbon with an Eagle watermark characteristic of government work, but so far forensic laboratories have been unable to trace it.... Although no dated is given, its content directly suggests the month of September. The year is estimated to be in the early 1960s and is still under investigation.

The burned document (below images) dates from the Kennedy era and has the characteristics of a government document. If its contents are accurate, it provides smoking gun evidence of a direct link between Kennedy's efforts to gain access to UFO information and his assassination.

Burned Memo

The nine-page "burned" memo, stamped TOP SECRET/MJ-12, is named because it was snatched from a fire before being destroyed, which is why it is discolored and disintegrating. Unlike many of the Majestic documents, this one is an original carbon with an Eagle watermark characteristic of government work, but so far forensic laboratories have been unable to trace it.

The memo is from the Director of Central Intelligence (MJ-1) to MJ-2, MJ-3, MJ-7, in reference to Project MAJESTIC and JEHOVAH, Project EVIRO, Project PARASITE, and Project PARHELION. Although no date is given, its content directly suggests the month of September. The year is estimated to be in the early 1960s and is still under investigation.

The purpose is to have the team review a new set of directives and recommend changes that can be agreed on. Of note is the statement:

"As you must know LANCER [code word for JFK] has made some inquiries regarding our activities which we cannot allow."

The eight tabs of directives are fascinating:

- (A) President's EYES ONLY
- (B) "NEED-TO-KNOW"
- (C) DoD 5200.1
- (D) [Project BLUE BOOK](#)
- (E) Freedom of Information
- (F) PSYOP
- (G) BW (biological weapons)
- (H) Project ENVIRONMENT

Particularly chilling is the *Biological Weapons directive*, which states:

"Designated MJ projects should be held in readiness to perform SPIKE and HOUSE CLEANING operations in major population centers in the event conventional methods are not satisfactory. Specialists from [MK-ULTRA](#) and ARTICHOKE are hereby activated to conduct DOMESTIC."

Logically, this paragraph refers to UFO retrieval operations.

The authenticity of these directives seems beyond question: original onionskin papers, proper forensically verified red ink of the time period, and rare "CI" (counter intelligence) stamps.
from <http://www.majesticdocuments.com/documents/1960-1969.php>

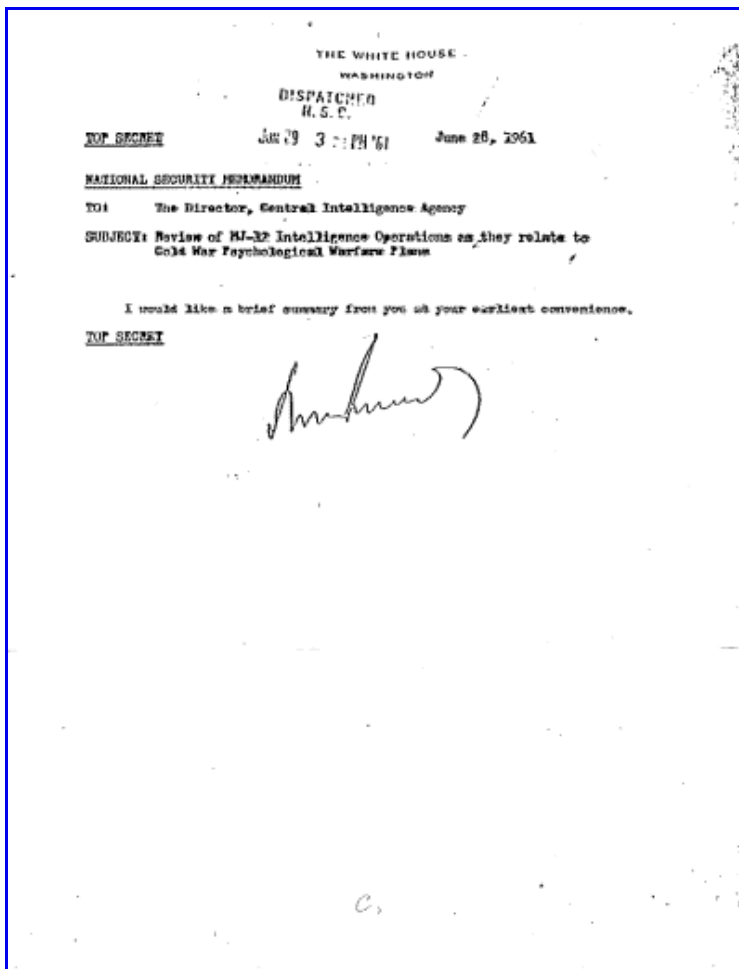

The classified Top Secret document with MJ-12 codeword access is a set of directives from the Director of the **CIA** who simultaneously headed the **MJ-12 Special Studies Project**, to six other members of the Project.

It says:

As you must know Lancer [[Kennedy's Secret Service codename](#)] has made some inquiries regarding our activities which we cannot allow. Please submit your views no later than October. Your action to this matter is critical to the continuance of the group.

The document clearly acknowledges that Kennedy's efforts to gain access to UFO information soon after coming into office on January 20, 1961, actually imperiled the existence of the MJ-12 Special Studies Project/Group.

While the burned document has no date of issue, the authority of the writer and the political context indicates it was written shortly after **Kennedy** had issued his *June 26, 1961 National Security Action Memorandum* (below image) to the Director of the CIA who at the time was **Allen Dulles**.

The Memorandum requested a *“Review of MJ-12 Intelligence Operations as they related to Cold War Psychological Warfare Plans.”*

The burned document acknowledged that it had,

“become necessary to review and evaluate duplication of field activities in light of the current situation.”

This appears to be a reference to the June 26 NSAM review Dulles was ordered to undertake.

The burned document appeared to be a draft for a series of MJ-12 directives from **Allen Dulles**, who knew his time as DCI was limited due to the April 1961 Bay of Pigs fiasco. He needed an answer from the other MJ-12 members by October, a month before he was to retire as DCI on November 29, 1961.

The burned document contained a number of directives concerning how to control UFO information and ensure that it would not be shared with the,

“Chief Executive [President Kennedy), National Security Council Staff, department heads, the Joint Chiefs, and foreign representatives.”

Basically, Dulles secret directives proscribed Kennedy’s National Security team from gaining access to the most sensitive UFO files possessed by the CIA and MJ-12. Most important was what appeared to be a cryptic assassination directive in case senior Washington officials did not cooperate with MJ-12.

While the response of other MJ-12 members is not known, subsequent events indicate that Dulles secret set of directives was approved.

Part VI

President Kennedy's UFO involvement led to assassination order

June 15, 2009

On November 12, 1963, President **John F. Kennedy** had reached broad agreement with Soviet Premier **Nikita Khrushchev** on joint space missions and sharing classified UFO files. This required both leaders instructing their respective UFO working groups to share information. Kennedy did this through a Top Secret Memorandum to the Director of the CIA to share UFO files with NASA and the USSR.

His November 12 Memorandum was relayed on to the **James Jesus Angleton**, the CIA's chief of counterintelligence. Angleton controlled access to the most highly classified UFO files in the U.S, and was in direct communications with [MJ-12](#) - the UFO working group within the "MJ-12 Special Studies Project."

In responding to Kennedy's request, Angleton followed a Top Secret/MJ-12 set of directives.

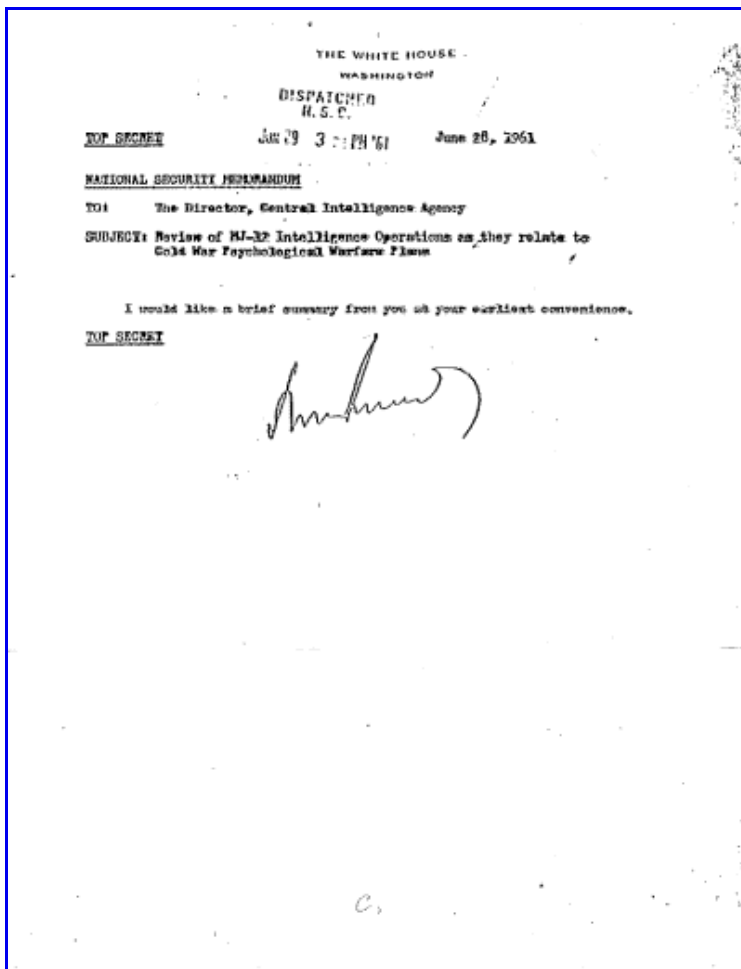

JFK with his CIA Directors, Dulles & McCone in 1962

One of the secret directives, revealed in a leaked partially burned Top Secret/MJ-12 document forensically dated to the early 1960s, was a cryptic assassination directive. In case any senior U.S. official did not cooperate with MJ-12, the directive sanctioned political assassination. If accurate, the leaked document is smoking gun evidence that former CIA Director Allen Dulles was involved in drafting and approving with other MJ-12 members a cryptic "assassination directive."

The MJ-12 "assassination directive" was later implemented by Angleton in response to President Kennedy's November 12, 1963 request to the CIA to release classified UFO files.

Earlier in this investigative series (above reports) I discussed the burned document and its genesis during the final months of **Allen Dulles** tenure as Director of the CIA. Dulles and other MJ-12 members were responding to Kennedy's initial effort on June 28, 1961 to be fully briefed on MJ-12 intelligence operations and UFOs.

Kennedy, according to a leaked Top Secret Memorandum titled "Review of MJ-12 Intelligence Operations," (below image) requested Dulles to give a brief summary.

In response and unknown to Kennedy, Dulles drafted a set directives shortly before his November 1961 retirement. Dulles' draft document was addressed to another six members of MJ-12 requesting comments and their approval. It had clear instructions that under no circumstances would any U.S. President or his national security staff be briefed or given access to classified UFO files.

The most damning directive, drafted by Dulles and apparently approved by six other MJ-12 members was a cryptic assassination directive.

In full, this states (below image):

Draft

Directive Regarding Project Environment

When conditions become non-conductive for growth in our environment and Washington cannot be influenced any further, the weather is lacking any precipitation ... it should be wet.

Dr **Robert Wood** who is the foremost expert in analyzing MJ-12 documents using forensic methods, has concluded that the burned document is an assassination directive.

In *an interview* (below insert) discussing the burned document, he pointed out that the cryptic phrase “it should be wet” originates from Russia, where the phrase ‘wet works’ or “wet affairs” denotes someone who had been killed and is drenched with blood.

The codeword ‘wet’ was later adopted by the Soviet KGB and other intelligence agencies, according to Dr Wood. The term “it should be wet” therefore was a coded command to kill someone. In drafting this cryptic directive, Allen Dulles was seeking approval from six of his MJ-12 colleagues, to lay the justification for the assassination of any elected or appointed official in Washington DC whose policies were “non-conductive for growth”.

The cryptic directive was a pre-authorization for the assassination of any U.S. President who could not “be influenced any further” to follow MJ-12 policies.

Kennedy’s 1963 efforts to end the Cold War, cooperate with the USSR on joint space missions, and share classified UFO files with the USSR created a final showdown with MJ-12.

The trigger was Kennedy's agreement with Khrushchev on November 12, 1963 on space cooperation that led to the *National Security Action Memorandum (NSAM)* - above image - instructing the new Director of the CIA, **John McCone**, to share UFO information with NASA, and due to NSAM 271 (below image), with the USSR.

Kennedy's explosive NSAM to the CIA Director was relayed by William Colby, then (Deputy) Chief of the CIA's Far East Division, to James Angleton in CIA counterintelligence. It was Angleton who had the authority to implement Kennedy's NSAM.

On the bottom of Kennedy's NSAM next to the signature space appears the following handwriting:

"Response from Colby: Angleton has MJ directive 11/20/63"

Colby is here acknowledging that Angleton, two days before Kennedy's assassination, had the MJ directives – the burned document – and would use them to respond to Kennedy's NSAM. This handwriting directly implicates Angleton in the Kennedy assassination due to the cryptic MJ-12 assassination directive.

There is more evidence to directly implicate Angleton in the Kennedy assassination. Lee Harvey Oswald was among a small group of American citizens to have defected to the Soviet Union in 1959. The **CIA** established a file on Oswald in 1960, but [some authors](#) claim that CIA counterintelligence were monitoring Oswald even earlier, and that Angleton was directly involved through an intermediary.

An *alleged leaked CIA document* (below image) also suggests that Oswald was trained by the CIA in 1957 for Soviet assignments.

UNITED STATES GOVERNMENT
Memorandum

CONFIDENTIAL

TO : Mr. James J. Rowley
Chief, U.S. Secret Service

FROM : Mr. John McCone
Director, Central Intelligence Agency

DATE: March 3, 1964

CS-2-34,000

SUBJECT: Central Intelligence Report on the Assassination of John Kennedy

In response to the request made by your office on 24 February 1964 re: Lee Oswald's activities and assignments on behalf of this agency and Federal Bureau of Investigation, there follows a narrative summary of the internal subversive activities of the Oswald subject.

I recommend that unless the Commission makes a specific request for specific information contained herein, that this information not be volunteered. This agency has reason to assume that some junior Commission staff members may be potential sources of leaks to the news media or to other agencies; due to the highly sensitive nature of the enclosed material, it would certainly be in the national interest to withhold it at this time - unless there is, of course, a specific request made.

It is my understanding that Mr. Hoover has certain sensitive information within his agency, which has been transferred to his own personal files for safekeeping; he concurs that no material should be voluntarily given to the Commission which might affect the status of field operatives or their safety. He is particularly concerned about the De Bruise memorandum, which Central Intelligence has obtained and which, I understand, you have obtained. It is imperative that this information, at least for the time, remain under wraps.

Oswald subject was trained by this agency, under cover of the Office of Naval Intelligence, for Soviet assignments. During preliminary training, in 1957, subject was active in serial reconnaissance of mainland China and maintained a security clearance up to the "confidential" level. His military records during this period are open to your agency and I have directed they be forwarded to the Commission.

Subject received additional indoctrination at our own Camp Peary site from September 8 to October 17, 1958, and participated in a few relatively minor assignments until arrangements were made for his entry into the Soviet Union in September 1959. While in the Soviet Union, he was on special assignment in the area of Minsk. It would not be advantageous at this time to divulge the specifics of that assignment; however, if you wish this information, it can

At the very least, as an American defector, Oswald was the responsibility of CIA counterintelligence headed by Angleton.

Upon his return to the U.S. in June 1962, Oswald's activities were closely monitored by CIA counterintelligence. Oswald's subsequent association with a number of CIA assets including Clay Shaw provided opportunities for Angleton's counterintelligence to not only monitor, but to manipulate Oswald.

Ensuring Oswald's participation in the Kennedy assassination, no matter how minimal, provided a powerful rationale for preventing a thorough investigation of the Kennedy assassination. As a former communist defector, Angleton and the CIA could persuasively argue that Oswald's involvement directly implicated the USSR. This allowed the CIA to successfully argue to the Warren Commission, through Allen Dulles who was a member, that a thorough investigation was too dangerous due to the risk of nuclear war.

The assassination of President Kennedy directly resulted from his efforts to gain access to the CIA's control of classified UFO files.

Unknown to Kennedy, a set of secret MJ-12 directives issued by his former CIA Director, **Allen Dulles**, proscribed any cooperation with Kennedy and his national security staff on the UFO issue.

It was Dulles and another *six unknown MJ-12 members* who sanctioned the directives found in the burned document including a political assassination directive against non-cooperative officials in the Kennedy administration. While Dulles and his six associates pre-authorized the assassination of Kennedy, it was the **CIA** counterintelligence chief who gave the final orders that culminated in Kennedy's assassination.

In doing so, **James Angleton** arranged for a communist defector to be involved so as to eventually take the blame and ensure that no thorough investigation would follow by federal or congressional authorities. Documents and facts bear witness to the complicity of former CIA officials in the assassination of President Kennedy.

The implications of leaked MJ-12 documents relevant to the Kennedy administration require a thorough public inquiry.

Bill O'Reilly Reports On CIA Connection to JFK Assassination

Part VII

Did Allen Dulles draft Kennedy assassination directive in a covert MJ-12 coup?

June 20, 2009

A cryptic assassination directive found in a leaked document allegedly drafted by the *Director of the CIA* (DCI) was in response to President Kennedy's inquiries into covert activities of the [MJ-12 Special Studies Project](#). The document reveals that the DCI, at the time of its drafting, was also the head (MJ-1) of a covert group in charge of the highly classified MJ-12 Project.

The document contained eight directives describing future MJ-12 policies. The first directive prevented access by the President, his National Security Council staff and Joint Chiefs of Staff to information concerning UFOs.

The alleged assassination directive was *the eighth directive* (below image) and appeared to be a cryptic order to eliminate uncooperative U.S. federal officials.

Though the document is undated and unsigned, forensic analysis on the original carbon version dates it to the 1960s. The political context dates it to the first year of President Kennedy's term.

This means that just before he retired on November 29, 1961, outgoing DCI **Allen Dulles** drafted a document that would deny his superior, President Kennedy, information that had been legitimately requested concerning MJ-12 activities.

Members of the original MJ-12 Special Studies Group

More importantly, the assassination directive constituted pre-authorization for the violent removal of a sitting President from office in a covert coup d'etat.

Dr **Bob** and **Ryan Wood** have conducted extensive forensic analysis of the [burned document](#) which was received in its original carbon version. It was on government issued watermarked paper and dated to the 1960s. Though the paper has still not been definitively traced to any government agency, it uses similar watermarks to other government documents.

The text of the burned document clearly points to President Kennedy's inquiries concerning *MJ-12 Special Studies Project* activities as the catalyst for it being drafted.

In a cover letter (below image) by the *Director of the CIA* (DCI) to six other members of group response for the MJ-12 Project, the DCI said:

“As you must know *Lancer* [**Kennedy**] has made some inquiries regarding our activities which we cannot allow. Please submit your views no later than October.”

More significantly, the document says that “continuance of the group” was at stake. While Dulles name does not appear on the burned document other leaked documents reveal that he drafted it.

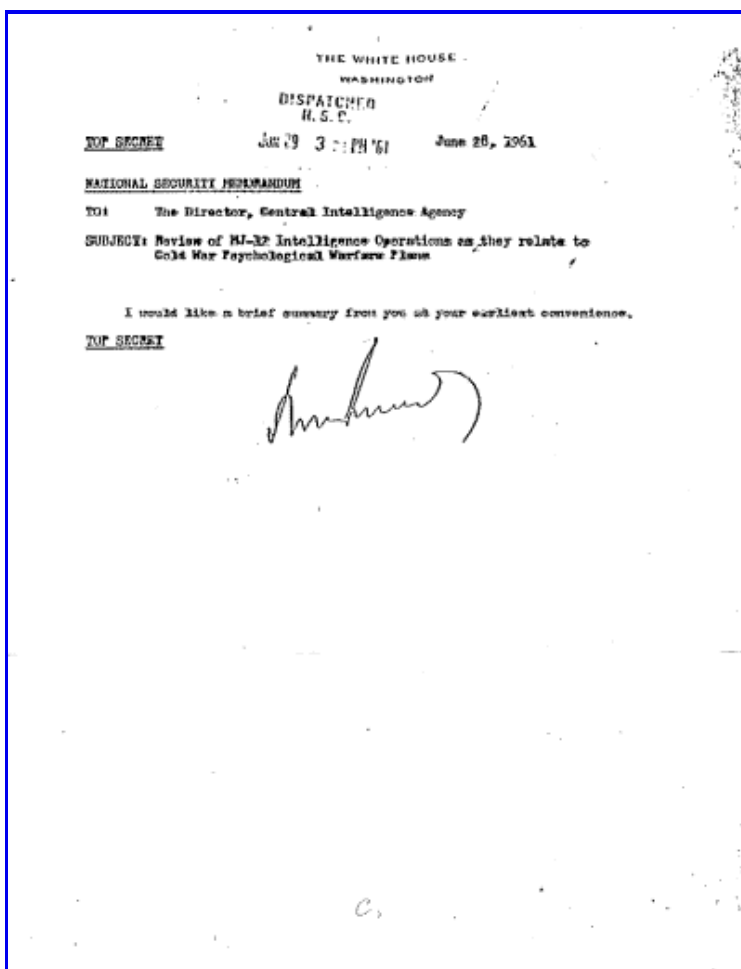

On June 28, 1961, President [Kennedy wrote](#) (below image) the following to [Dulles](#):

National Security Memorandum

To: The Director, Central Intelligence Agency

Subject: Review of MJ-12 Intelligence Operations as they relate to Cold War Psychological Warfare Plans

I would like a brief summary from you at your earliest convenience

This leaked *National Security Memorandum* clearly shows that Kennedy in June of 1961, wanted to learn about MJ-12 activities and the relationship with psychological warfare.

While the leaked June Memorandum has not been acknowledged by the CIA (it was classified TOP SECRET), other documents

from the period support its authenticity. Early in his administration, President Kennedy showed that he desired to restructure the National Security Council and bring all intelligence and psychological warfare activities under direct Executive control.

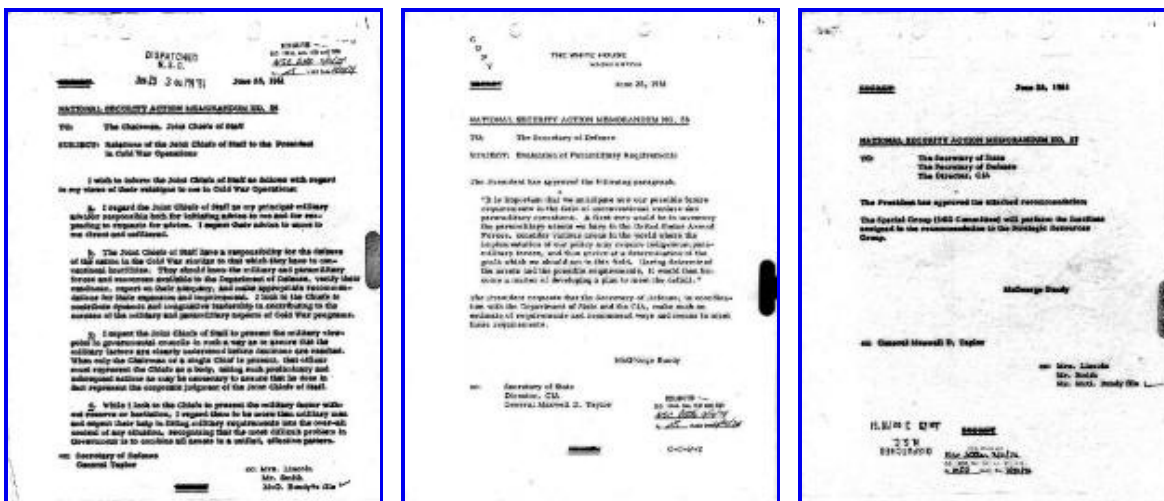

On February 19, 1961, President Kennedy issued [Executive Order 10920](#) which abolished the [Operations Coordinating Board](#). The Operations Coordinating Board was the primary interagency organization responsible for Cold War psychological warfare activities. Its responsibilities were handed over to Kennedy's national security advisor, [McGeorge Bundy](#) and the [Department of State](#).

President Kennedy's EO 10920 showed that he desired to gain control over all intelligence activities related to psychological warfare. Abolishing the Operations Coordinating Board shows he was willing to dismantle any government entity in order to bring its psychological warfare operations under the direct control of his national security team.

EO 10920 helps substantiate his later June 28, 1961 National Security Memorandum concerning a review of MJ-12 activities that Kennedy had learned involved psychological warfare. EO 10920 also helps substantiate the very real concern expressed by the drafter of the burned document that the future of MJ-12 was at stake.

The authenticity of the June 28 Memorandum is also supported by a declassified set of three *National Security Action Memorandums (NSAM)* issued on the same day to the Joint Chiefs of Staff, and also forwarded to Dulles.

NSAM 55-57 (below images) placed Cold War operations firmly under the control of the Joint Chiefs.

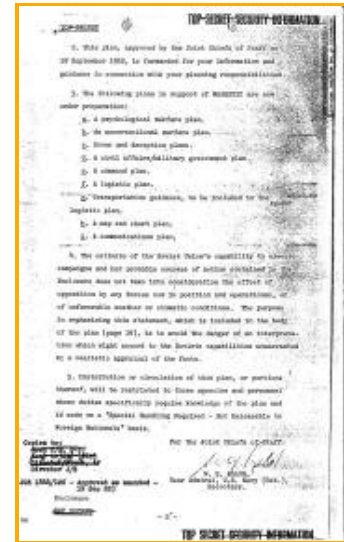

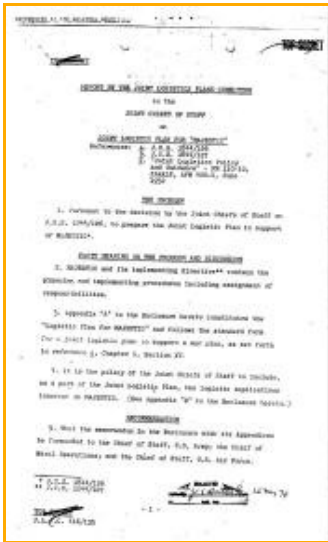

According to Col **Fletcher Prouty**, they were Kennedy's main means of gaining [control over covert CIA operations](#).

This supports the content of the June 28 CIA Memorandum which involved Cold War operations by MJ-12. Furthermore, the three NSAMs help explain why the Joint Chiefs were included among the entities in the burned document's first directive that would be excluded from UFO information.

Finally, three 1952 Top Secret memos titled: "[Joint Logistic Plan for MAJESTIC](#)" (below images) from the Joint Chiefs of Staff were declassified in 1976.

One states:

"The following plans in support of MAJESTIC are now under preparation: A psychological warfare plan."

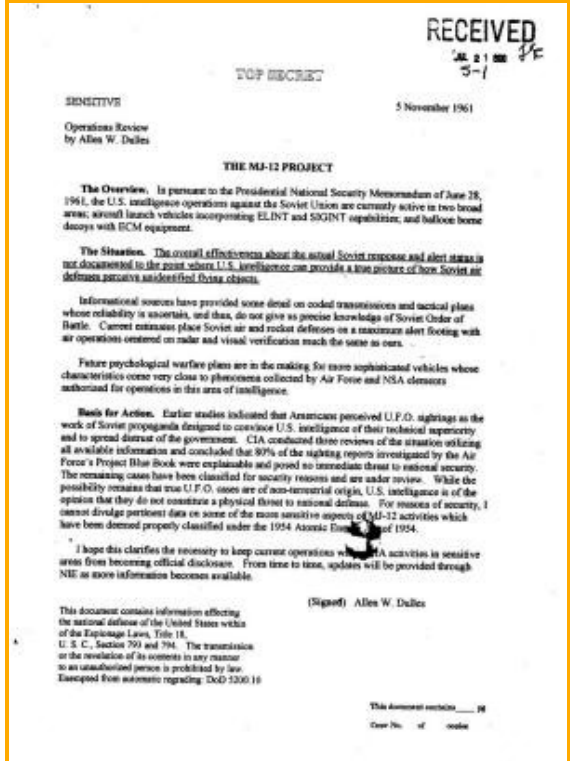

Once again, this shows the relationship between MJ-12 (Majestic) operations and psychological warfare.

Kennedy therefore had good reason to issue his June 28 1961 memorandum to Dulles asking him for a review of *MJ-12 psychological warfare operations*.

Dulles response to Kennedy's June 28 Memorandum was an alleged [letter marked TOP SECRET](#) (below image) that was issued on November 5, 1961. Dulles' letter gives an overview of the MJ-12 activities with regard to psychological activities.

It describes UFOs as part of "Soviet propaganda" designed "to spread distrust of the government."

Dulles' letter acknowledged that while it was possible some,

"UFO cases are of non-terrestrial origin," these did not "constitute a physical threat to national defense."

Most significantly, the letter said:

"For reasons of security, I cannot divulge pertinent data on some of the more sensitive aspects of MJ-12 activities"

If genuine, Dulles' letter was giving President Kennedy only minimal information in response to his June 1961 NSAM request for a brief summary of MJ-12 activities.

Consequently, the leaked *June 28, 1961 Memorandum* (above image), [EO 10920](#) and [NSAM's 55-57](#) reveal that a power struggle was occurring over Executive control of Cold War psychological warfare programs and the covert activities of MJ-12. This struggle is reflected in the Burned Document which requests others involved in running MJ-12 to respond by October.

The response of other MJ-12 members presumably led to Dulles November 5 letter to Kennedy. The letter firmly suggests that MJ-12 had decided not to cooperate with Kennedy and authorized the set of directives drafted by Dulles. Thus Kennedy's efforts to incorporate MJ-12 psychological warfare activities under the direct control of his National Security Advisor were dismissed.

In conclusion, documents reveal that in 1961 President Kennedy was attempting to gain control over intelligence activities related to Cold War psychological warfare operations. This is confirmed in Executive Order 10920 that placed interagency psychological warfare plans under the control of McGeorge Bundy.

It is further supported by [declassified 1952 memos](#) from the Joint Chiefs of Staff to provide logistic support for MAJESTIC ([MJ-12](#)) psychological warfare programs, and three NSAM's issued on June 28, 1961 to place covert Cold War activities under the control of the Joint Chiefs of Staff. On the same day, June 28, Kennedy contacted Allen Dulles to request a summary about MJ-12's psychological warfare activities. Dulles November 5 response highlighted that these activities involved the UFO issue but declined to release sensitive information.

These events are consistent with the content of the burned document comprising eight directives restricting access to UFO information from the President, his National Security Council Staff, including Bundy, and the Joint Chiefs of Staff. It can therefore be concluded that Allen Dulles was the official who drafted the document including [the cryptic assassination directive](#).

Some time shortly before his alleged November 5, 1961 letter to Kennedy, Dulles draft set of directives had been responded to and approved by six other members of MJ-12.

The implementation of [the assassination directive on November 22, 1963](#) therefore constituted *a covert coup d'etat* by MJ-12.

[[Author and Event Note](#): I wish to thank Ryan Wood for sharing his own research on the burned document with me, and both Dr Robert and Ryan Wood for making the MJ-12 documents available through their website: www.MajesticDocuments.com. They will be organizing the 7th Annual UFO Crash Retrieval Conference, November 6-8, 2009 where I will discuss the Kennedy Administration and the MJ-12 documents.]

Part 1: Original Scorched Carbon of CIA Memo Links Government UFO Cover-Up and JFK Assassination

*“As far as I know, this ‘burned memo’ is the only document that I’ve ever heard anyone claim could be the authorization to kill President John F. Kennedy.” - Robert Wood, Ph.D.,
Physicist and Retired Aerospace Manager*

Tab A, TOP SECRET/MJ-12 Central Intelligence Agency memo from Director of Central Intelligence (MJ-1) to MJ-2 through MJ-7 allegedly written in 1961 to 1963 time period. Leaker says he worked 1960 to 1974 in CIA counter-intelligence for James Jesus Angleton, Director, CIA Counter-intelligence from 1954 to 1974. After James Angleton died on May 12, 1987, leaker said he pulled this 9-page memorandum from a fire that was burning up Angleton's most sensitive MJ-12 secret files.

Image provided by Robert Wood.

August 3, 2008 Newport Beach, California - In 1993, Robert Wood, Ph.D., retired from his management work at McDonnell Douglas Corporation, a large aerospace company where he had worked since 1953. That was the year he received his Ph.D. in Physics at Cornell University where his focus was theoretical physics and aeronautical engineering. Immediately after graduation, he began working for McDonnell Aircraft Corporation in Maryland, but was drafted into the U. S. Army for two years and was assigned to Aberdeen Proving Ground northeast of Baltimore. For the Army, Bob analyzed the boundary layers of ballistic shells. After completing his draft service, he left as a corporal and returned to McDonnell Aircraft, which on April 28, 1967, merged with Douglas Aircraft to become McDonnell Douglas Corporation.

Bob Wood explained to me that beginning in 1967 during his continued employment with McDonnell Douglas, he was asked by his boss to investigate the possible anti-gravity propulsion system attributed to unidentified aerial vehicles.

Interview:

Robert Wood, Ph.D., Physicist and former Aerospace Manager for McDonnell Douglas Corporation, now retired in Newport Beach, California: “In 1967, I was asked by my boss to look into UFOs because he had to give a speech on the subject. And that assignment resulted in my establishing a group of about five scientists who studied the UFO subject for a couple of years. That’s when I met James McDonald, Ph.D.

[Editor’s Note: Senior physicist at the Institute for Atmospheric Physics and Prof. in the Department of Meteorology, University of Arizona, Tucson, who was convinced UFOs were extraterrestrial, testified before Congress in 1968 about the need for serious study of the phenomenon and was found dead on June 13, 1971, in a Tucson creek. His death was declared a suicide, but another theory is that he was murdered by MJ-12 authority to enforce a policy of denial in the interest of national security that required keeping facts about the UFO/extraterrestrial phenomenon out of the public and media.]

I also visited Edward Condon, who headed the Condon Committee UFO Project at the University of Colorado in the late 1960s.

[Editor’s Note: Edward Condon, Ph.D., graduated from the University of California-Berkeley, in 1926 with a Ph.D. in Physics. By 1943, Condon joined the Manhattan Project to develop the atomic bomb. Later he was Research Director of Corning Glass, Director of the National Bureau of Standards, and President of the American Physical Society.

Condon was also Prof. of Physics at the University of Colorado in Boulder when the U. S. Air Force asked him to oversee a review of UFO reports and to produce an official report for Air Force use. From 1966 to 1968, Condon directed the University of Colorado UFO Project in which he concluded there was nothing to the UFO phenomenon. His formal conclusion contradicted facts and eyewitness testimonies and many researchers have concluded the Condon Study was a deliberate misinformation project by MJ-12 through the USAF and Condon to discredit UFOs in the context of Project BLUE BOOK. After that, the USAF's standard comment to UFO inquiries has been the Air Force no longer investigates UFOs because Prof. Condon investigated and concluded there was nothing worth investigating.

One of Condon’s students was Cornell University astronomer Carl Sagan, who is also suspected of replacing Harvard astronomer, Donald Menzel, on the MJ-12 member list. Nuclear physicist and long-time UFO researcher, Stanton Friedman, hypothesizes that Menzel and Sagan had classified MJ-12 assignments to misinform the public and media about the UFO/extraterrestrial presence in order to sustain the MJ-12 policy of denial in the interest of national security.]

Robert Wood: “My science team at McDonnell Douglas did not discover the secret of anti-gravity, but we worked on it. Stanton Friedman, nuclear physicist and long-time UFO investigator, was one of the contributors to our work.

When the group broke up, I knew I wanted to attack this problem further. In the meantime, I had to earn a living. So, at McDonnell Douglas I became an expert on radar for ballistic missile defense and worked on the international space station and other space-related projects.

In 1993 after I retired, I heard from Stanton Friedman that Don Berliner at the Fund for UFO Research received undeveloped 35mm negative film by mail that I should see. So, I called up Don who asked me to visit him in Washington, D. C., and we went together to get some high quality photographs of the undeveloped film. That turned out to be the SOM1-01 Special Operations Manual. I examined the blown up photographs in great detail and typed up paper copies of the text to share and study. That research got me very interested in the authentication of questioned documents. For Robert Wood details on the authentication of the SOM1-01, see [111903Earthfiles in Archive.](#)

MAJESTIC-12 GROUP • APRIL 1954

Restricted SOM1-01 MAJESTIC-12 Group Special Operations Manual, dated April 1954 with War Department logo entitled: “Extraterrestrial Entities and Technology, Recovery and Disposal,” classified TOP SECRET/MAJIC EYES ONLY. Robert Wood: “In the meantime, I learned that Timothy Cooper’s father, Harry Bob Cooper, was assigned to Holloman AFB in the late 1940s and one of the jobs he had was to run their reprographics facility (document printing and copying). Apparently, in later life, he told his son, Timothy, that during his work at Holloman AFB, he was involved in some UFO research. The father, Harry Cooper, even had a certificate commending him for working in the UFO research program, which is amazing since the U. S. Air Force has never acknowledged the existence of such a program!

Tim says he was with his father on November 22, 1963, watching television about the assassination of President John F. Kennedy. Timothy told Bob Wood that there were tears in his father's eyes when Harry Cooper said, 'They really did it.' That led Timothy to become very interested in the Kennedy assassination. Timothy Cooper started putting in Freedom of Information requests back in the late 1980s for information about the Kennedy assassination. At the same time, Timothy began to ask about UFOs. Timothy had put in FOIA requests to about fourteen different government agencies for everything they had about the Kennedy assassination and UFOs.

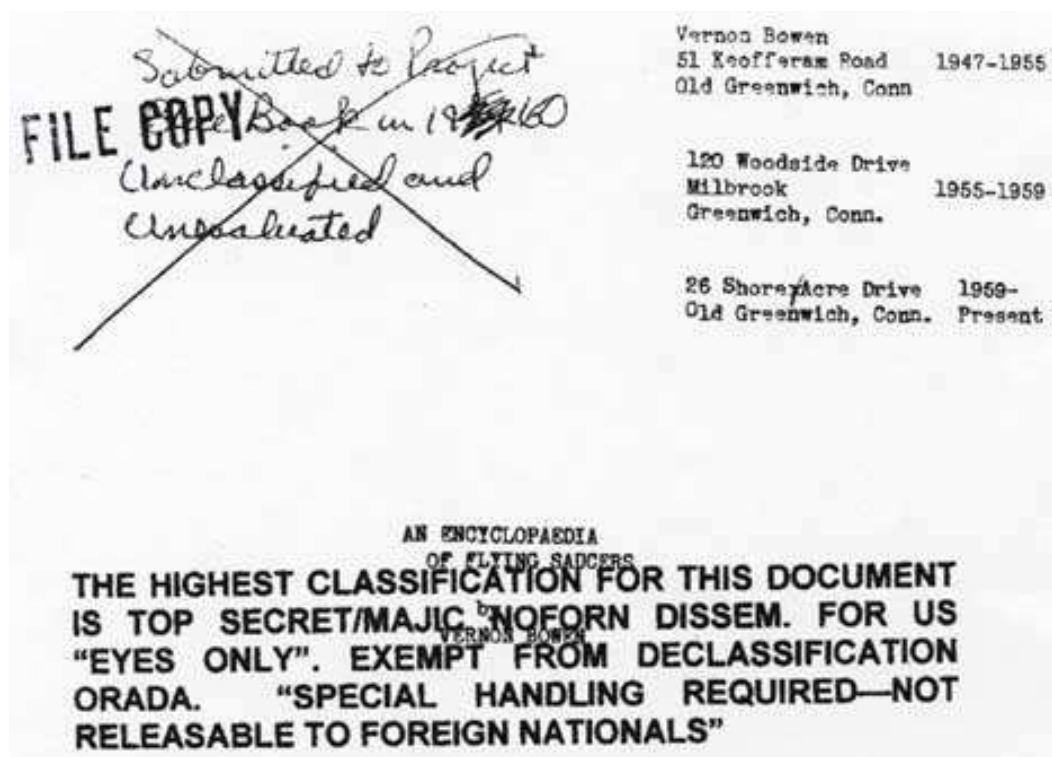

In 1996, Timothy Cooper received a surprise in the mail – a leaked document. Timothy wrote to UFO researchers, Stanton Friedman and Richard Haines, to let them know he had information relevant to White Sands in 1947. None of them did anything about it. There was no visit to Timothy until Stanton Friedman called me up and said, 'You live a lot closer to Big Bear Lake, California, than I do. That's where this Timothy Cooper is. Why don't you go visit him?'

So, that was what caused my first visit to see Timothy Cooper in the early 1990s. He showed me some of the documents that he had received in various ways. I was pretty impressed. But most of what he first showed me were all xeroxed copies. He did not show me any original documents at that time.

June 1999 - Timothy Cooper Received Two Significant Original Documents

But in June 1999, Timothy sent me an email saying, 'Wow, you won't believe what I got in the mail today!' That was when I went to Bear Lake to visit him again for the second or third time. What he had received was the Vernon Bowen manuscript – 339 pages that came in an envelope mailed from Fort Meade, Maryland (U. S. Army and headquarters of the National Security Agency – See Websites below).

Encyclopaedia of Flying Saucers
© 1961 by Charles Vernon Bowen

Title page of Charles Vernon Bowen's 339-page 1961 manuscript classified "TOP SECRET/MAJIC NOFORN DISSEM. FOR US 'EYES ONLY.'" Received by Timothy Cooper in June 1999, with original ink notes by Bowen in margin. Now partially excerpted at www.majesticdocuments.com. See Websites below.

[Editor's Note: Majesticdocuments.com writes about the Vernon Bowen manuscript title page above: "Perhaps the most stunning physical evidence for the existence of the TOP SECRET/MAJIC program is this original 339 page manuscript about flying saucers. Written by Vernon Bowen, the original is on watermarked paper with red TOP SECRET/MAJIC stampings on some of the chapters. Most of the rest of the document is marked CONFIDENTIAL. Original handwritten marginalia shows linkages to Project White Hot, Twining, Vannevar Bush, Moon Dust, and Donald Menzel. A well written snapshot of the public history of flying saucers from 1947 to 1954. Bowen was personally well-connected to many top (government) people."]

Robert Wood: "The author was Charles Vernon Bowen who in 1961, produced a manuscript entitled *Encyclopaedia of Flying Saucers*. Then a friend of Bowen's in the U. S. Air Force asked to show Bowen's manuscript to some U. S. Air Force authority and some one there apparently gave it to someone else in the U. S. Army, because it was returned from the FOIA office at Fort Meade in 1999 to Timothy Cooper.

Charles Vernon Bowen was an advertising agent who spent most of his lunch time in the New York Public Library looking up everything in the Periodical Guide to Literature on UFOs and flying saucers. His encyclopaedia was basically an unclassified summary of everything he had read.

We're not sure where exactly his manuscript went in the government, but we do know there were people actively reading it because they were writing on the margins. I've analyzed the age of the ink when those marginalia occurred. The earliest date is 1961 and those were the ink marks made by Vernon Bowen, the last marks he made on the manuscript. Other ink margin notes are dated 1977.

The interesting thing is that the notes made in the margins of this original manuscript were datable by pen and ink and some of the notes identified Harvard astronomer, Donald Menzel, as a guy who was a member of the inner (government UFO) circle.

[Editor's Note: Donald Howard Menzel (April 11, 1901 to December 14, 1976). An American astronomer and astrophysicist who was one of the leading astronomers of his era. Menzel also earned notoriety as an early skeptic of UFOs as being any extraordinary phenomenon. Physicist and UFO researcher Stanton Friedman reported that his own research (including examination of Harvard University archives) showed that Menzel had served as a consultant to the National Security Council.

The fact that Menzel had security clearance and worked with the U.S. government is not on its own extraordinary; many scientists participate in sensitive duties for the U.S. government. What is somewhat unusual about Menzel's case, is that he held the rarefied 'Top Secret Ultra' clearance. Menzel's dual membership in the academic community and in the black world of military secret projects was apparently unknown to many colleagues and military contacts in the USAF Air Technical Intelligence Center.

Friedman argues that Menzel's high-level clearance is evidence that he was a member of MJ-12. In fact, Friedman found Menzel's name on a list of purported MJ-12 members. Friedman then concluded that Menzel's persistent debunking of the UFO phenomenon was a deliberate MJ-12 assignment to misinform and reduce public and professional interest in UFOs.]

Vernon Bowen's *Encyclopaedia* is significant in that it's one of only two or three documents I have that are on original paper where you can actually date the paper and ink and determine it was authentic for that era.

WHEN DID YOU RECEIVE THE PAGES FOR THE FIRST TIME THAT YOU COULD STUDY THE INK?

I think I saw it for the first time probably a week after he got it in June 1999. But I got possession of the documents in 2001, when Timothy Cooper became disenchanted with the UFO subject, wanted to become a TV script writer and was really short of cash.

I asked him, 'How much would it take to buy from you everything you've got?' He agreed on a price and he shipped me the documents.

SO, THAT'S HOW WWW.MAJESTICDOCUMENTS.COM CAME INTO BEING AFTER YOU PURCHASED ALL OF THE DOCUMENTS THAT TIMOTHY COOPER HAD IN 2001?

Yes. And interestingly enough, one week after I had been at his Big Bear Lake, California, home and saw the Vernon Bowen inked manuscript with the TOP SECRET/MAJIC stamp on the title page, I received an email from Timothy saying, 'You won't believe what arrived in the mail yesterday!' Then he alluded to the fact that a new memo he just received had apparently been scorched in a fire. That's when I first heard about the burned memo. As far as I know, this 'burned memo' is the only document that I've ever heard anyone claim could be the authorization to kill President John F. Kennedy."

In the context of the above it has become necessary to review and evaluate duplication of field activities in light of the current situation. To eliminate this problem, I have drafted new directives for your review and consideration. Please evaluate each draft on its own merit with the goal of finding acceptable solutions in which all can agree on. As you must know LANCER has made some inquiries regarding our activities which we cannot allow. Please submit your views no later than October. Your action to this matter is critical to the continuance of the group.

Directive Regarding President's EYES ONLY

In the likely event that the subject of unidentified flying objects or unconventional aerial weapons is a subject matter under discussion with the Chief Executive, National Security Council Staff, department heads, the Joint Chiefs, and foreign representatives, a clarification of the question is in order to ascertain the reason(s) for bringing up the subject. A standard response should be suffice to redirect the question. Under no circumstances should a member suggest or by inference, that the subject is classified as a national security threat. In the unlikely event that UFO's overtly display hostile intent towards the security of the United States, as a group, and after consultation, should a full disclosure be made in accordance with the law as required.

Mr. Timothy Cooper
P.O. Box 1206

Mr. Cooper:

I am a retired CIA counterintelligence officer who worked for Jim Angelton from 1960 to 1974. When Jim died it was my responsibility to go through his secret files and take inventory of sensitive files that would connect MJ-12 to JFK's murder. This document did not exist officially and has never been disclosed within the agency. AWD was very fearful of disclosure to unauthorized channels and leaks in the White House. I literally snatched the "Directives" from the fire and have kept them safe from review. To allow a review would compromise future directors and put the agency in a difficult position.

I feel the time is fast approaching when the files of the Majestic/Jehovah project will be pried loose and the public's right to know should begin. We in CI have monitored civilian UFO research for a long time and have played a major role in keeping the UFO community busy. Salina requested that the MJ-12 Directives be sent to you and hopefully, be disseminated in a responsible manner.

I think your decision to work with Dr. Wood was a good one. He has credibility and good science skills. I hope you have read the BLUE BOOK/MAJIC Report with an open mind and a critical eye for detail. This, you might say, is the missing BLUE BOOK files (don't confuse these with Project BLUE BOOK). You need proof and here it is. I don't think you realize it but you and Dr. Wood have started a shit storm. Nixon's SCEO ordered all MJ-12 documentation purged and destroyed. This one was not. This carbon copy is the only link to MJ-12 and don't expect any more in the future. Everything is now on computers and there is no existing paper trail to my knowledge. If you play your cards right, you should make progress with what you have. I caution you to be careful about who you talk to and trust with this information.

Updated August 6, 2008 / August 4, 2008 Newport Beach, California -

Interview:

Robert Wood, Ph.D., Physicist and former Aerospace Manager for McDonnell Douglas Corporation, now retired in Newport Beach, California: “The cover letter was written, in my opinion, by the person who says he worked for James Jesus Angleton in counter-intelligence at the CIA. It amazed me that my name was in the letter. And also, it says ‘ -1 ‘ to the left of the red FILE stamp at the bottom of this letter. That presumably was a way of identifying the leaker. We had other leaked documents from ‘-2,’ which was a different address and different kind of information.

[Editor’s Note: *Wikipedia* – “James Jesus Angleton (December 9, 1917 to May 12, 1987), known to colleagues as Jim and nicknamed ‘the Kingfisher.’ Angleton was the longest serving Chief of the Central Intelligence Agency's (CIA) Counter-intelligence (CI) staff from 1954 to 1974. The CIA recruited him in 1947 as the agency was first coming into existence. Angleton's internal CIA cryptonym (codename) was KU/MOTHER. His cover name was Hugh Ashmead. He turned his attentions to Russia's KGB and the Soviet nuclear weapons program with its probable reliance on technology leaked from the American Manhattan Project to develop the atomic bomb.

In 1954, Allen W. Dulles, who had recently become Director of Central Intelligence, named Angleton head of the Counter-intelligence staff, a position Angleton retained for the rest of his CIA career. Dulles also assigned him responsibility for coordination with allied intelligence services.]

IN THE FIRST PARAGRAPH OF THE LEAKER'S COVER LETTER, WHO IS 'AWD' WHO ‘WAS VERY FEARFUL OF DISCLOSURE?’

Allen W. Dulles. He was the Director of the CIA, and presumably MJ-1 up to 1961. He was a tough inside player. But, in November 1961, President John F. Kennedy replaced Alan Dulles with John McCone. McCone was also in charge of the CIA at the time of the November 22, 1963, assassination; Allen W. Dulles served on the Warren Commission, which investigated the assassination, and Allen W. Dulles signed the Warren Commission report cover letter.

Sixth signature down is Allen W. Dulles, September 24, 1964, cover letter of President's Commission on the Assassination of President Kennedy, known as the "Warren Commission" after its Chairman, Chief Justice of the Supreme Court, Earl Warren.

Allen Welsh Dulles (April 7, 1893 to January 29, 1969) was the first civilian and the longest serving Director of Central Intelligence (1953-1961). His professional civilian background was as a corporate lawyer and partner at Sullivan & Cromwell, an international law firm headquartered in New York, that is one of the world's most profitable and prestigious law firms.

If, as the Eisenhower document says, the Director of the CIA is MJ-1 in the Majestic 12 group, who wrote the burned memo? Depending upon the date it was written - and we don't have a date - if it was written in 1963 shortly before JFK was assassinated, was the CIA Director then, John McCone, the MJ-12 memo writer? The fact that the author says, 'Please submit your views no later than October' after warning that 'LANCER has made some inquiries regarding our activities which we cannot allow.' For me, that seems to tie with 1963 events in which we have a Kennedy letter dated November 12, 1963, that asks for information from the CIA.

MEMORANDUM FOR
The Director [REDACTED], Central Intelligence Agency

SUBJECT: Classification review of all UFO intelligence files affecting National Security

As I had discussed with you previously, I have initiated [REDACTED] and have instructed James Webb to develop a program with the Soviet Union in joint space and lunar exploration. It would be very helpful if you would have the high threat cases reviewed with the purpose of identification of bona fide as opposed to classified CIA and USAF sources. It is important that we make a clear distinction between the knowns and unknowns in the event the Soviets try to mistake our extended cooperation as a cover for intelligence gathering of their defence and space programs.

When this data has been sorted out, I would like you to arrange a program of data sharing with NASA where Unknowns are a factor. This will help NASA mission directors in their defensive responsibilities.

I would like an interim report on the data review no later than February 1, 1964.

AND JFK IS DEAD ONLY TEN DAYS AFTER HIS NOVEMBER 12, 1963, MEMO.

Right. So, I'm inclined to believe the burned memo is October 1963 and that would mean the writer of the burned memo was John McCone, then CIA Director. But it might still have been Allen Dulles, the powerful insider, if he remained MJ-1 even after McCone was appointed to take his place in the CIA. Or the burned memo writer might also be Allen W. Dulles if it was written as early as 1961 when Dulles was head of the CIA. AWD is mentioned in the burned memo and clearly, the writer of the burned memo is identified as MJ-1.

If the leaker of the burned memo to Timothy Cooper in 1999 is implying in his cover letter that AWD, Allen W. Dulles, was MJ-1, then the burn memo must have been written in 1961.

WHEN DID YOU FIRST HAVE A COPY OF THE BURNED MEMO IN YOUR HAND?

Probably 1999 because Tim Cooper called me about it in June and I think Ryan and I drove back there to see it.

BECAUSE YOU THOUGHT IT WAS SO IMPORTANT.

Yes.

ANY UNDERSTANDING WHY THE LEAKER SNATCHED THE BURN MEMO FROM THE FIRE?

No. But the leaker apparently was a very senior guy in CIA counterintelligence, a right hand man to James Angleton, meaning the leaker's name was probably well known. His cover letter was dated June 23, 1999. He might not be alive now. I don't know. But certainly when the leaker wrote this letter in June 1999, he was a very coherent writer.

WHO WAS CLOSEST TO JAMES ANGLETON IN THE CIA?

I don't know. That's research that needs to be done.

IN PARAGRAPH 2 OF THE LEAKER'S COVER LETTER, IT SAYS: 'SALINA REQUESTED THAT THE MJ-12 DIRECTIVES BE SENT TO YOU AND HOPEFULLY, BE DISSEMINATED IN A RESPONSIBLE MANNER.' WHO IS SALINA?

I think Salina was a secretary in counterintelligence to whom the burned memo was dictated. That's my opinion. One of the things I got from Timothy Cooper is a note from Salina in her original handwriting dated June 5, 1996. Salina sent this note to Timothy Cooper in 1996 because it was accompanying other documents that were leaked. I believe this note is the one that sent the Oppenheimer and Einstein 5-page Project JEHOVA memo. So, she was transmitting other stuff at the time to Timothy Cooper.

TIMOTHY COOPER AND THE CIA LEAKER HAD A LONG-TIME RELATIONSHIP IN WHICH THE LEAKER SENT TIMOTHY COOPER DOCUMENTS – SOMETIMES A FEW AT A TIME OR ONE AT A TIME OR BUNCHES AT A TIME – AND ONE OF THE COMMON REFERENCES WAS A SALINA THAT YOU SPECULATE WAS A SECRETARY WORKING FOR THE OFFICE OF JAMES JESUS ANGLETON WHEN HE WAS CHIEF OF COUNTER-INTELLIGENCE FOR THE CIA BETWEEN 1954 AND 1974.

Yes.

Tab A President's EYES ONLY

“The burned memo really tells a fascinating story. JFK is beginning to ask too many questions. We can't allow this, in pretty much no kidding language. And MJ-1 (CIA Director) is saying, 'I have some new policies I want you other six guys to agree (MJ-2, MJ-3, MJ-4, MJ-5, MJ-6, MJ-7) and let me know before October (presumed to be October 1963) that they are OK because we are going to put them in place. And these six policies are pretty interesting.

The first Tab A says basically, if the President of the United States starts to ask questions, tell him it's not a matter of national security. And then at the end it says that if the UFOs show up suddenly and we have to admit they are there, then we'll give full disclosure as the law requires, which amazes me because that implies there is a law that says they (MJ-12) are supposed to disclose something. As far as I can tell so far, MJ-12 has not operated within any law.

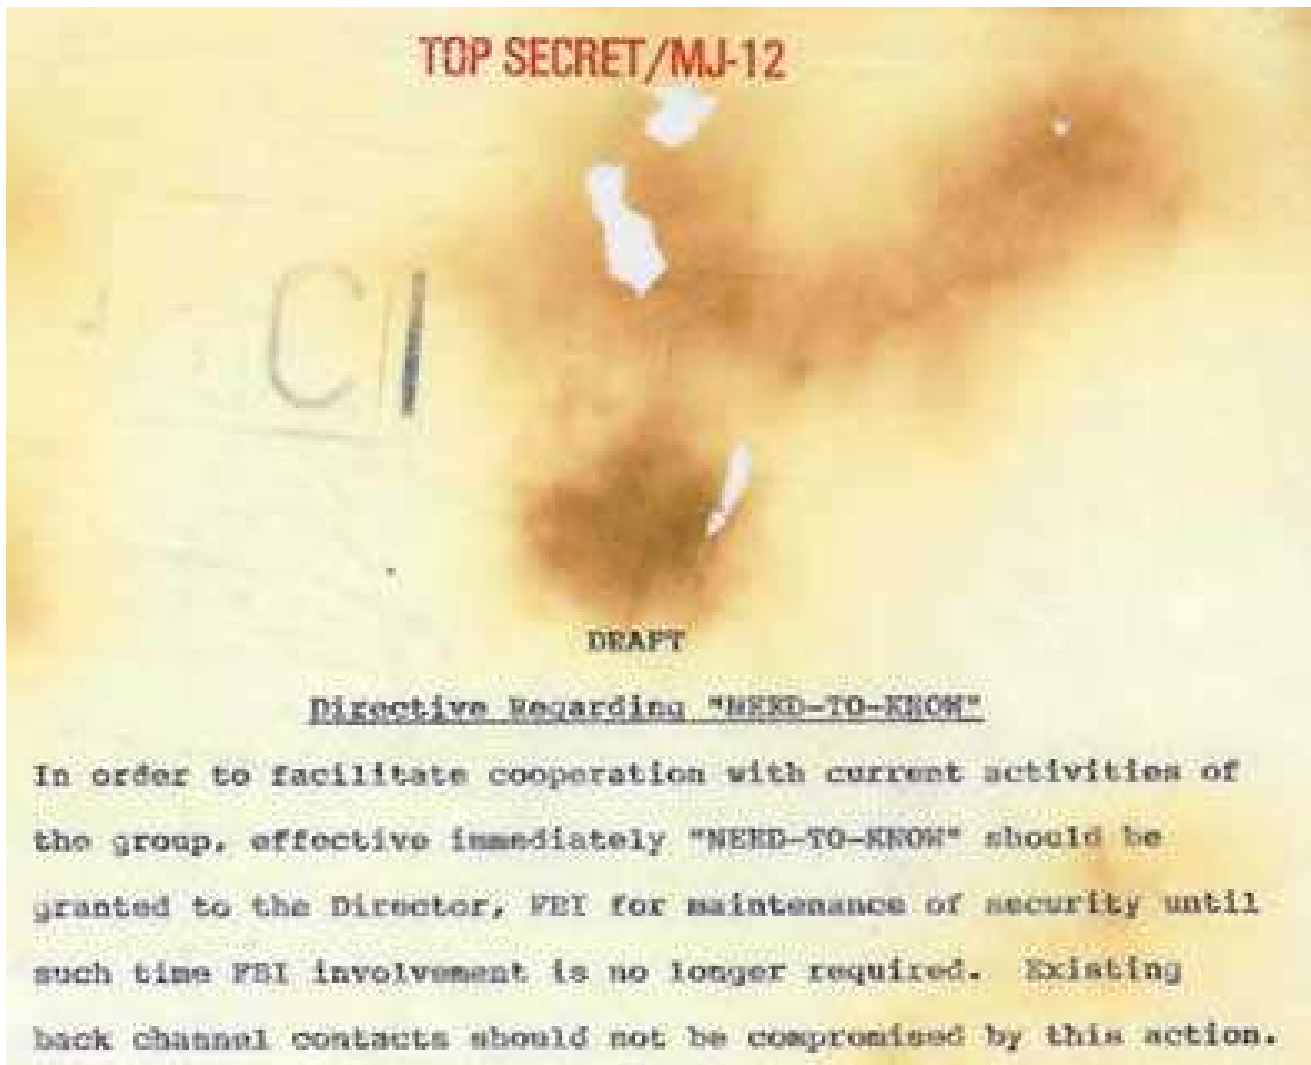

TO ME, THE MEMO IMPLIES THAT MJ-12 ALREADY KNOWS THAT UFOS DISPLAY HOSTILE INTENT AND WHAT THEY ARE MAKING A DISTINCTION IN THIS TAB A IS: 'IN THE UNLIKELY EVENT THAT UFOS *OVERTLY* DISPLAY HOSTILE INTENT' – OVERTLY WOULD MEAN PUBLICLY.

THE WORDS IMPLY THAT MJ-12 ALREADY KNOWS THERE HAS BEEN HOSTILE INTENT TOWARDS THE NATIONAL SECURITY OF THE UNITED STATES.

I read it without the word 'overtly' in my mind. But if you put in the word 'overtly,' you can attach your meaning to it, too. So, I would not dispute your interpretation.

WOULD YOU CONTINUE WITH YOUR ELABORATION TAB BY TAB?

Tab B "NEED-TO-KNOW"

The second one, Tab B, basically says some people in the Federal Bureau of Investigation (FBI) are getting to know too much, so we've got to tell J. Edgar Hoover that there's something going on. But don't tell him anything more than we have to and get as much out of him (Hoover) as possible, while we keep our CIA spies in place in the FBI. The 'back channel contacts' means CIA guys working inside the FBI.

Tab C DoD 5200.1

WHAT IS DOD NOTICE 5200.1?

5200.1 is just security rules concerning who gets access to classified material. The black stamp 'CI' is counter-intelligence. It's a stamp the counterintelligence guys used under Angleton to distinguish their work from the rest of the CIA. You have to remember that the counter-intelligence people were basically the people trying to figure out whether the Soviets had planted spies within the CIA, so they had a measure of separateness from the rest of the CIA. That separateness was very important. CI could basically do whatever they wanted to do, as evidenced by the fact that's where they put the MJ-12 program for control.

Tab C is interesting for two reasons. First, it affirms the existence of SCEO (Sensitive Compartmented Executive Order) and also makes clear that apparently it's the 54/12 program that is exempt from that. Otherwise, all of the Department of Defense has no access to anything on MJ-12.

SO, MJ-12 WAS UNDER THE CONTROL OF ANGLETON IN THE CIA'S COUNTER-INTELLIGENCE?

I would say that's what this memo implies. However, I would be quick to add that there are a lot of agencies in the United States and it is clear that the U. S. Navy had played a lead role in the past. And I believe it was the U. S. Army that retrieved the Cape Girardeau, Missouri, crash (1941). So, all these agencies had been snapping away to get control of the (E. T.) technologies by themselves. The CIA wound up with control of the official program for MJ-12, but I think there are other little pockets of UFO work in all the agencies – some of which were perhaps cleared for MJ-12 access and some, which were not.

ALL COMPETING WITH EACH OTHER BECAUSE THEY WANTED ADVANCED EXTRATERRESTRIAL TECHNOLOGIES?

Yes, I think so. That's right. They were not caring about the public. They wanted the technologies.

IS 54/12 THE SAME ENTITY AS MJ-12?

No, I don't think 54/12 is the same as MJ-12, but apparently 54/12 was given some access to some parts of MJ-12.

[Update from Earthfiles viewer and *Wikipedia*: “**54/12** was not in the Pentagon. This was a committee set up under NSC purview to review covert and clandestine operations. NSC, you recall is statutory and within the Executive Office of the President, so it was a very high level review committee concerning some of the most sensitive matters. Over the course of Administrations, its name has mutated ... 303 Committee, 40 Committee, Operations Advisory Group, NSC Special Coordination Committee, National Security Planning Group.”

Wikipedia - **54/12**: “Since 1954, oversight of United States covert operations has been carried out by a series of sub-committees of the United States National Security Council. Oversight of covert operations was brought under the control of the National Security Council by the creation of the Planning Coordination Group in 1954.

The Planning Coordination Group was created by President Eisenhower's Presidential Directive 5412/1 on March 15, 1954. The group, initially, was headed by Special Assistant to the President for Foreign Affairs, Nelson Rockefeller.

The NSC 5412/2 Special Group, often referred simply as the Special Group, was an initially secret, but later public, subcommittee of the United States National Security Council responsible for coordinating government covert operations. Presidential Directive NSC 5412/2, issued December 28, 1954, assigned responsibility for co-ordination of covert actions to representatives of the Secretary of State, the Secretary of Defense, and the President respectively.

The Federation of American Scientists list of national security documents for the Eisenhower administration does not show a directive 5412/2. It does, however, show a 5412/1 with a classified title (one of only three such documents for the entire Eisenhower administration).

303 Committee - The covert actions oversight group was renamed the 303 Committee after National Security Action Memorandum No. 303 on June 2, 1964. McGeorge Bundy, National Security Advisor, became Chairman for that committee.

The successor to the Special Group was the 40 Committee.

The 40 Committee was a division of the Executive branch of the United States government whose mandate was to review proposed major covert actions. In 1970, the 40 Committee played a major role in so called 'Track I' efforts to prevent Salvador Allende from taking office following the Chilean popular vote of September 4, 1970.

Operations Advisory Group - On February 18, 1976, the 40 Committee was replaced by the Operations Advisory Group, in accordance with Executive Order 11905 issued by Gerald Ford. The new group was composed of the President's Assistant for National Security Affairs, the Secretaries of State and Defense, the Chairman of the Joint Chiefs of Staff, and the Director of Central Intelligence.

NSC Special Coordination Committee - The following year on May 13, 1977, President Jimmy Carter issued Executive Order 11985, which updated the previous order such that the Operations Advisory Group thereafter would be known as the NSC Special Coordination Committee.

National Security Planning Group - Under the Reagan administration, the Special Coordination Committee was replaced by the National Security Planning Group which included the Vice-President, the Secretary of Defense, the Secretary of State, the Assistant for National Security Affairs, and the Director of the CIA.”]

I think a number of people have concurred that President Eisenhower lost control to the MJ-12 program. The MJ program did things the way they wanted. In fact, that was the time that MJ-12 allegedly started to go and put some of the civilian contractors in charge – sort of took MJ-12 research out of the government and made the government clean so that when you ask the government, ‘What do you know about MJ-12?’ The honest answer is, ‘We don’t know squat.’

YOU MEAN PUTTING MJ-12 OUT INTO CORPORATIONS LIKE BECHTEL?

Yeah, putting some of the responsibilities out into the corporations so the paperwork was not under government control and they could use security systems that separated it from the government.

THIS MIGHT RELATE TO PRESIDENT EISENHOWER’S WARNING WHEN HE WENT OUT OF OFFICE ABOUT THE ‘MILITARY-INDUSTRIAL COMPLEX’?

Yes, I think so.

THAT’S CRUCIAL TO UNDERSTANDING THIS BURN MEMO. WHY IS IT THAT THE MJ-12 FORCES FROM TRUMAN TO KENNEDY WOULD SUDDENLY BE IN A HOSTILE POSITION WITH THE PRESIDENT OF THE UNITED STATES, WHO IN THE BURN MEMO IS REFERRED TO AS ‘LANCER.’

Yes, right. And apparently that was a code name (for JFK) that was pretty well protected at that time.

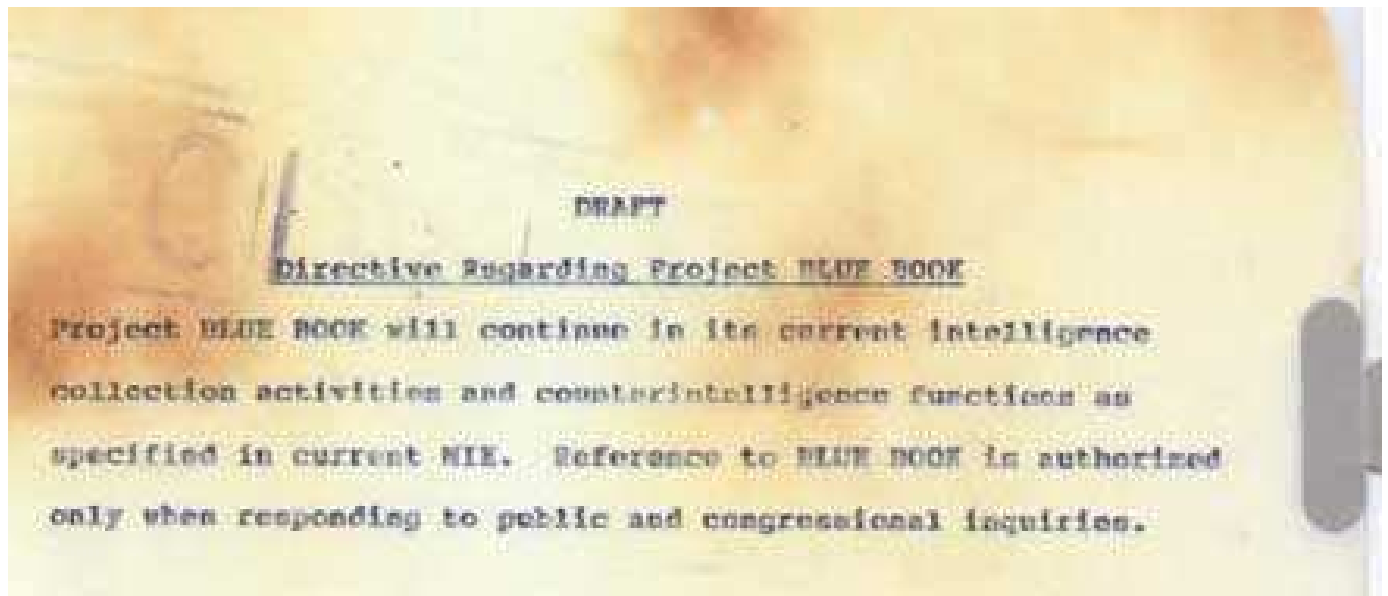

BUT TAB A IS ABOUT KEEPING ALL OF THIS KNOWLEDGE FROM ‘LANCER’.

Exactly. And Lancer in his November 12, 1963, letter is basically saying he’s going to start a program to share all this stuff with the Soviet Union. That scared the hell out of them (MJ-12)!

THAT WOULD BE THE REASON THAT YOU SUSPECT JFK WAS ASSASSINATED BY THE CIA THROUGH SOMEBODY?

Yes. Actually jumping to the bottom line: As far as I know, this ‘burned memo’ is the only document that I’ve ever heard anyone claim could be the authorization to kill President John F. Kennedy. It’s written evidence that could be entered into a court as the authorization to kill Kennedy.

Tab D Project BLUE BOOK

In my judgment, the National Intelligence Estimate (NIE) probably established Blue Book in a two-part way. One part was only slightly classified, which is the one we all know about. The other was highly covert, which was to take the information we were getting from the public and run it into MJ-12 to figure out how to use it. Perhaps also, they might have had a misinformation component. I think the thing that is significant to me is the reference to the NIE, the National Intelligence Estimate. That's pretty important that the MJ-12 BLUE BOOK/MAJIC actually got in there.

MEANING THAT THE COVERT PROJECT BLUE BOOK WAS DESCRIBED IN THE NATIONAL INTELLIGENCE ESTIMATE.

At least at that time in the early 1960s, which sure contradicts the misinforming public BLUE BOOK that pretty much said there was nothing to UFOs even to investigate.

Tab E Freedom of Information

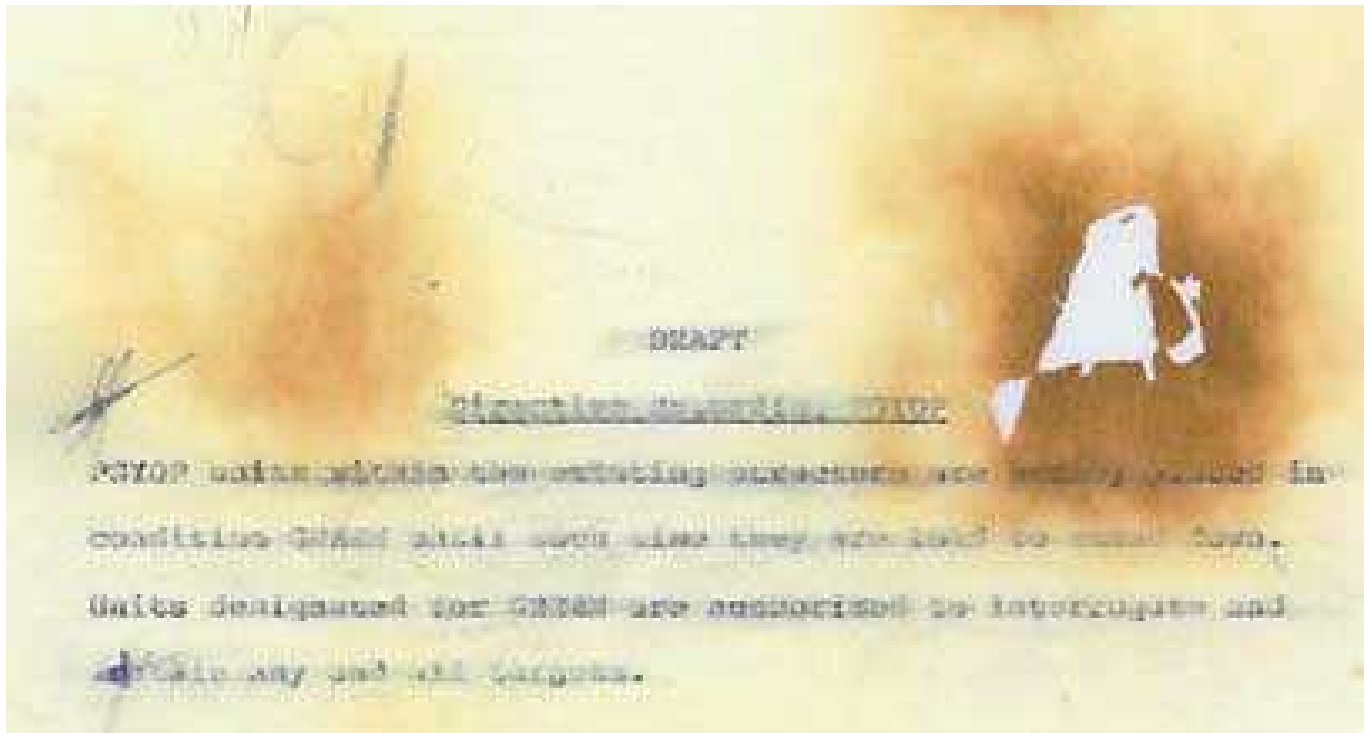

The next one, Tab E, basically says no matter who asks, don't tell them anything.

AND IN THAT PREVIOUS TAB D, 'REFERENCE TO BLUE BOOK IS AUTHORIZED ONLY WHEN RESPONDING TO PUBLIC AND CONGRESSIONAL INQUIRIES.' THAT MEANS THIS IS MJ-12'S WAY OF KEEPING EVERYBODY ELSE AT AN ARM'S LENGTH DISTANCE FROM THE TRUTH.

Exactly. And Tab E doesn't even extend to Congressional inquiries. Basically it implies everybody (is off limits from knowing E. T. facts). No one who asks, including the U. S. President, has a right to know.

Tab F PSYOP

So, Tab F re-affirms that ‘the authorization to interrogate and detain any and all targets.’ Basically that says that none of the basic rights that we thought we had apply in this area.

THAT THE U. S. CONSTITUTION WAS NOT EVEN BEING RESPECTED BACK IN THE EARLY 1960S, AS FAR AS MJ-12 WAS CONCERNED.

Precisely. That’s an excellent way to put it. Yes. Tab F is overt evidence that the U. S. Constitution was being ignored.

WHAT WE DON’T KNOW IS EXACTLY WHAT PROJECT PSYOP IS AND WHO IT WAS UNDER?

That’s certainly true, yes. I was just assuming that Project PSYOP was the sort of general project that tried to cleverly contain, using psychological operations that were standard. In other words, keeping the public in the dark (about E. T.s) using subtle techniques, such as movies created to attune the public to various (E. T.-related) ideas and advertisements and false press releases – the whole genera of things the psyops guys use to keep us in the public confused.

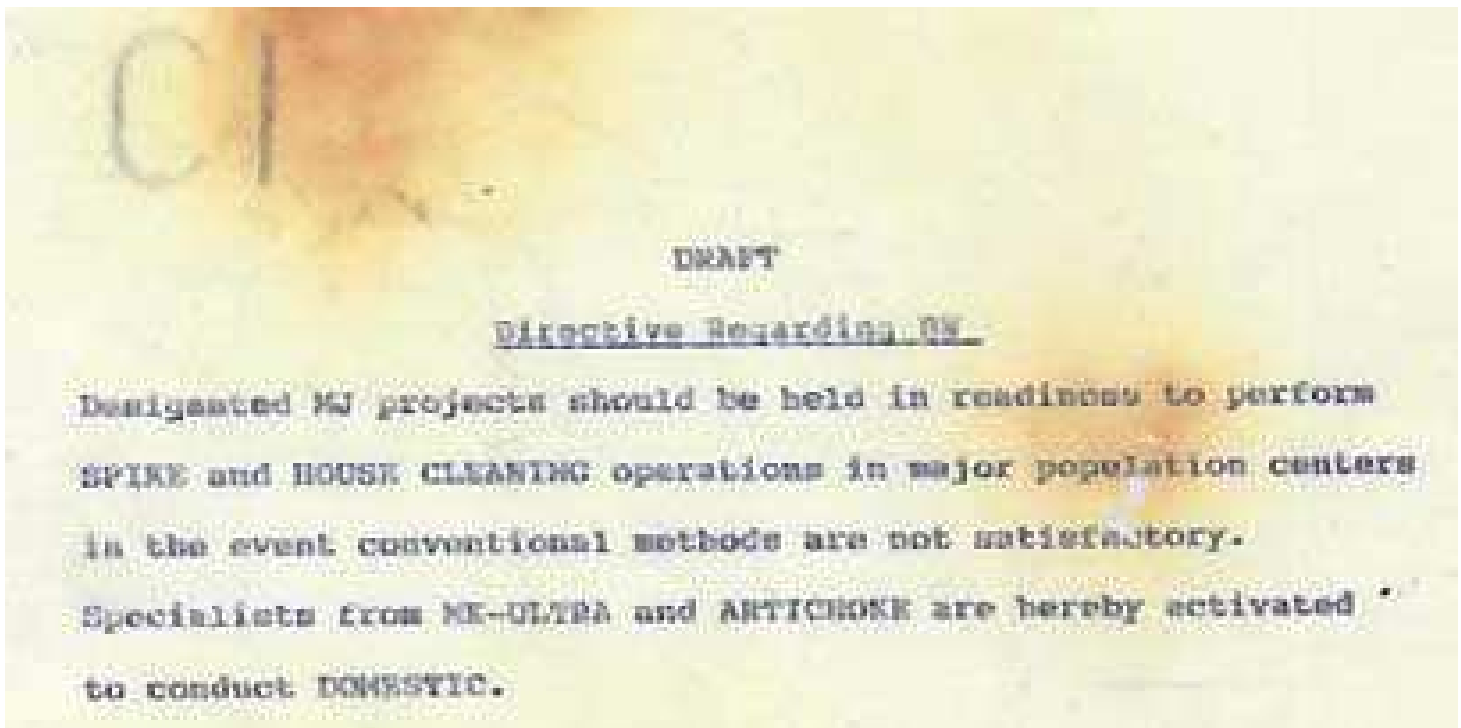

IF THERE WERE AN EYEWITNESS WITH PHOTOGRAPHS AND VIDEOTAPE, THEN THIS ‘GREEN’ UNIT WOULD HAVE THE AUTHORIZATION TO INTERROGATE AND DETAIN ANY AND ALL TARGETS?

Yes, UFO history is filled with excellent records of two or three guys in black taking away an eyewitness’s stuff and interrogating them and telling the eyewitness/es that nothing happened.

HOW IRONIC THAT THE MEN IN BLACK MIGHT HAVE BEEN WORKING DIRECTLY FOR PROJECT GREEN.

Right, exactly (laughs).

Tab G BW

In Tab G, the BW means biological warfare.

WHAT ARE 'SPIKE,' 'HOUSE CLEANING,' 'MK-ULTRA,' 'ARTICHOKE' and 'DOMESTIC'?

SPIKE, HOUSE CLEANING, ARTICHOKE and DOMESTIC, I think are all unknown. I'm still looking for people who claim to know something about those projects. MK-ULTRA, of course, has been released and discussed and basically that was a CIA project that did a lot of unconstitutional testing.

I think the part they have admitted to was the use of psychedelic drugs without permission of the subjects. If you look up MK-ULTRA in the public record, I think you'll find a lot of bad stuff that has been released.

[Editor's Note: *Wikipedia* - "Project ARTICHOKE was a CIA project that researched interrogation methods and arose from project BLUEBIRD on August 20, 1951, run by the Office of Scientific Intelligence. A memorandum by Richard Helms to CIA director Allen Welsh Dulles indicated ARTICHOKE became Project MKULTRA on April 20, 1953.

The project studied hypnosis, forced morphine addiction (and subsequent forced withdrawal), and the use of other chemicals, among other methods, to produce amnesia and other vulnerable states in subjects.

ARTICHOKE was an offensive program of mind control that gathered together the intelligence divisions of the Army, Navy, Air Force, and FBI. In addition, the scope of the project was outlined in a memo dated January 1952 that stated, 'Can we get control of an individual to the point where he will do our bidding against his will and even against fundamental laws of nature, such as self preservation?'

Project MK-ULTRA, or MKULTRA, was the code name for a covert CIA mind-control and chemical interrogation research program, run by the Office of Scientific Intelligence, that began in the early 1950s and continued at least through the late 1960s. There is much published evidence that the project involved the surreptitious use of many types of drugs, as well as other methodology, to manipulate individual mental states and to alter brain function.

Project MK-ULTRA was first brought to wide public attention in 1975 by the U.S. Congress, through investigations by the Church Committee, and by a presidential commission known as the Rockefeller Commission. Investigative efforts were hampered by the fact that CIA Director Richard Helms ordered all MK-ULTRA files destroyed in 1973. The Church Committee and Rockefeller Commission investigations relied on the sworn testimony of direct participants and on the relatively small number of documents that survived Helms' destruction order.

Although the CIA insists that MK-ULTRA-type experiments have been abandoned, 14-year CIA veteran Victor Marchetti has stated in various interviews that the CIA routinely conducts misinformation campaigns and that CIA mind control research continued. In a 1977 interview, Marchetti specifically called the CIA claim that MK-ULTRA was abandoned a 'cover story.'

On the Senate floor in 1977, Senator Ted Kennedy said: 'The Deputy Director of the CIA revealed that over thirty universities and institutions were involved in an 'extensive testing and experimentation' program, which included covert drug tests on unwitting citizens 'at all social levels, high and low, native Americans and foreign.' Several of these tests involved the administration of LSD to 'unwitting subjects in social situations.' At least one death, that of Dr. [Frank] Olson, resulted from these activities. The Agency itself acknowledged that these tests made little scientific sense. The agents doing the monitoring were not qualified scientific observers.']

Robert Wood: "I'd love to know what SPIKE, HOUSE CLEANING, ARTICHOKE and DOMESTIC are. But, if you give them (MJ-12) the benefit of the doubt, you could say that if there were contamination from an (E. T.) pathogen in the public, MJ-12 wants to control it and contain it to save as many lives as possible.

WHAT ARE 'CONVENTIONAL METHODS' CONCERNING SPIKE, HOUSE CLEANING AND ARTICHOKE?

Presumably the less conventional methods are probably less constitutional, too. (laughs) That would be my guess.

THAT SPIKE, HOUSE CLEANING, ARTICHOKE AND DOMESTIC ARE PROBABLY OUTSIDE THE BOUNDS OF LIBERTIES PROTECTED BY THE CONSTITUTION?

I would suspect so. Anyway, it's an alert – stay alert for anything having to do with ARTICHOKE, DOMESTIC, HOUSE CLEANING and SPIKE. I would like to know what those projects were - or are!

IT'S DISTURBING THAT MJ-12 WOULD BE HAVING COMMUNICATION ABOUT BIOLOGICAL WEAPONS.

Basically anything involving the aliens (E. T.s), it's clear that there was and is genuine concern that some of the diseases that aliens might have could be problems for us.

IN THE MAJESTIC 12 DOCUMENTS RELEASED AT RYAN'S MAJESTICDOCUMENTS.COM WEBSITE, THERE IS THE WHITE HOT MAJESTIC DOCUMENT AND THE INTERPLANETARY PHENOMENON UNIT DOCUMENT, WHICH DISCUSS THE DEATHS OF SABOTAGE ALERT TEAMS CALLED IN TO GATHER UP THE NON-HUMAN BODIES IN NEW MEXICO THE FIRST WEEK OF JULY 1947.

That's a good point. There certainly are cases such as the technicians who died in 1947 after they were taken to Los Alamos.

THOSE WERE TECHNICIANS THAT SPECIFICALLY WERE IN SOME KIND OF PROTECTIVE SUITS THAT HANDLED THE BODIES OF WHAT WERE DESCRIBED AS 'EXTRATERRESTRIAL BIOLOGICAL BODIES' AT CRASH SITES.

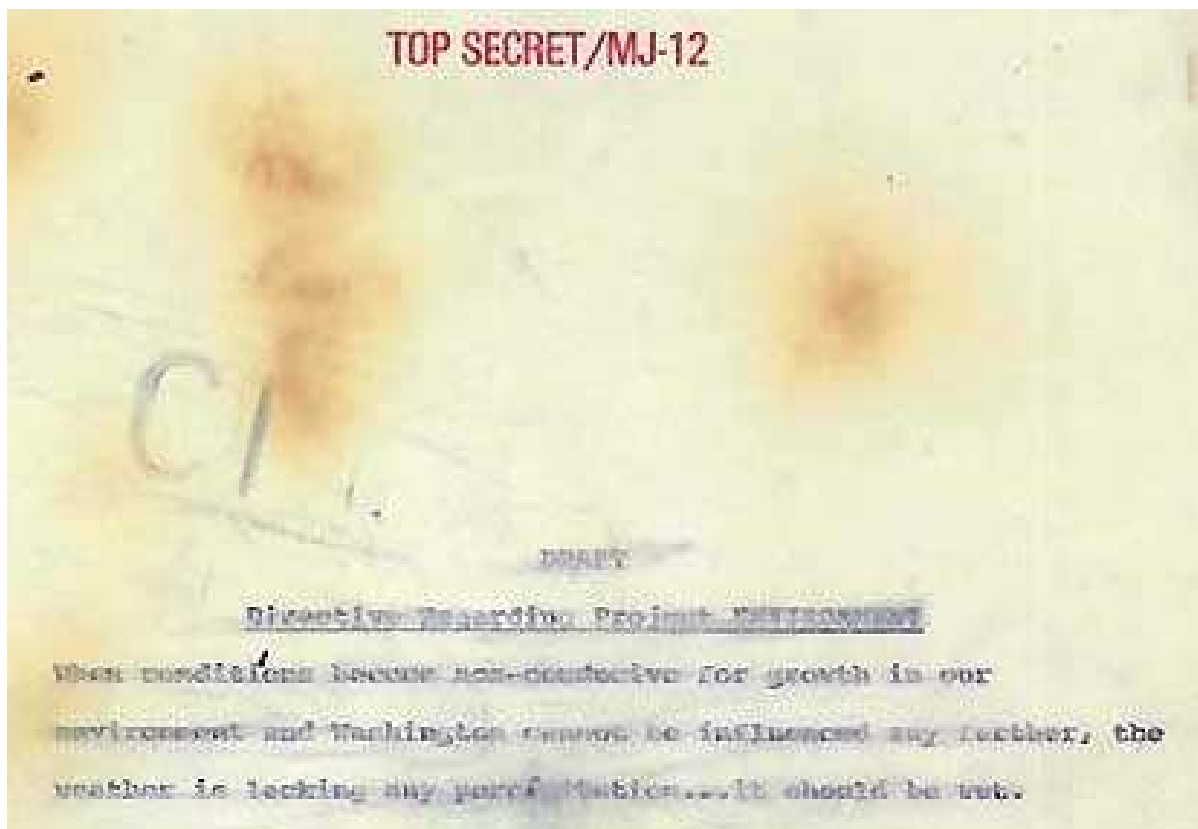

Exactly. There are a few cases like this where you can associate aliens and illnesses. But not to the extent that you can be specific about what pathogen was involved or what the treatments were or what kind of procedures would have been used for a public emergency. My guess is that these projects, SPIKE, HOUSE CLEANING, ARTICHOKE and DOMESTIC might be responses to an ‘Andromeda strain.’

FROM EXTRATERRESTRIAL BIOLOGICAL ENTITIES?

Yes, right. Reasonable things to do. Not everything that MJ-12 does is necessarily evil! (laughs) They were trying to make sure that our human enemies did not get more technology than we did. In the process, they decided their objectives were so important that they did not have to worry about the U.S. Constitution. And that was bad.

THAT BRINGS US TO THE FINAL PAGE OF THE BURNED MEMO, WHICH IS PERHAPS THE MOST SIGNIFICANT OF ALL IN THE CONTEXT OF AN AGENCY IN THE GOVERNMENT TRYING TO KEEP THE PUBLIC AND THE MEDIA FROM KNOWING THE FACTS ABOUT WHAT THE GOVERNMENT AGENTS DO KNOW: THAT THERE ARE EXTRATERRESTRIAL BIOLOGICAL ENTITIES INTERACTING WITH PLANET EARTH.

Tab H Project ENVIRONMENT

TAB H SAYS: ‘Draft, Directive Regarding Project ENVIRONMENT. When conditions become non-conducive for growth in our environment and Washington cannot be influenced any further, the weather is lacking any precipitation (misspelled as percipitation in memo) ... it should be wet.’

CAN YOU EXPLAIN THIS?

Well, it's four thoughts there. The first thought is when 'conditions become non-conductive for growth.' I think that means that if MJ-12 is not going to get any money, or no more money, or their money is going to be cut off completely 'in our environment.'

'And Washington cannot be influenced any further.' That means the people who control this covert money are not coming up with it.

MEANING COVERT BLACK BUDGET MONEY TO KEEP MJ-12 FUNCTIONING?

Yes. Exactly right, which is presumably somewhere between not trivial and huge!

And the 'weather is lacking any precipitation.' I'm reading that to mean that there is no more money coming down from the heavens like it has in the past.

Then, 'it should be wet' is a reference to 'wet works,' or 'wet affairs,' which originated in Russia, actually in the 19th Century from a Russian phrase where apparently if you killed somebody during a burglary, it was called 'wet' in Russian because of the blood.

BECAUSE OF THE BLOOD?

Yes, because of the blood. That word got used in the intelligence community in the KGB to describe assassinations. That was picked up by the intelligence communities around the world apparently.

At this point, you have to go back to the scenario that was involved. I would presume that the scenario involved is that MJ-1 is dictating this burned memo to a secretary. He, MJ-1, does not want the secretary to know that he is saying, 'We ought to kill JFK.'

So MJ-1 was using arcane language to conceal that from the secretary, but all of his (MJ-12) readers would know exactly what he meant. So, that's my speculation on the phrase, 'it should be wet.'

THIS IS THE DIRECTOR OF THE CENTRAL INTELLIGENCE AGENCY ...

MJ-1, yes.

WHO IS ADDRESSING MJ-2 THROUGH 7. ON THIS LAST PAGE OF THE BURNED MEMO, IN THE CONTEXT OF SOVIET SPY ACTIVITY AND ASSASSINATION HISTORY THAT HAS USED THE TERM 'WET' TO SIGNAL KILLING, 'SHOULD BE WET,' MEANS TO ASSASSINATE.

Yes."

Part 4: Original Carbon of Scorched Memo Links Government UFO Cover-Up and JFK Assassination

“I specifically want Project JEHOVAH director Professor Albert Einstein and Doctor Robert Oppenheimer to inject any useful comments to the briefing as they are most informed on the physics related to the subject.” - Dwight D. Eisenhower, 34th President of the United States, January 20, 1953 to January 20, 1961

Burned memo, presumably written before assassination of John F. Kennedy on November 22, 1963, when either John A. McCone or Allen W. Dulles were Directors of the Central Intelligence Agency. In the TOP SECRET/MJ-12 red stamped 9-page document, the first page cropped above shows the document is “From: Director of Central Intelligence (MJ-1) to MJ-2 through MJ-7, with reference to: Project MAJESTIC and JEHOVAH (MJ); Project EVIRO; Project PARASITE; and Project PARHELION.”

In the context of the above it has become necessary to review and evaluate duplication of field activities in light of the current situation. To eliminate this problem, I have drafted new directives for your review and consideration. Please evaluate each draft on its own merit with the goal of finding acceptable solutions in which all can agree on. As you must know LANCER has made some inquiries regarding our activities which we cannot allow. Please submit your views no later than October. Your action to this matter is critical to the continuance of the group.

In the burned first page above, under references to Project MAJESTIC and JEHOVAH (MJ), EVIRO, PARASITE AND PARHELION, the writer, who is Director of Central Intelligence (MJ-1), states: "As you must know LANCER has made some inquiries regarding our activities which we cannot allow." LANCER was the Secret Service classified code name for President John F. Kennedy, as LYRIC was the classified code name for JFK's wife, Jacqueline Kennedy.

August 6, 2008 Albuquerque, New Mexico - On April 20, 2002, I reported an Earthfiles.com entitled *Canadian and American Officials in 1950s Collaborated on Study of Unidentified Aerial Disks*. See [042008 Earthfiles in Real X-Files Archive](#). There were two subjects in that Earthfiles report: a Canadian government investigation of UFOs and an American government UFO-related Project JEHOVAH.

First, was the official UFO phenomenon research by a Canadian engineer named Wilbert Brockhouse Smith, who in the early 1950s was Director of Project Magnet in Canada's Department of Transport. Canadian UFO historian and researcher Grant Cameron discovered a Department of Transport document originally classified TOP SECRET about the subject of "Geo-Magnetics." Project Magnet was an official investigation of the "flying saucers" and the theory that their mode of propulsion utilized the magnetic fields of the earth and solar system.

November 21, 1950 Canadian Department of Transport 2-page Intra-Departmental Correspondence originally classified TOP SECRET about Geo-Magnetics.
Document provided by Grant Cameron, PresidentialUFO.com.

I made discreet enquiries through the Canadian Embassy staff in Washington who were able to obtain for me the following information:

- a. The matter is the most highly classified subject in the United States Government, rating higher even than the H-bomb.
- b. Flying saucers exist.
- c. Their modus operandi is unknown but concentrated effort is being made by a small group headed by Doctor Vannevar Bush.
- d. The entire matter is considered by the United States authorities to be of tremendous significance.

I was further informed that the United States authorities are investigating along quite a number of lines which might possibly be related to the saucers such as mental phenomena and I gather that they are not doing too well since they indicated that if Canada is doing anything at all in geo-magnetics they would welcome a discussion with suitably accredited Canadians.

Paragraph excerpted from second page of DOT Memo about Geo-Magnetics.

At the same time that Wilbert Smith was meeting with American and Canadian officials to study technology and the messages coming from the non-humans, Dwight D. Eisenhower was continuing Harry S. Truman's MJ-12 Special Studies Group on extraterrestrial vehicles and biological entities. Below is a November 4, 1953, SECRET memorandum from President Eisenhower to the Director of Central Intelligence, who in 1953 would have been Allen W. Dulles. Dwight David Eisenhower was the 34th President of the United States in office from January 20, 1953 to January 20, 1961. In the last paragraph, President Eisenhower mentions "Project JEHOVAH director Professor Albert Einstein and Doctor Robert Oppenheimer..."

~~SECRET~~

November 4, 1953

To: The Director of Central Intelligence

I have studied the TWELVE Operations Plan of June 16, 1953, on the subject of instructions for the expenditures of the National UFO Intelligence Program, and more specifically, the Special Operations Instructions to be issued to Unified and Specific Major Commands and Commanders. In connection with my Classified Basic Authorization of March 22, 1953, and the Implementing Instructions of January 23, 1953, I have no further instructions to add.

All the provisions covered in your NSC letter of May 22, 1953, are satisfactory to me, and I approve them, including the changes recommended by your intelligence staff, with the following exceptions:

(a) The penultimate paragraph, page 4 of Inclosure Number 1 to your letter needs to be revised. I am concerned that this paragraph as written could be misinterpreted by Regional and Local Commanders CONUS as giving them license to go beyond the restrictions set forth in these documents if the situation were to appear serious enough as to threaten hostile Soviet action. It seems best to me to eliminate this paragraph. It has been suggested that this difficulty could be averted by deleting the words "utilizing the criteria and procedures set forth in these instructions" and substituting therefor "observing the criteria, procedures, and restrictions set forth in these instructions." I would prefer the deletion of this paragraph altogether from this and all related documents.

(b) With regard to the basic letter of May 22, 1953, I would like to have added to paragraph 2: b the words "subject to COMINT agreements in accordance with NSA and CIA intelligence collection directives."

~~SECRET~~

I cannot overemphasize the need for the utmost discretion and understanding in exercising the authority set forth in these documents. Accordingly, I would like you to find some way to brief the various Authorizing Commanders on the subject to ensure that all are of one mind as to the letter and spirit of these instructions. Preferably, I would like to see this done in a closed meeting to be arranged through the Director of the National Security Agency, yourself, and representatives of the MJ-12/Special Studies Project. I specifically want Project JEHOVAH director Professor Albert Einstein and Doctor Robert Oppenheimer to inject any useful comments to the briefing as they are most informed on the physics related to the subject. Perhaps the annual Quantico conference could provide an opportunity to do this without the publicity which would call attention to a special meeting.

Sincerely,

Dwight D. Eisenhower

It is the bottom paragraph of President Dwight D. Eisenhower's November 4, 1953, letter to the Director of Central Intelligence (Allen W. Dulles) that also mentions Project JEHOVAH as listed in the burned memo references.

Forty-six years later in June 1999, the leaker of the burned memo - allegedly a close confidant of the CIA's Counter-intelligence Director, James Jesus Angleton - released the scorched 9-page original carbon document to Timothy Cooper, who in turn got it to Robert Wood, Ph.D., to study. Mr. Cooper:

I am a retired CIA counterintelligence officer who worked for Jim Angelton from 1960 to 1974. When Jim died it was my responsibility to go through his secret files and take inventory of sensitive files that would connect MJ-12 to JFK's murder. This document did not exist officially and has never been disclosed within the agency. AWD was very fearful of disclosure to unauthorized channels and leaks in the White House. I literally snatched the "Directives" from the fire and have kept them safe from review. To allow a review would compromise future directors and put the agency in a difficult position.

I feel the time is fast approaching when the files of the Majestic/Jehovah project will be pried loose and the public's right to know should begin. We in CI have monitored civilian UFO research for a long time and have played a major role in keeping the UFO community busy. Salina requested that the MJ-12 Directives be sent to you and hopefully, be disseminated in a responsible manner.

I think your decision to work with Dr. Wood was a good one. He has credibility and good science skills. I hope you have read the BLUE BOOK/MAJIC Report with an open mind and a critical eye for detail. This, you might say, is the missing BLUE BOOK files (don't confuse these with Project BLUE BOOK). You need proof and here it is. I don't think you realize it but you and Dr. Wood have started a shit storm. Nixon's SCEO ordered all MJ-12 documentation purged and destroyed. This one was not. This carbon copy is the only link to MJ-12 and don't expect any more in the future. Everything is now on computers and there is no existing paper trail to my knowledge. If you play your cards right, you should make progress with what you have. I caution you to be careful about who you talk to and trust with this information.

See: <http://www.majesticdocuments.com>.

Six and a half years before the President Eisenhower memo, in June 1947, the two outstanding physicists referenced as directors of Project JEHOVAH - Dr. J. Robert Oppenheimer, Director of Advanced Studies in Princeton, New Jersey; and Professor Albert Einstein at Princeton University, Princeton, New Jersey - co-authored a TOP SECRET DRAFT entitled, "Relationships with Inhabitants of Celestial (sic) Bodies." [Editor's Note: Celestial misspelled. Celestial relates to sky or the heavens. An astronomical object is sometimes referred to as a celestial body; planets are celestial bodies.]

Robert Julius Oppenheimer, Ph.D. (April 22, 1904– February 18, 1967), “the father of the atomic bomb,” worked on the first nuclear weapons before becoming a government advisor.

The Trinity Test

General Leslie Groves is large man in uniform next to Oppenheimer. Public domain government photograph.

Robert Julius Oppenheimer is best known for his role as scientific director of the Manhattan Project, America's TOP SECRET government project to develop the first nuclear weapons in the early 1940s in Los Alamos, New Mexico, a facility that came to be known as Los Alamos National Laboratory.

In reference to the Trinity test in New Mexico, where his Los Alamos team first tested the atomic bomb, Oppenheimer famously recalled the *Bhagavad Gita*: “If the radiance of a thousand suns were to burst at once into the sky, that would be like the splendor of the mighty one. ... Now I am become Death, the destroyer of worlds.”

After WWII, Oppenheimer was a chief advisor to the newly created United States Atomic Energy Commission (AEC) and used that position to lobby for international control of atomic energy and to avert the nuclear arms race with the Soviet Union. As a physicist, Oppenheimer is remembered most for being the chief founder of the American School of Theoretical Physics at the University of California - Berkeley. Later, at the Institute for Advanced Study in Princeton, New Jersey, he would hold Einstein's old position of Senior Professor of Theoretical Physics. Oppenheimer's notable achievements in physics include the Born-Oppenheimer approximation, work on electron-positron theory, the Oppenheimer-Phillips process, quantum tunneling, relativistic quantum mechanics, quantum field theory, black holes, and cosmic rays.

Albert Einstein, Ph.D. (March 14, 1879 – April 18, 1955),
German-born theoretical physicist best known for his theory of relativity
and the formula, $E = mc^2$. Einstein received the 1921 Nobel Prize in Physics
for the discovery of the law of the photoelectric effect.

Albert Einstein was one of the many concerned scientists during WWII who recognized the danger of German scientists developing an atomic bomb based on the newly-discovered phenomena of nuclear fission. In 1939, the Hungarian émigré Leó Szilárd, having failed to arouse U.S. government interest on his own, worked with Einstein to write a letter to U.S. President Franklin Delano Roosevelt, which Einstein signed, urging U.S. development of such a weapon. In August 1939, Roosevelt received the Einstein-Szilárd letter and authorized secret research into the harnessing of nuclear fission for military purposes.

By 1942, this effort had become the Manhattan Project directed by Robert Oppenheimer. Einstein himself did not play a role in the development of the atomic bomb, other than signing the 1939 letter to FDR. According to Linus Pauling, Einstein later expressed regret about his letter to Roosevelt. In 1947, Einstein wrote an article for *The Atlantic Monthly* arguing that the United States should not try to pursue an atomic monopoly, but instead should equip the United Nations with nuclear weapons for the sole purpose of maintaining deterrence.

[Editor's Note: Vannevar Bush, Ph.D., MIT and Harvard University electrical engineering degrees. He was involved with submarine detection research for the U. S. Navy early in his career. In 1930, Bush and his group at MIT had developed the first machine to solve differential equations. By WWII and through the 1940s, Vannevar Bush was a scientific adviser to President Harry S. Truman, was Chairman of the National Defense Resources Commission (NDRC) and had the MJ-2 position in the Majestic-12 Special Studies Group appointed by President Truman. Vannevar Bush died on June 28, 1974.]

Relationships with Inhabitants of Celestial (sic) Bodies

June 1947 Draft by Dr. J. Robert Oppenheimer and Prof. Albert Einstein

TOP SECRET

JUN 47

DRAFT June 1947

Relationships with Inhabitants
of Celestial Bodies

file (31)

Relationships with extraterrestrial men presents no basically new problem from the standpoint of international law; but the possibility of confronting intelligent beings that do not belong to the human race would bring up problems whose solution it is difficult to conceive.

In principle, there is no difficulty in accepting the possibility of coming to an understanding with them, and of establishing all kinds of relationships. The difficulty lies in trying to establish the principles on which these relationships should be based.

In the first place, it would be necessary to establish communication with them through some language or other, and afterwards, as a first condition for all intelligence, that they should have a psychology similar to that of men.

At any rate, international law should make place for a new law on a different basis, and it might be called "Law Among Planetary Peoples," following the guidelines found in the Pentateuch. Obviously, the idea of revolutionizing international law to the point where it would be capable of coping with new situations would compel us to make a change in its structure, a change so basic that it would no longer be international law, that is to say, as it is conceived today, but something altogether different, so that it could no longer bear the same name.

If these intelligent beings were in possession of a more or less culture, and a more or less perfect political organization, they would have an absolute right to be recognized as independent and sovereign peoples, we would have to come to an agreement with them to establish the legal regulations upon which future relationships should be based, and it would be necessary to accept many of their principles.

Finally, if they should reject all peaceful cooperation and become an imminent threat to the earth, we would have the right to legitimate defense, but only insofar as would be necessary to annul this danger.

Another possibility may exist, that a species of homo sapiens might have established themselves as an independent nation on another celestial body in our solar system and

evolved culturally independently from ours. Obviously, this possibility depends on many circumstances, whose conditions cannot yet be foreseen. However, we can make a study of the basis on which such a thing might have occurred.

In the first place, living conditions on these bodies lets say the moon, or the planet Mars, would have to be such as to permit a stable, and to a certain extent, independent life, from an economic standpoint. Much has been speculated about the possibilities for life existing outside of our atmosphere and beyond, always hypothetically, and there are those who go so far as to give formulas for the creation of an artificial atmosphere on the moon, which undoubtedly have a certain scientific foundation, and which may one day come to light. Lets assume that magnesium silicates on the moon may exist and contain up to 13 per cent water. Using energy and machines brought to the moon, perhaps from a space station, the rocks could be broken up, pulverized, and then backed to drive off the water of crystallization. This could be collected and then decomposed into hydrogen and oxygen, using an electric current or the short wave radiation of the sun. The oxygen could be used for breathing purposes; the hydrogen might be used as a fuel.

In any case, if no existence is possible on celestial bodies except for enterprises for the exploration of their natural riches, with a continuous interchange of the men who work on them, unable to establish themselves there indefinitely and be able to live isolated life, independence will never take place.

Now we come to the problem of determining what to do if the inhabitants of celestial bodies, or extraterrestrial biological entities (EBE) desire to settle here.

1. If they are politically organized and possess a certain culture similar to our own, they may be recognized as a independent people. They could consider what degree of development would be required on earth for colonizing.

2. If they consider our culture to be devoid of political unity, they would have the right to colonize. Of course, this colonisation cannot be conducted on classic lines.

A superior form of colonizing will have to be conceived, that could be a kind of tutelage, possibly through the tacit approval of the United Nations. But would the United Nations legally have the right of allowing such tutelage over us in such a fashion?

(a) Although the United Nations is an international organization, there is no doubt that it would have no right of tutelage, since its domain does not extend beyond relationships between its members. It would have the right to intervene only if the relationships of a member nation with a celestial body affected another member nation with an extraterrestrial people is beyond the domain of the United Nations. But if these relationships entailed a conflict with another member nation, the United Nations would have the right to intervene.

(b) If the United Nations were a supra-national organization, it would have competency to deal with all problems related to extraterrestrial peoples. Of course, even though it is merely an international organization, it could have this competence if its member states would be willing to recognize it.

It is difficult to predict what the attitude of international law will be with regard to the occupation by celestial peoples of certain locations on our planet, but the only thing that can be foreseen is that there will be a profound change in traditional concepts.

We cannot exclude the possibility that a race of extraterrestrial people more advanced technologically and economically may take upon itself the right to occupy another celestial body. How, then, would this occupation come about?

1. The idea of exploitation by one celestial state would be rejected, they may think it would be advisable to grant it to all others capable of reaching another celestial body. But this would be to maintain a situation of privilege for these states.
2. The division of a celestial body into zones and the distribution of them among other celestial states. This would present the problem of distribution. Moreover, other celestial states would be deprived of the possibility of owning an area, or if they were granted one it would involve complicated operations.
3. Indivisible co-sovereignty, giving each celestial state the right to make whatever use is most convenient to its interests, independently of the others. This would create a situation of anarchy, as the strongest one would win out in the end.
4. A moral entity? The most feasible solution is

seem would be this one, submit an agreement providing for the peaceful absorption of a celestial race(s) in such a manner that our culture would remain intact with guarantees that their presence not be revealed.

Actually, we do not believe it necessary to go that far. It would merely be a matter of internationalizing celestial peoples, and creating an international treaty instrument preventing exploitation of all nations belonging to the United Nations.

Occupation by states here on earth, which has lost all interest for international law, since there were no more res nullius territories, is beginning to regain all its importance in cosmic international law.

Occupation consists in the appropriation by a state of res nullius.

Until the last century, occupation was the normal means of acquiring sovereignty over territories, when explorations made possible the discovery of new regions, either uninhabited or in an elementary state of civilization.

The imperialist expansion of the states came to an end with the end of regions capable of being occupied, which have now been drained from the earth and exist only in interplanetary space, where the celestial states present new problems.

Res nullius is something that belongs to nobody such as the moon. In international law a celestial body is not subject to the sovereignty of any state is considered res nullius. If it could be established that a celestial body within our solar system such as our moon was, or is occupied by another celestial race, there could be no claim of res nullius by any state on earth (if that state should decide in the future to send explorers to lay claim to it). It would exist as res communis, that is that all celestial states have the same rights over it.

And now to the final question of whether the presence of celestial astroplanes in our atmosphere is a direct result of our testing atomic weapons?

The presence of unidentified space craft flying in our atmosphere (and possibly maintaining orbits about our planet) is now, however, accepted ~~as~~ by our military.

usafacto

On every question of whether the United States will continue testing of fission bombs and develop fusion devices (hydrogen bombs), or reach an agreement to disarm and the exclusion of weapons that are too destructive, with the exception of chemical warfare, on which, by some miracle we cannot explain, an agreement has been reached, the lamentations of philosophers, the efforts of politicians, and the conferences of diplomats have been doomed to failure and have accomplished nothing.

The use of the atomic bomb combined with space vehicles poses a threat on a scale which makes it absolutely necessary to come to an agreement in this area. With the appearance of unidentified space vehicles (opinions are sharply divided as to their origin) over the skies of Europe and the United States has sustained an ineradicable fear, an anxiety about security, that is driving the great powers to make an effort to find a solution to the threat.

Military strategists foresee the use of space craft with nuclear warheads as the ultimate weapon of war. Even the deployment of artificial satellites for intelligence gathering and target selection is not far off. The military importance of space vehicles, satellites as well as rockets is indisputable, since they project war from the horizontal plane to the vertical plane in its fullest sense. Attack no longer comes from an exclusive direction, nor from a determined country, but from the sky, with the practical impossibility of determining who the aggressor is, how to intercept the attack, or how to effect immediate reprisals. These problems are compounded further by identification. How does the air defense radar operator identify, or more precisely, classify his target?

At present, we can breathe a little easier knowing that slow moving bombers are the mode of delivery of atomic bombs that can be detected by long-range early warning radar. But what do we do in lets say ten years from now? When artificial satellites and missiles find their place in space, we must consider the potential threat that unidentified space craft pose. One must consider the fact that mis-identification of these space craft for a intercontinental missile in a re-entry phase of flight could lead to accidental nuclear war with horrible consequences.

Lastly, we should consider the possibility that our atmospheric tests of late could have influenced the arrival of celestial scrutiny. They could have been curious or even alarmed by such activity (and rightly so, for the Russians would make every effort to observe and record such tests).

In conclusion, it is our professional opinion based on submitted data that this situation is extremely perilous, and

measures must be taken to rectify a very serious problem are very apparent.

Mr. self and Marshall have read this and I must admit there is some logic. But I have think the President will consider it for the obvious reasons. I understand Oppenheimer approached Marshall while they attended ceremony at

As I understand it Marshall rebuffed the idea of Oppenheimer discussing this with the President. I talked to Gordon, and he agreed.

June 5, 1996, note written by Salina to Timothy Cooper: "At my father's request ('Cantwell'), I'm sending these private papers. Like my father, I worked in the Intelligence Community. I'm a retired CIA employee with thirty years in CI (counter-intelligence) under Jim Angleton. There are clues to be found in these documents. I can say no more. Good luck. Salina."

MajesticDocuments.com reports that the source of this Oppenheimer-Einstein draft document is Salina, June 1996. Salina is thought to be the daughter of CIA counter-intelligence operative under James Jesus Angleton dubbed "Cantwell," who has leaked many documents to Timothy Cooper, including the burned memo. See [Earthfiles Parts 1-4](#).

MajesticDocuments.com: "This is probably a copy of a carbon copy of a draft prepared by a secretary from dictation, and the secretary did not know how to spell this word. Generally, forensic examiners find that errors present in documents tend to indicate authenticity instead of lack of authenticity. Fakers usually try to make sure they're perfect. This is a six-page document, single-spaced, pica type. It has an elite type note with initials of Vannevar Bush at the end. This is the first document to use the phrase, 'Extraterrestrial Biological Entities, or EBEs.'

“This Oppenheimer-Einstein Draft says the presence of unidentified spacecraft is accepted as de facto by the military, and the date is June 1947 - before the alleged crashes of discs or wedge-shaped aerial vehicles in New Mexico. It deals with the subjects that you'd expect competent scientists to deal with; i.e., where do the non-humans come from, what does the law say about it, what should we do, and why are they here? Those are the subjects of this June 1947 six-page document.

“On the first page of the six-page document, note the TOP SECRET classification. As you can see, there are not many extra marks on the document. The last page shows no signatures, but it does show Vannevar Bush's initials after the note that essentially says, ‘I don't think that we should let Einstein talk to the President,’ and MJ-9 Gordon Gray agrees.

“While the language usage does not reflect the refined writing of Oppenheimer, it is easy to imagine that Einstein, dictating with an accent, might have produced these words. The principal factors favoring authenticity of the Oppenheimer-Einstein Draft are:

- Literary analysis compares favorably with other Albert Einstein pieces during 1940s such as the use of Latin, German and Jewish words.
- Period manual typewriter.
- Authentic Vannevar Bush handwritten initials ‘VB’ on last page.
- Einstein officially retired from the Institute of Advanced Studies in 1945, but continued to live and work in Princeton, New Jersey, when the draft was written in 1947.

“Further, the document suggests that in the event that EBEs desire to settle here on Earth, there will be ‘profound change in traditional concepts’ of law and the possible need for a new ‘Law Among Planetary Peoples.’ There are also propositions concerning the necessary creation of a ‘Cosmic International law’ that would protect the rights of all celestial states to lay claim on otherwise unclaimed solar territories. Finally, the document addresses the presence of celestial astroplanes in our atmosphere as possibly a result of Earth military experiments with nuclear fission and fusion warfare devices. Oppenheimer and Einstein encourage consideration of our potential Earth future situation and safety due to our present and past actions in space. How can we avoid a perilous fate?”

Operations Review
by Allen W. Dulles

THE MJ-12 PROJECT

The Overview. In pursuant to the Presidential National Security Memorandum of June 28, 1961, the U.S. intelligence operations against the Soviet Union are currently active in two broad areas; aircraft launch vehicles incorporating ELINT and SIGINT capabilities; and balloon borne decoys with ECM equipment.

The Situation. The overall effectiveness about the actual Soviet response and alert status is not documented to the point where U.S. intelligence can provide a true picture of how Soviet air defenses perceive unidentified flying objects.

Informational sources have provided some detail on coded transmissions and tactical plans whose reliability is uncertain, and thus, do not give us precise knowledge of Soviet Order of Battle. Current estimates place Soviet air and rocket defenses on a maximum alert footing with air operations centered on radar and visual verification much the same as ours.

Future psychological warfare plans are in the making for more sophisticated vehicles whose characteristics come very close to phenomena collected by Air Force and NSA elements authorized for operations in this area of intelligence.

Basis for Action. Earlier studies indicated that Americans perceived U.F.O. sightings as the work of Soviet propaganda designed to convince U.S. intelligence of their technical superiority and to spread distrust of the government. CIA conducted three reviews of the situation utilizing all available information and concluded that 80% of the sighting reports investigated by the Air Force's Project Blue Book were explainable and posed no immediate threat to national security. The remaining cases have been classified for security reasons and are under review. While the possibility remains that true U.F.O. cases are of non-terrestrial origin, U.S. intelligence is of the opinion that they do not constitute a physical threat to national defense. For reasons of security, I cannot divulge pertinent data on some of the more sensitive aspects of MJ-12 activities which have been deemed properly classified under the 1954 Atomic Energy Act of 1954.

I hope this clarifies the necessity to keep current operations with CIA activities in sensitive areas from becoming official disclosure. From time to time, updates will be provided through NIE as more information becomes available.

THE PROBLEM

1. Pursuant to the decision by the Joint Chiefs of Staff on J.C.S. 1844/126, to prepare the Joint Logistic Plan in support of MAJESTIC*.

FACTS BEARING ON THE PROBLEM AND DISCUSSION

2. MAJESTIC and its implementing directive** contain the planning and implementing procedures including assignment of responsibilities.

3. Appendix "A" to the Enclosure hereto constitutes the "Logistic Plan for MAJESTIC" and follows the standard form for a joint logistic plan to support a war plan, as set forth in reference c, Chapter 1, Section XV.

4. It is the policy of the Joint Chiefs of Staff to include, as a part of the Joint Logistic Plan, the logistic implications inherent in MAJESTIC. (See Appendix "B" to the Enclosure hereto.)

RECOMMENDATION

5. That the memorandum in the Enclosure with its Appendices be forwarded to the Chief of Staff, U.S. Army; the Chief of Naval Operations; and the Chief of Staff, U.S. Air Force.

"Mr. Premiere a situation has developed that affects both our countries and the world and I feel it necessary to convey to you a problem that we share in common."

"Mr. President I agree."

"As you must appreciate the tension between our two great nations has often brought us to the brink of showmanship with all the tapestry of a Greek comedy and our impasse last year was foolish and deadly. The division that separates us is through misunderstanding, politics, and cultural differences. But we have one thing in common which I would like to address to your working group on the UFO problem."

"Yes, yes...I agree with your assessment. We nearly tied the knot that divides us permanently. Our working group believes the same way as yours. The UFO problem presents grave dangers to our

countries and to the whole world. If we allow suspicions and miscalculations to force our military defense systems to react to this problem...God will never forgive us."

"Then you agree Mr. Premiere that we should cooperate together on this issue?"

"Yes, Mr. President."

"Mr. Premiere, I have begun an initiative with our NASA to exchange information with your Academy of Sciences in which I hope will foster mutual concern over this problem and hopefully find some resolution. I have also instructed our CIA to provide me with full disclosure on the phantom aspects and classified programs in which I can better assess the situation. Can you persuade your KGB to do likewise."

"Mr. President, I cannot guarantee full cooperation in this area but I owe it to future history and the security of our planet to try. As you must know I have been somewhat limited in my official capacity as Party Chairman to order such cooperation in this area. We too feel that the UFO is a matter of highest importance to our collective security. If I can arrange for a secret meeting between our working groups at a secret location and at a time designated by you, I feel that this much on my part can happen."

"Mr. Premiere, if a meeting at this level can convene it will be a important first step. It will lead to more dialog and trust between our countries and reduce the ever present threat of nuclear war."

"Yes, Mr. President it will."

"Then we are in agreement."

"Yes."

"Until we talk again, this conversation is classified top secret between us."

"Yes. Until we talk again."

Majestic Twelve Project, Annual Report, Summer 1952

This draft is not dated, but from dates mentioned in the document (latest is May 1951) we believe that it was written in the summer of 1952, on the occasion of the 5th anniversary of the July '47 crashes. It contains the nature of the investigation, the panel's contribution to the TOP SECRET MAJESTIC DOCUMENTS, a review of the Military Assessment, and various problems in relation to technology, Nuclear Weapons development, Biological Warfare Programs, Genetic and Pharmaceutical Development Programs, New Material Development, Planned Future Rocket Development, Nuclear Propulsion Development, Intelligence Gathering and Analysis, Foreign Policy and National Security, Domestic and Constitutional Issues, social, religious, and Scientific Reaction, Cold War development, and Government Policy of Control and Denial. Lots of sensational information

is contained in the seventeen pages of single-spaced, specific, checkable details. It will take several man-years to validate every phrase and claim. The initial checks we have performed provide no clear indication of fakery at all. See the authentication sections for a discussion of subtle issues here.

III. CONCLUSIONS

1. Current studies of other-world visitation are in three phases:

- a. Technology exploitation
- b. Interplanetary travel
- c. Cultural communication

2. On 19 September 1947, the IAC, JIOA, and the JIC, reviewed a Top Secret intelligence report titled REPORT TO THE PRESIDENT, 1947, PARTS 1-V, MAJIC EYES ONLY, DTG 000190947, the report mentions: "In compliance with your directive . . . of 9 July 1947, the attached "REPORT ON FLYING SAUCERS" is respectfully submitted. In consonance with your instructions, advisors from State, Treasury, War and Navy Departments assisted me on a two month exploratory mission concerning the reality of other-world visitation. The principle investigators and storage areas were visited. Successful efforts were made to reach scientists of all levels as measured by their work in classified defense projects. Conferences were held with national security officials and leaders of private industry. Approximately 1,200 memoranda and intelligence reports were considered. The report presents this situation against a global background my estimates, current and projected, in both the U.S., and allied countries, and recommendations deemed to be sound courses of action for formulating plans and policies in light of recent developments.

3. All efforts have been made to identify the country or private concern which could have the technical and financial resources necessary to produce such a long-range flight. So far, no country on this earth has the means and the security of its resources to produce such.

4. A consensus reached by members of the panel, that until positive proof that the Russians did not attempt a series of reconnaissance flights over our most secure installations--the sightings and recovered objects are interplanetary in nature.

5. The occupants of these platform vehicles are, in most respects, human or human-like. Autopsies, so far indicate, that these beings share the same biological needs as humans.

IV. DISCUSSION

A. Nature of the Investigation.

An analysis has been made of the first one-hundred intelligence reports in the ATIC Interrogation Reports and the ULATT EXPLOITATION-MAJESTIC SERIES 1-25, prepared by the Military Intelligence Section of GHC/IPU, in order to establish what material of flying saucer intelligence value concerning the ULATT is available in these reports.

1. The ATIC Interrogation Reports, numbered 1 to 93 (the last dated December, 1950), present significant information on a broad variety of subjects and areas where witnesses were detained subsequent to the post-1947 incident. The unpublished documents consolidate records of interrogation derived from the accumulated reports on interviews of selected witnesses from New Mexico and military personnel involved in removal of evidence.

2. In this digest, primary attention has been paid to information of bio-medical intelligence interest, particularly in the BW programs. Bio-medical intelligence is only one of the substantive fields covered by these Interrogation Reports.

3. For the most part, the sources interrogated were not trained observers, and their stories indicate they have been subject to the familiar pitfalls common to all eye witnesses. It must be emphasized that, because the interrogators used were not always specialists in this phenomena of celestial sciences, there is much lack of detail.

4. Because of the unique nature of the material under study, a

B. Panel's Contribution to MAJESTIC

1. The contribution of the President's Special Panel to the MAJESTIC TWELVE PROJECT has supplemented information on the ULATT Program which could not be obtained in any other way. Although only a small part of the project, interrogation in technical and bio-medical field has produced at least 8,973 items for the files of Military Intelligence, GHC/IPU. Of these items, 1,764 have been published (up to December, 1950) in the ULATT EXPLOITATION-MAJESTIC SERIES. The coverage of the New Mexico incidents, from the over-all intelligence point of view, has been very good. (After the Panel's review was initiated, GHC/IPU published in March 1951, two summary "MAJESTIC SERIES," No. 98 and No. 99, of the series titled "New Medical Facilities for Biological Warfare; New Genetic and Pharmaceutical Development Programs." These summary reports have apparently made use of much of the AEC file material since 6,014 items are now reported as published "Medical Items" in the "Interrogation Reports" - see MAJESTIC SERIES, No. 98, page 1.)

2. For the clarification of published reports or for elaboration of the information of fragmentary nature, resort may be had to the AEC files of unpublished data as well as to the possibility of reinterrogating the sources.

C. Review of the Military Assessment

With current deployment obligations, troop commitments, and few air groups with stand-by fighters with radar capability, the Joint Chiefs are unable at the present time, to effect a complete and all-encompassing defense plan that would guarantee the protection and well-functioning of the national political order. Personnel, material, and logistical requirements for such a defense would deplete current resources. If such a crisis should occur--in government failure to defend and assure the public's trust, it is the belief of the Joint Chiefs, that the following would issue: insecurity and mistrust; employment of subversive agents; infiltration; incitement of disorder and chaos to disrupt normal economy and undermine popular support of government and its leaders; seizure of authority without reference to the will of the people.

D. Technology

At present, the ability to reconstruct the technology that may be gone ahead of us, the boost to our current efforts would be incalculable. Areas such as aircraft and missile design would benefit only after a working understanding has been achieved. Weapons sciences will follow.

~~TOP SECRET~~

E. Nuclear Weapons Development

Miniaturization of atomic bomb components is the goal of the AEC and the AFSWF. Studies at MIT indicate that such a technology is within reach before the decade is out. The apparent use of micro-circuitry found on the recovered platform indicates that miniaturization, low-power transmission, light conductor/sensitive components are required for interplanetary space travel. Atomic engines and nuclear propulsion technologies could be advanced based upon current use of hydrogen and electro-magnetic research and weapons components development in U.S. and U.K.

F. Biological Warfare Programs

BW programs in U.S. and U.K., are in field test stages. Discovery of new virus and bacteria agents so lethal, that serums derived by genetic research, can launch medical science into unheard of fields of biology. The samples extracted from bodies found in New Mexico, have yielded new strains of a retro-virus not totally understood, but, give promise of the ultimate BW weapon. The danger lies in the spread of airborne and bloodborne outbreaks of diseases in large populations, with no medical cures available.

G. Genetic and Pharmaceutical Development Programs

Current research in U.S. and U.K., can be accelerated when studies are complete. Understanding the human makeup through EBE research will bring a varied wealth of information in how cells replicate themselves and may help in developing new drugs and markets. Healthcare industries are considered the best source of R&D for DoD programs.

H. New Materials Development

Conclusions reached by the Air Materiel Command in 1948, upon the close examination of the material structure of the Corona and Oscura Peak, N.M. sites, compelled the Air Force to launch a new machinability research program. Samples tested and evaluated by the AMC, suggested that future materials would have to incorporate new alloys and composites, if space exploration and hyper sonic dynamics are to be achieved. As a result, new machining techniques are underway for high-temperature alloys and titanium.

~~TOP SECRET~~

I. Planned Future Rocket Development Programs

There have been a number of failed high-altitude rocket launches to study radiation effects on living organisms. The Air Force's Project BLOSSOM, conducted at Holloman AFB, is but one example. V-2 rocket launches at the White Sands Proving Ground, N.M., have been knocked down by undetermined jamming. The source of the jamming is believed to come from UFO sightings on or near the range. Guidance systems are believed to be vulnerable and this presents a clear and present danger. Such keeper flights carrying nuclear weapons are too horrific to contemplate. Shielding of systems and circuits are underway.

J. Nuclear Propulsion Development Programs

The AEC and NEPA are currently conducting research for advanced technologies in atomic engines and radical propulsion studies. Systems studies at Los Alamos, N.M., Oak Ridge, Tenn., and at Langley, Va., are attempting to duplicate the water drive and plastic core elements found on the engine being kept at HAFB. Intergration of hydrogen base fuels and electro-hydrodynamic technology, may open up for us development of super-aerodynes with mach 5 capabilities.

K. Intelligence Gathering and Analysis

Based on what is known of the technology and intelligence of the visitors, it is fairly certain that there will be other sightings and encounters of a spectacular nature. As to purpose and modus operandi, we are not certain, but it is clear, that if these visitors had conquest in mind, it would not be difficult for them, given their ability to penetrate our airspace at will, and their ability to jam radio, telephone, television, and teletype transmissions, let alone power grids. So far, reports and sightings are blatant and deliberate, thus allowing our intelligence agencies to gather good data. As to the analyses of such reports, only a continuous wave of sightings and encounters worldwide, would provide enough data for a clear understanding of intent.

L. Foreign Policy and National Security

To date, only Great Britain, Canada, and the Soviet Union, are contacted and appraised in the event invasion is eminent. It is the current policy of the Administration that no other foreign countries will be consulted or advised. The national security status of the MAJESTIC operation exceeds that of the H-bomb development.

M. Domestic and Constitutional Issues

In dealing with clear violations of civic law and guarantees as defined under the Constitution, it has been discussed among members of MAJESTIC TWELVE, that such protection of individual rights are out-weighted by the nature of the threat. Only a declaration of war or a national emergency, would give the government the power to enact martial law and recede individual rights.

N. Social, Religious and Scientific Reaction

It has been the downfall of great nations and cultures when a new reality is not readily accepted by the masses. The social order was severely ravaged by the last world war, with great damage to the religious dogma of "earth without end," thus making a government disclosure irresponsible and inherently dangerous. The scientific community would predictably question such a reaction as a world suffering from a Buck Rogers delirium and attack anyone of their own ranks for believing such fantasy. Science itself, may undergo a traumatic transformation, with belief structures in shambles, putting the institutions under scrutiny by the layman, thus eroding any credibility. Science would be left with an image of credulity.

O. Cold War Development

This is one of the most dangerous phenomenon of the twentieth century. To misidentify a flight of space objects for actual Russian bombers, or to dismiss Russian bombers as phantoms, is the most idiotic approach to take. Even though governments may distrust each other, it is the responsibility and creed of the military and intelligence professional to prevent wanton death and destruction of his country. It is advisable to maintain some form of direct communication with a hostile enemy before taking false assumptions of his response if faulty data wrongly indicates such. Even using the "Flying Saucer" ruse to create fear and confusion among your enemies leaders, could result in accidental war. Even our early analysis of the recovered planforms in 1947, led to the wrong assumption that the Russians were preparing a sneak attack on the continent.

P. Government Policy of Control and Denial

One of the most difficult aspects of controlling the perception in the public's mind of government attempts of denial and ignorance--is actual control of the press. Until a clear intent is established with diplomatic relations firmly in hand, it is the recommendation of the President's Special Panel with concurrence from MAJESTIC TWELVE, that a policy of strict denial of the events surfacing from Roswell, N.M., and any other incident of such caliber, be enforced. A inter-active program of controlled releases to the media, in such fashion to discredit any civilian investigation, be instituted in accordance with the provisions of the 1947 National Security Act.

~~TOP SECRET~~

ANNEX A

1. The Panel's review of the AEC and AFSWP investigation of Site L-1 and the Air Force Site L-2, has led the Panel to conclude that the objects under study, are the result of a high altitude ejection of a escape cylinder from a fatal mid-air collision of two unidentified circular planform aircraft of interplanetary nature.
2. Of particular interest to the Panel was Site L-2, located at Lat. 33-40-31, Long. 106-28-23, as this site yielded the most material for analysis.
3. Site L-2 may be closely associated with Site L-1, due to the similarity of material recovered and that the impact at Site L-1 and debris pattern suggests that the craft hit the ground at a sharp angle and continued to remain airborne until coming to rest at Site L-2.
4. The craft found at Site L-2, is either the remains of a rocket-plane, or, a powered-glider. What remained of the power plant was examined and determined to be of a magnetic drive propulsion powered by a fusion reactor of sorts.
5. Lack of wiring, fuel systems, cables, motors, hydraulics, intakes, exhaust, and surface controls, strongly suggests that the craft was designed to travel outside of our atmosphere.
6. The second craft that impacted at Site L-3, provided very little evidence that it too was similar in design, as the impact was vertical in nature and at very high speed. It is believed that the debris discovered on 2 July 1947, by a local rancher was the result of a mid-air collision with an X-plane from HAFB; another unidentified object; or possibly collided with both. Radar film and tower logs do not explain the merging of three radar targets prior to collision and subsequent crashes.
7. There were five recovered bodies, two of which were found in a severely damaged escape cylinder, and the remaining three were found some distance away from the cylinder. All five appeared to have suffered from sudden decompression and heat suffocation (recovery and autopsies of the occupants are covered in detail in a separate study GRAY SUIT within Projects 612 and 621, ULTIMATE EXPLOITATION-MAJESTIC SERIES 4, p. 40-102), as a result of damage sustained from unknown causes.

8. The Panel was concerned over the contamination of several SED personnel upon coming in contact with debris near the power plant. One technician was overexposed and collapsed when he attempted the removal of a body. Another medical technician went into a coma four hours after placing a body in a rubber body-bag. All four were rushed to Los Alamos for observation. All four later died of seizures and profuse bleeding. All four were wearing protective suits when they came in contact with body fluids from the occupants.
9. Autopsies on the four dead SED technicians are not conclusive. It is believed that the four may have suffered from some form of toxin or a highly contagious disease. Tissue samples are currently being kept at Fort Detrick, Md.
10. The Panel was also concerned with the detection of air-borne release of radiation over the state of New Mexico. AFTAC detachment from McClellan AFB has conducted several airborne monitor flights over Site L-2. Radiation readings indicate a high neutron count was recorded as the plane flew over the site. Neutron count dropped off as the plane flew a considerable distance from the site. A report has been filed with the USRAIDS.
11. Detection of a high altitude explosion was recorded by a Project MOGUL constant level balloon on 4 July 1947. Radar from White Sands Proving Ground and HAFB also detected a surge.
12. Parachute recovery team from HAFB were dispatched to Site L-2. Upon arrival, the team, realizing the nature of the crash, radioed instructions and marked crash site for the investigators that arrived later.
13. In the opinion of the senior AEC medical officer, current medical equipment and supplies are wholly inadequate in dealing with a large scale outbreak of the alien virus.
14. Facilities at Los Alamos and Mayo clinics were considered as lacking in the current climate.
15. On 26 September 1947, the first meeting of the NSC-1 was held to discuss the New Mexico incidents and how to implement the policy established by MJ-12 SS&P.

1. Upon the creation of the MAJESTIC TWELVE GROUP by special executive order dated 24 September 1947, and given powers of authority by PDD/A-1, dated 26 September 1947, the Panel was empowered to convene and conduct a review of all available evidence and data collected by government and military intelligence agencies.
2. Because of the unique nature of the 1947/48 crisis, the Panel recommended to MAJCOM-1 that the authority of the Secretary of Defense be invoked in order to implement NSCID No. 1/1.
3. A meeting was held on 8 December 1947, between CIA and IAC concerning the IAB. Dr. Vannevar Bush, Chairman of the Panel, requested the DCI to convey the contents of a letter from Dr. Bush to Secretary Forrestal, thus breaking the deadlock over issues concerning authority and policy making dealing with the New Mexico incidents and subsequent exploitation of the finds.
4. On 13 January 1948, the NSC, with input from the Panel recommended to the President that third party group from outside of the Government be established for the purpose of conducting a impartial and objective survey of the activities and personnel of the CIA.
5. As a result of the DCI's lack of timely intelligence estimates and peer coordination of intelligence activities for MAJESTIC the NSC Survey Group issued its findings. At the suggestion of the Panel Chairman, the IAC met on 16 June 1948, at which the conclusions of the Survey Group were reviewed.
6. On 18 February 1949, the IAC met for the purpose of proposing some changes to a CIA draft proposal on MAJCOM activities.
7. General Joseph McNarney, with the assistance of Carlisle Hunselme and Robert Blum, prepare NSC 50/1. On 7 July 1949, the NSC adopted the recommendations of NSC 50/1 which directed the DCI to enlist the activities of the IAC in MAJESTIC intelligence activities.
8. MAJCOM-1 meets with the President in May 1950.
9. Admiral Hillenkoetter leaves position as DCI on 7 October 1950.
10. MAJCOM-1 with assistance of the Panel persuades the President to establish the Psychological Strategy Board on 4 April 1951.

ANNEX B (Cont'd)

11. Panel member and MAJCOM-4 meet with MAJCOM-1 on 10 October 1950 along with members of IAC. The Chief of Global Survey Group desired estimates requested by the Pentagon concerning possible defense project for MAJESTIC LOGISTIC SSP-1.
12. On 6 December 1950, MAJCOM-4 alerts MAJCOM-1 of a breach in DEW Greenland of a UFO on a south-western course. HQ IPU alerted and dispatched a scientific team to El Indio-Guerrero on the Texas-Mexico border. MAJCOM-4 orders a recovery team from Project STORK and MOON DUST to crash site. Teams transport debris from crash site to ADC HAFB and to AEC laboratories at Sandia, New Mexico.
13. MAJCOM-1 enlists the Panel's aviation consultants for the purpose of advising the "Princeton Consultants."
14. On 28 December 1950, MAJCOM-1 is provided with the "Black Book" summaries prepared by the Watch Committee. Beginning every Friday the President is briefed on world situation and on MAJESTIC via the CIA weekly Current Intelligence Review.
15. At the request of Panel member Cardinal Francis Spellman met with the President to discuss the containment within the Catholic Church and its hierarchy of religious speculation if mass sightings occur. Such containment was successful during the 1947 sightings when Cardinal Spellman met with the Secretary of War on 29 June. The President has been briefed on Defense Plan LP, which was written in part by the Panel member.
16. In support of the MAJESTIC program for developing atomic engines, Panel members and their association with the AEC, the Armed Forces and the National Advisory Committee for Aeronautics, have consulted MAJESTIC for the development of nuclear fission reactor for powered flight studies.
17. Atomic engines for aircraft built here on earth faces many difficulties because of size and weight of the reactor and radiation shielding. Such a nuclear power plant would give an aircraft unlimited range.
18. Panel members contributed to the writing of ULATT EXPLOITATION-MAJESTIC SERIES 5 title Hypersonic Small-Disturbance Theory, which gives consideration to a three-dimensional body fixed in a steady, uniform, hypersonic stream. The theory assumes that shock waves can be approximated by abrupt discontinuities and the planform body being thin, so that the slope of the local surface in the stream direction is uniformly small.

~~T O P~~

ANNEX E (Cont'd)

19. MAJCOM-4, a member of the Panel was instrumental in supporting the creation of the Air Force's Scientific Advisory Board which MAJCOM-5 endorsed.
20. MAJCOM-5 recommended to the Air Force Chief of Staff, that the Top Secret report Where We Stand, be the basis for ULATT development. MAJCOM-5 urged the COS to enact the ideas of another report Science, the Key to Air Supremacy. Major General Curtiss LeMay Staff Director of Research and Development seconded MAJCOM-5's views.
21. The Panel Chairman argued for funding for air defense projects that would be useful in combating the new menace instead of developing ballistic missiles, which have proved to be useless.
22. On June 15 1947, Dr. Theodore von Karman chaired the first meeting of the SAB and discussed how the Air Forces could prepare for a possible air attack in light of the numerous UFO sightings over the U.S.
23. On 14 May 1948, MAJCOM-4 arranged for the promulgation of Air Force Regulation 20-30, which restored the powers of the SAB as agreed upon by Karman and LeMay in 1946.
24. MAJCOM-4 had a prepared speech read at a meeting of scientific advisers on 7 April 1949, highlighting new Air Force R&D organization and structures on UFO research for ULATT. Karman enlisted the aid of a Panel member to persuade MAJCOM-4 to endorse a separate establishment free from AMC and Pentagon control.
25. On 2 January 1950 a plan was presented to the Air Staff Council for separate R&D for ULATT.
26. On 23 January 1950, Research and Development Command and the Air Staff Deputy Chief of Staff for Research and Development was created.
27. In May 1951, Panel member MAJCOM-4 endorsed Karman's creation of IGARD and his presentation at the Pentagon of a lecture called "Mobilisation of Scientific Effort in Western European Countries."

1. Military commanders are taught a basic premise that the ideal defense as characterized by Karl von Clausewitz,--is a "shield of blows." When an enemy attack begins the defender yields the initiative, using his prepared positions and knowledge of the battle ground to slow its momentum and to strike the enemy with repeated, unexpected blows. Such a defense can work, only when the enemy is detected, his strength known, his weaponry identified, and, his tactics and movements are revealed.

2. In the annals of warfare mass disappearances of soldiers and their equipment are rare but are on record. In the eighteenth century during the Spanish War of Succession, 4,000 soldiers were reported to have disappeared, together with their weapons and equipment (horses included). In 1885, about 600 French colonial soldiers disappeared near Saigon, French Indo-China, without a trace of them nor their equipment. On August 21 1915, members of the New Zealand Army Corps' First Field Company signed sworn statements that they saw the One-Fourth Norfolk Regiment disappear in a unusually thick brew cloud which seemed to move and rise upward and vanished. There were no traces of the regiment nor their equipment. No explanation can be found in the historical records of the Imperial War Museum archives. In 1939, over 2,900 Chinese Nationalist troops were reported missing from their camp, just south of Nanking. Again, men, equipment, guns, were missing though camp fires and mess tents were undisturbed. During the Pacific campaign, there have been instances where whole platoons and larger units seemed to have disappeared without any sign of combat or a struggle. Men, equipment, weapons--vanish without a trace. In all instances the disappearances occurred in tropical climate and in the heat of battle or near combat zones.

3. Missing aircraft, pilots and crews, are of special concern to the military when no explanations fit the usual reasons outside of combat. One such incident is the disappearance of a flight of five U.S. Navy TBM-3 Avenger torpedo bombers from NAS Fort Lauderdale on 5 December 1945. While no explanation as to why navigation instruments on all five aircraft could have failed at the same time, and efforts to rescue the 14 crewmen were unsuccessful, it is believed that Flight 19 encountered a phenomenon of celestial nature. The last known radio transmission from the instructor pilot was heard by a ham operator, "Don't come after me . . . they look like they are from outer space. . . I'm at 2,300 feet. Don't come after me." After one of the most intensive air-sea rescue operations in U.S. naval history, the Naval Board of Inquiry said, "we were not able to make even a good guess as to what happened."

4. On 7 January 1948, a ANG F-51 pilot was lost near Godman AFB, Kentucky. After being directed to lead his flight of four F-51s by the tower, Captain Thomas Mantell pursued a large metallic object alone after two pilots returned to Godman AFB, and finally his wingman was ordered to return to the field. It is believed that Mantell was following a large, structured object not in the flight path of a classified Navy SKYHOOK balloon. Mantell radioed Godman tower that he was at 22,000 feet and still climbing. At one point Mantell said that the object had paced his aircraft for several minutes, then would speed up. His last transmission to the tower was, "It appears to be a metallic object . . . and it is of tremendous size . . . It appears to be a metallic object or possibly the reflection of sun from a metallic object." When Godman personnel arrived at the crash scene, Mantell's F-51 was found in many pieces, not large sections as one would find from a free stick descent. The wreckage contained unusual damage as if Mantell's plane was repeatedly hit by shotgun blasts. Some of the metal had pitted surfaces and unusual scoring. All rubber material had disintegrated in a soft powdery substance. There was no indication of gunfire damage or fuel burn. The crash site and debris exhibited an unusually high amount of radiation of undetermined nature. The site was cleared of debris and covered. Mantell's plane was subsequently sent to Wright-Patterson AFB, Ohio for examination. A autopsy was conducted on the body and interned in storage for future study. It is believed by the Air Force investigators that Mantell's plane had been destroyed by a ionization phenomenon, possibly from the propulsion wash of the object's exhaust.
5. From 1949 to late 1950, there have been several crashes of B-36 bombers on routine arctic patrol that bear all the earmarks of the Mantell incident. None of the crews were found. The atomic bombs were not recovered, thus creating a serious problem for the Air Force when nuclear weapons are lost over friendly countries.
6. The death of two Air Force counterintelligence officers in the crash of their B-25 aircraft enroute to Hamilton AFB, California, after interviewing two auxiliary GQ men who reported six UFOs over Maury Island, Washington, in June 1947. CIC agent Crisman had spoken to Kenneth Arnold, who on 26 June 1947, had reported a flight of UFOs over Mt. Rainier, Washington, and filed his report after he had spoken to Captain Davidson and Lieutenant Brown. The material given to Davidson and Brown was believed to come from Maury Island and may be celestial fragments containing metal from a nuclear reactor from a UFO. Fragments were turned over to CIA agent Shaw, and Crisman was ordered to the Alaskan ADC for assignment in Project IVY.

7. Aerial interference with military aircraft has demonstrated the ability to observe our air operations in war and peacetime conditions. During the war over 900 near-miss incidents were reported by allied pilots and crews in all theater of operations. One of the most dramatic near-miss encounters occurred on 14 October 1943, 8th AF Mission 115 over Schwienfurt, Germany. B-17 crews reported many formations of silverly discs flying down into the B-17 formations. Several times during the bombing mission, large objects were seen following the discs descent into the formations. Unlike previous reports, no engine failures or airframe damage was reported. After the surrender of Nazi Germany, GAF fighter pilots were interregated by AF intelligence concerning Mission 115. GAF did not have any aircraft above our bombers at that time.
8. On 1 August 1946, a C-47 piloted by Captain Jack E. Puckett, Assistant Chief of Flying Safety for TAC, experienced a near-miss of a cylindrical-shaped aircraft about 100 meters in length. The incident occurred at an altitude of 4,000 feet, northeast of Tampa, Florida. Just 1,000 yards on a collision course, the UFO flipped over sideways, crossing the flight path of Puckett's C-47. Three other crew members observed the UFO and described it as being over twice the length of a B-29 and cylindrical in shape with luminated windows. Observers on the C-47 reported a stream of fire trailing the object. The crew and Puckett watched the UFO for over three minutes. TAC radar stations had tracked a large target approaching the C-47 and then performed a right-angle course change while flying at speeds of excess of 600 mph.
9. On 1 October 1948, a ANG F-51 pilot engaged a blinking luminous UFO in a dogfight-style encounter over Fargo, North Dakota.
10. On 24 April 1949, engineers and technicians from the White Sands Proving Ground observed a elliptically-shaped object moving in a eastward course at very high altitude. The object was discovered while tracking a Skyhook balloon through a theodolite. The object appeared whitish in color and pale yellow at the tail end. The object was estimated to be two-and-a-half times as long as it was wide. It was difficult to see any structure of the object as it was moving at a very high speed. The object was observed through a theodolite for approximately one minute before disappearing in a steep climb. The object was estimated to be traveling at an altitude of over 60 miles.

11. From 1944 to early 1951, our atomic bomb and component plants have been the target of UFO reconnaissance. Of late, our NEPA projects are of special attention to the visitors. During some of the flights, radiation levels have risen sharply, then dropping suddenly to normal. In some instances plutonium production has been halted due to contamination of plant personnel during these sightings of low-level flights.
12. On 25 October 1950, the Superintendent of Security, Oak Ridge, filed a security report for I-10. He stated that a round object, about ten feet in diameter, burnished yellow in color, hung low over the Control Zone. The object would move slightly from one side to the other and emit a low hum sound.
13. On 24 October 1950, the Assistant Chief of Security, NEPA Division, Oak Ridge, observed a similar object near the restricted area (Restricted Flying Zone). The object emitted a varying color of light from red to green, to blue to orange. This sighting was confirmed by a Air Force officer also of NEPA Division, Oak Ridge. Radar from Knoxville Airport tracked several slow moving targets flying over the Southeast sector of the "Restricted Zone". Fighters were vectored to the radar targets but the pilot reported no visual contact.
14. Naval aircraft with nuclear weapons delivery capability have reported a sudden drop in neutron counters. Aircraft carrier storage of nuclear weapons have also reported unusual neutron counts. During recent NATO naval maneuvers, the USS Franklin D. Roosevelt has been trailed by numerous UFOs for long periods on-and-off since 1950.

CONCLUSIONS:

The future of American citizens and the world for that matter are jeopardized today by developments as portentous as those leading to World War II. Given the growing challenge from the Soviet Union and her satellites and the intrusion of extraterrestrials, the United States is compelled, therefore, to initiate realistic lines of action to protect United States strategic interests.

RECOMMENDATIONS:

It is recommended:
That the United States Government provide as early as practicable moral, advisory, and material support to the MAJESTIC-12 Project in order to contribute to the early establishment of peace in the world in consonance with the enunciated principles of the United Nations, and to protect United States strategic interests against forces which now threaten them.

TRANSCRIPTION :: THE MAJESTIC12 PROGRAM PAPERS, 1952, IN PART.

MAJESTIC12 BY THE Joint Chiefs, 1952.

*DELIBERATELY SIDE-STEPPING "ADVISE AND CONSENT"--
Spelling and typing errors are corrected, in transcription.*

III. Conclusions *[This is the first page I have.]*

1. Current studies of other-world visitation are in three phases: a. Technology exploitation; b. Interplanetary travel; c. Cultural communication.

2. On 19 September 1947, the IAC, JIOA, and the JIC, reviewed a Top Secret intelligence report titled REPORT TO THE PRESIDENT, 1947, PARTS I-V, MAJIC EYES ONLY, DTG 000190947, the report mentions:

"In compliance with your directive ... of 9 July 1947, the attached "REPORT ON FLYING

SAUCERS" is respectfully submitted. In consequence with your instructions, advisers from State, Treasury, War and Navy Departments assisted me on a two month exploratory mission concerning the reality of other-world visitation. The principle investigators and storage areas were visited. Successful efforts were made to reach scientists of all levels as measured by their work in classified defense projects. Conferences were held with national security officials and leaders of private industry. Approximately 1,200 memoranda and intelligence reports were considered. The report presents this situation against a global background my estimates, current and projected, in both the U.S., and allied countries, and recommendations deemed to be sound courses of action for formulating plans and policies in light of recent developments.

3. All efforts have been made to identify the country or private concern which could have the technical and financial resources necessary to produce such a long-range flight. So far, no country on this earth has the means and the security of its resources to produce such.

4. A consensus reached by members of the panel, that until positive proof that the Russians did not attempt a series of reconnaissance flights over our most secure installations--tho sightings and recovered objects are interplanetary in nature.

5. The occupants of these planform vehicles are, in most respects, human or human-like. Autopsies, so far indicate, that these beings share the same biological needs as humans.

IV. DISCUSSION.

A. Nature of the Investigation.--

An analysis has been made of the first one-hundred intelligence reports in the ATIC Interrogation Reports and the ULATT EXPLOITATION MAJESTIC SERIES 1-25, prepared by the Military Intelligence Section of GHC/IPU, in order to establish what material of flying saucer intelligence value concerning the ULATT is available in those reports.

1. The ATIC Interrogation Reports, numbered 1 to 93 (the last dated December, 1950), present significant information on a broad variety of subjects and areas where witnesses were detained subsequent to the post-1947 incident. The un-published documents validate records of interrogation derived from the accumulated reports on interviews of selected witnesses from New Mexico and military personnel involved in removal of evidence.

2. In this digest, primary attention has been paid to information of bio-medical intelligence

interest, particularly in the BW programs. Bio-medical intelligence is only one of the substantive fields covered by these Interrogative Reports.

3. For the most part, the sources interrogated were not trained observers, and their stories indicate they have been subject to the familiar pitfalls common to all eye witnesses. It must be emphasized that, because the interrogators used were not always specialists in this phenomena of celestial sciences, there is much lack of detail.

4. Because of the unique nature of the material under study, a multi-layered security structure has been in effect. Most of the results have been given to private research and develops labs for further study.

5. MAJESTIC SS&T are currently focused on Psy-Op development for Cold War CI activities.

6. Utilization of Paperclip specialists has yielded valuable results in new weapons research in areas of flight dynamics, biological and chemical agents, mind control, and intelligence gathering techniques.

End of page 3

B. Panel's Contribution to MAJESTIC

1. The contribution of the President's Special Panel to the MAJESTIC TWELVE PROJECT has supplemented information on the ULATT Program which could not be obtained in any other way. Although only a small part of the project, interrogation in technical and bio-medical field has produced at least 5,973 items for the files of Military Intelligence, GHC/IPU. Of these items, 1,764 have been published (up to December, 1950) in the ULATT KIPLOITATION-MAJESTIC SERIES. The coverage of the New

Mexico incidents, from the over-all intelligence point of view, has been very good.

(After the Panel's review was initiated, GHC/IPU published in March 1951, the summary "MAJESTIC SERIES," No. 98 and No. 99, of the series titled "New Medical Facilities for Biological Warfare; New Genetic and Pharmaceutical Development Programs." These summary reports have apparently made [of] much of the AEC file material since 6,014 items are now reported as published "Medical Items" in the "Interrogation Reports" – see MAJESTIC SERIES, No. 98, page1).

2. For the clarification of published reports or for elaboration of the information of fragmentary nature, resort may be had to the AEC files of unpublished data as well as to the possibility of reinterrogating the sources.

C. Review of the Military Assessment

With current deployment obligations, troop commitments, and few air groups with stand-by fighters with radar capability, the Joint Chiefs are unable at the present time, to effect a complete and all-encompassing defense plan that would guarantee the protection and well-functioning of the national political order. Personnel, material [sic], and logistical requirements for such a defense would deplete current resources.

If such a crisis should occur--in government failure to defend and assure the public's trust, it is the belief of the Joint Chiefs, that the following would insue [sic]: insecurity and mistrust; employment of subversive agents; infiltration; incitement of disorder and chaos to disrupt normal economy and undermine popular support of government and its leaders; seizure of authority without reference to the will of the people.

D. Technology.

At present, the ability to reconstruct the technology that may be eons ahead of us, the boost to our current efforts would be incalculable. Areas such as aircraft and missile design would benefit only after a working understanding has been achieved. Weapons science will follow.

End of page 4

E. Nuclear Weapons Development.

Miniaturization of atomic bomb components is the goal of the AEC and the AFSWP. Studies at MIT indicate that such a technology is within reach before the decade is out. The apparent use of micro-circuitry found on the recovered planform indicates that miniaturization, low-power transmission, light conductor-sensitive components are required for interplanetary space travel. Atomic engines and nuclear

propulsion technologies could be advanced based upon current use of hydrogen and electro-magnetic research and weapons components development in U.S. and U.K.

F. Biological Warfare Programs.

BW programs in U.S. and U.K. are in field test stages. Discovery of new virus and bacteria agents so lethal, that serums derived by genetic research can launch medical science into unheard of fields of biology. The samples extracted from bodies found in New Mexico, have yielded new strains of a retro-virus not totally understood, but, give promise of the ultimate BW weapon. The danger lies in the spread of airborne and bloodborne outbreaks of diseases in large populations, with no medical cures available.

G. Genetic and Pharmaceutical Development Programs.

Current research in U.S. and U.K. can be accelerated when studies are complete.

Understanding the human makeup through EBE research will bring a varied wealth of information in how cells replicate themselves and may help in developing new drugs and markets. Healthcare industries are considered the best source of R&D for DoD programs.

H. New Materials Development.

Conclusions reached by the Air Materiel Command in 1948, upon the close examination of the material structure of the Corona and Ossure Peak, N.M., sites, compelled the Air Force to launch a new machineability research program. Samples tested and evaluated by the AMC suggested that future materials would have to incorporate new alloys and composites, if space exploration and hypersonic dynamics are to be achieved. As a result, new machining

techniques are underway for high-temperature alloys and titanium.

End of page 5

I. Planned Future Rocket Development Programs.

There have been a number of failed high-altitude rocket launches to study radiation effects on living organisms. The Air Force's Project BLOSSOM, conducted at Holleman AFB, is but one example. V-2 rocket launches at the White Sands Proving Ground, N.M., have been knocked down by undetermined jamming. The source of the jamming is believed to come from UFO sightings on or near the range. Guidance systems are believed to be vulnerable and this presents a clear and present danger. Such keeper flights carrying nuclear weapons are too horrific to contemplate. Shielding of systems and circuits are underway.

J. Nuclear Propulsion Development Programs

The AEC and MEPA are currently conducting research for advanced technologies in atomic engines and radical propulsion studies. Systems studies at Los Alamos, N.M., Oak Ridge, Tenn., and at Langley, Va., are attempting to duplicate the water drive and plastic core elements found on the engine being kept at HAFB. Integration of hydrogen base fuels and electro-hydrodynamic technology may open up for us, development of super-aerodynes with mach 5 capabilities.

K. Intelligence Gathering and Analysis--

[Here is where the presumption of malevolence begins--with Neutrality.]

Based on what is known of the technology and intelligence of the visitors, it is fairly certain that there will be either sightings and encounters of a spectacular nature. As to purpose and modus operandi, we are not certain, but it is clear, that if these visitors had

conquest in mind, it would not be difficult for them, given their ability to penetrate our airspace at will, and their ability to jam radio, telephone, television and teletype transmissions, let alone power grids. So far, reports and sightings are blatant and deliberate, thus allowing our intelligence agencies to gather good data. As to the analyses of such reports, only a continuous wave of sightings and encounters worldwide would provide enough data for a clear understanding of intent.

L. Foreign Policy and National Security

To date, only Great Britain, Canada and the Soviet Union are contacted and appraised in the event invasion is imminent. It is the current policy of the Administration that no other foreign countries will be consulted or advised. The national security status of the MAJESTIC

operation exceeds that of the H-bomb development.

End of page 6

M. Domestic and Constitutional Issues--

[Here we see why they "use" terrorism to control us.]

In dealing with clear violations of civic law and guarantees as defined under the Constitution, it has been discussed among members of MAJESTIC TWELVE, that such protection of individual rights are out-weighted by the nature of the threat. Only a declaration of war or a national emergency, would give the government the power to enact martial law and recind individual rights.

N. Social, Religious and Scientific Reaction--

It has been the downfall of great nations and cultures when a new reality is not readily accepted by the masses. The social order was

severely ravaged by the last [*staged--ed.*] *world war*, with [*intentional--ed.*] great *damage to the religious dogma of "earth without end,"* thus making a government disclosure irresponsible and inherently dangerous. The scientific community would predictably question such a reaction as a world suffering from a Buck Rogers delerium and attack anyone of their own ranks for believing such fantasy. Science itself, may undergo a traumatic transformation, with belief structures in shambles, putting the institutions under scrutiny by the layman, thus eroding any credibility. Science would be left with an image of credulity.

O. Cold War Development--

This is one of the most dangerous phenomena of the twentieth century. To misidentify a flight of space objects for actual Russian bombers, or to dismiss Russian bombers as phantoms, is

the most idiotic approach to take. Even though governments may distrust each other, it is the responsibility and creed of the military and intelligence professional to prevent wanton death and destruction of his country. It is advisable to maintain some form of direct communication with a hostile enemy before taking false assumptions of his response if faulty data wrongly indicates such. Even using the "Flying Saucer" ruse to create fear and confusion among your enemy's leaders could result in accidental war. Even our early analysis of the recovered planforms in 1947 led to the wrong assumption that the Russians were preparing a sneak attack on the continent.

P. Government Policy of Control and Denial--

One of the most difficult aspects of controlling the perception in the public's mind of government attempts of denial and ignorance--is actual control of the press. Until a clear

intent is established with diplomatic relations firmly in hand, it is the recommendation of the President's Special Panel with concurrence from MAJESTIC TWELVE, that a policy of strict denial of the events surfacing from Roswell, N.M., and any other incident of such caliber, be enforced. An inter-active program of controlled releases to the media, in such fashion to discredit any civilian investigation, be instituted in accordance with the provisions of the 1947 National Security Act.

ANNEX A

1. The Panel's review of the AEC and AFSWP investigation of Site L-1 and the Air Force Site L-2 has led the Panel to conclude that the objects under study are the result of a high altitude ejection of an escape cylinder from a fatal mid-air collision of two unidentified

circular planform aircraft of interplanetary nature.

2. Of particular interest to the Panel was Site L-2, located at Lat. 33-40-31, Long. 106-28-29, as this site yielded the most materiel for analysis.

3. Site L-2 may be closely associated with Site L-1, due to the similarity of materiel recovered and that the impace at Site L-1 and debris pattern suggests that the craft hit the ground at a sharp angle and continued to remain airborne until coming to rest at Site L-2.

4. The craft found at Site L-2 is either the remains of a rocket-plane or a powered glider. What remained of the power plant was examined and determined to be of a magnetic drive propulsion powered by a fusion reactor of sorts.

5. Lack of wiring, fuel systems, cables, motors, hydraulics, intakes, exhaust, and surface controls strongly suggests that the craft was designed to travel outside of our atmosphere.

6. The second craft that impacted at Site L-3 provided very little evidence that it too was similar in design, as the impact was vertical in nature and at very high speed. It is believed that the debris discovered on 2 July 1947 by a local rancher was the result of a mid-air collision with an X-plane from HAFB; another unidentified object; or possibly collided with both. Radar film and tower logs do not explain the merging of three radar targets prior to collision and subsequent crashes.

7. There were five recovered bodies, two of which were found in a severely damaged escape cylinder, and the remaining three were found some distance away from the cylinder. All five appeared to have suffered from sudden

decompression and heat suffocation (recovery and autopsies of the occupants are covered in detail in a separate study GRAY SUIT within Projects 612 and 621, ULATE KIPLOITATION_MAJESTIC SERIES 4, p. 40–102), as a result of damage sustained by unknown causes.

End of page 8

8. The Panel was concerned over the contamination of several SXD personnel upon coming in contact with debris near the power plant. One technician was overcome and collapsed when he attempted the removal of a body. Another medical technician went into a coma four hours after placing a body in a rubber body-bag. All four were rushed to Los Alamos for observation. All four later died of seizures and profuse bleeding. All four were wearing protective suits when they came in contact with body fluids from the occupants.

9. Autopsies on the four dead SXD technicians are not conclusive. It is believed that the four may have suffered from some form of toxin or a highly contagious disease. Tissue samples are currently being kept at Fort Detrick, Md.

*[.....where AIDS was developed after 1971
Congressional funding reported in*

10. The Panel was also concerned with the detection of airborne release of radiation over the state of New Mexico. AFTAC detachment from McClellan AFB has conducted several airborne monitor flights over Site L-2.

Radiation readings indicate a high neutron count was recorded as the plane flew over the site. Neutron count dropped off as the plane flew a considerable distance from the site. A report has been filed with the USAXDS. (?)

11. Ldetection of a high altitude explosion was recorded by a Project MOGUL constant-level

balloon on 4 July 1947. Radar from White Sands Proving Ground and HAFB also detected a surge.

12. Parachute recovery team from HAFB were dispatched to Site L-2. Upon arrival, the team, realizing the nature of the crash, radioed instructions and marked crash site for the investigators that arrived later.

13. In the opinion of the senior AEC medical officer, current medical equipment and supplies are wholly inadequate in dealing with a large scale outbreak of the alien virus.

14. Facilities at Los Alamos and Mayo clinics were considered as lacking in the current climate.

15. On 26 September 1947, the first meeting of the NSC-1 was held to discuss the New Mexico incidents and how to implement the policy established by MJ-12 SS&P.

ANNEX B (cont'd)

11. Panel member and MAJCOM-4 meet with MAJCOM-1 on 10 October 1950 along with members of IAC. The Chief of Global Survey Group desired estimates requested by the Pentagon concerning possible defense project for MAJESTIC LOGISTIC SSP-1.

12. On 6 December 1950, MAJCOM-4 alerts MAJCOM-1 of a breach in DEW Greenland of a UFO on a south-westerly course. HQ IPU alerted and dispatched a scientific team to X1 Indio-Guerrero on the Texas-Mexico border. MAJCOM-4 orders a recovery team from Project STORK and MOON DUST TO CRASH SITE. Teams transport debris from crash site to ADC HAFB and to 9 AEC laboratories at Sandia, New Mexico.

13. MAJCOM-1 enlists the Panel's aviation consultants for the purpose of advising the "Princeton Consultants."

14. On 28 December 1950, MAJCOM-1 is provided with the "Black Book" summaries prepared by the Watch Committee. Beginning every Friday, the President is briefed on world situation and on MAJESTIC via the CIA weekly, Current Intelligence Review.

15. At the request of Panel member Cardinal Francis Spellman, met with the President to discuss the containment within the Catholic Church and its hierarchy of religious speculation if mass sightings occur. Such containment was successful during the 1947 sightings when Cardinal Spellman met with the Secretary of War on 29 June. The President has been briefed on Defense Plan 4," which was written in part by the Panel member.

16. In support of the MAJESTIC program for developing atomic engines, Panel members and their association with the AEC, the Armed Forces and the National Advisory Committee for Aeronautics have consulted MAJESTIC for the development of nuclear fission reactor for powered flight studies.

17. Atomic engines for aircraft built here on earth faces many difficulties because of size and weight of the reactor and radiation shielding. Such a nuclear power planet would give an aircraft unlimited range.

18. Panel members contributed to the writing of ULATT KIPLOITATION--MAJESTIC SERIES 5 title Hypersonic Small-Disturbance Theory, which gives consideration to a three-dimensional body fixed in a steady, uniform, hypersonic stream. The theory assumes that shock waves can be approximated by abrupt discontinuities and the planform body being

thin, so that the slope of the local surface in the stream direction is uniformly small.

ANNEX C

1. Military commanders are taught a basic promise that the ideal defense as characterized by Karl von Clausewitz is a "shield of blows." When an enemy attack begins, the defender yields the initiative using his *prepared* positions and knowledge of the battleground to slow its momentum and to strike the enemy with repeated, unexpected blows. Such a defense can work only when the enemy is detected, his strength known, his weaponry identified and his tactics and movements are revealed.

2. In the annals of warfare, mass disappearances of soldiers and their equipment are rare but are on record.

In the eighteenth century during the Spanish War of Succession, 4,000 soldiers were reported to have disappeared, together with their weapons and equipment (horses included).

In 1885, about 600 French colonial soldiers disappeared near Saigon, French Indo-China, without a trace of them nor their equipment.

On August 21, 1915, members of the New Zealand Army Corps' First Field Company signed sworn statements that they saw the One-Fourth Norfolk Regiment disappear in an unusually thick brown cloud which seemed to move and race upward and vanished. There were no traces of the regiment nor their equipment. No explanation can be found in the historical records of the Imperial War Museum archives.

In 1939, over 2,900 Chinese Nationalist troops were reported missing from their camp, just south of Nanking. Again, men, equipment, guns, were missing though campfires and mess tents were undisturbed.

During the Pacific campaign, there have been instances where whole platoons and larger units seemed to have disappeared without any sign of combat or a struggle. Men, equipment, weapons--vanish without a trace. In all instances, the disappearances occurred in tropical climate and in the heat of battle or near combat scenes.

3. Missing aircraft, pilots and crews are of special concern to the military when no explanations fit the usual reasons outside of combat. One such incident is the disappearance of a flight of five U.S. Navy TBM-3 Avenger torpedo bombers from NAS Fort Lauderdale on 5 December 1945. While no explanation as to

why navigation instruments on all five aircraft could have failed at the same time, and efforts to rescue the 14 crewmen were unsuccessful, it is believed that Flight 19 encountered a phenomenon of celestial nature. The last known radio transmission from the instructor pilot was heard by a ham operator,

"Don't come after me ... They look like they are from outer space. ... I'm at 2,300 feet. Don't come after me." After one of the most intensive air-sea rescue operations in U.S. naval history, the Naval board of Inquiry said, "We were not able to make even a good guess as to what happened."

End of page 13

ANNEX C (Con'td)

4. On 7 January 1948, an ANG F-51 pilot was lost near Godman AFB, Kentucky. After being directed to land his flight of four F-51s by the

tower, Captain Thomas Mantell pursued a large metallic object alone after two pilots returned to Godman AFB, and finally his wingman was ordered to return to the field. It is believed that Mantell was following a large, structured object not in the flight path of a classified Navy SKYHOOK balloon. Mantell radioed Godman tower that he was at 22,000 feet and still climbing. At one point Mantell said that the object had paced his aircraft for several minutes, then would speed up. His last transmission to the tower was,

"It appears to be a metallic object ... and it is of tremendous size. ... It appears to be a metallic object or possibly the reflection of sun from a metallic object."

When Godman personnel arrived at the crash scene, Mantell's F-51 was found in many pieces, not large sections as one would find from a free stick descent. The wreckage

contained unusual damage as if Mantell's plane was repeatedly hit by shotgun blasts. Some of the metal had pitted surfaces and unusual scoring. All rubber material had disintegrated into a soft powdery substance. There was no indication of gunfire damage or fuel burn. The crash site and debris exhibited an unusually high amount of radiation of undetermined nature. The site was cleared of debris and covered. Mantell's plane was subsequently sent to Wright-Patterson AFB, Ohio, for examination. An autopsy was conducted on the body and interned in storage for future study. It is believed by the Air Force investigators that Mantell's plane had been destroyed by an ionization phenomenon, possibly from the propulsion wash of the object's exhaust.

5. From 1949 to late 1950, there have been several crashes of B-36 bombers on routine arctic patrol that bear all the earmarks of the

Mantell incident. None of the crews were found. The atomic bombs were not recovered, thus creating a serious problem for the Air Force when nuclear weapons are lost over friendly countries.

6. The death of two Air Force counterintelligence officers in the crash of their B-25 aircraft enroute to Hamilton AFB, California, after interviewing two auxiliary CG men who reported six UFOs over Maury Island, Washington, in June 1947. CIC agent Crisman had spoken to Kenneth Arnold, who on 26 June 1947 had reported a flight of UFOs over Mt. Rainier, Washington, and filed his report after he had spoken to Captain Davidson and Lieutenant Brown. The material given to Davidson and Brown was believed to come from Maury Island and may be celestial fragments containing metal from a nuclear reactor from a UFO. Fragments were turned over to CIA agent

Shaw, and Crisman was ordered to the Alaskan ADC for assignment in Project IVY.

End of page 14

ANNEX C (Cont'd)

7. Aerial interference with military aircraft has demonstrated the ability to observe our air operations in war and peacetime conditions. During the war, over 900 near-miss incidents were reported by allied pilots and crews in all theatres of operation. One of the most dramatic near-miss encounters occurred on 14 October 1943, 8th

AF Mission 115 over Schwienfort, Germany. B-17 crews reported many formations of silverly discs flying down into the B-17 formations. Several times during the bombing missions, large objects were seen following the discs descent into the formations. Unlike previous reports, no engine failures or airframe damage

was reported. After the surrender of Nazi Germany, GAF fighter pilots were interrogated by AF intelligence concerning Mission 115. GAF did not have any aircraft above our bombers at that time.

8. On 1 August 1946, a C-47 piloted by Captain Jack E. Puckett, Assistant Chief of Flying Safety for TAC, experienced a near-miss of a cylindrical-shaped aircraft about 100 meters in length. The incident occurred at an altitude of 4,000 feet, northeast of Tampa, Florida. Just 1,000 yards on a collision course, the UFO flipped over sideways, crossing the flight path of Puckett's C-47. Three other crew members observed the UFO and described it as being over twice the length of a B-29 and cylindrical in shape with illuminated windows. Observers on the C-47 reported a stream of fire trailing the object. The crew and Puckett watched the UFO for over three minutes. TAC

radar stations had tracked a large target approaching the C-47 and then performed a right-angle course change while flying at speeds of excess of 600 mph.

9. On 1 October 1948, a ANG F-51 pilot engaged a blinking luminous UFO in a dogfight-style encounter over Fargo, North Dakota.

10. On 24 April, 1949, engineers and technicians from the White Sands Proving Ground observed an elliptically-shaped object moving in an eastward course at very high altitude. The object was discovered while tracking a Skyhook balloon through a theodolite. The object appeared whitish in color and pale yellow at the tail end. The object was estimated to be two-and-a-half times as long as it was wide. It was difficult to see any structure of the object as it was moving at a very high speed. The object was observed

through a theodolite for approximately one minute before disappearing in a steep climb. The object was estimated to be traveling at an altitude of over 60 miles.

End of page 15

ANNEX C (Cont'd)

11. From 1944 to early 1951, our atomic bomb and component plants have been the target of UFO reconnaissance. Of late, our MEPA projects are of special attention to the visitors. During some of the flights, radiation levels have risen sharply, then dropped suddenly to normal. In some instances plutonium production has been halted due to contamination of plant personnel during these sightings of low-level flights.

12. On 25 October 1950, the Superintendent of Security, Oak Ridge, filed a security report for X-10. He stated that a round object, about ten feet in diameter, burnished yellow in color,

hung low over the Control Zone. The object would move slightly from one side to the other and emit a low hum sound.

13. On 24 October 1950, the Assistant Chief of Security, NEPA Division, Oak Ridge, observed a similar object near the restricted area (Restricted Flying Zone). The object emitted a varying color of light from red to green to blue to orange. This sighting was confirmed by an Air Force officer also of NEPA Division, Oak Ridge. Radar from Knoxville Airport tracked several slow-moving targets flying over the Southeast sector of the "Restricted Zone." Fighters were vectored to the radar targets but the pilot reported no visual contact.

14. Naval aircraft with nuclear weapons delivery capability have reported a sudden drop in neutron counters. Aircraft carrier storage of nuclear weapons have also reported unusual neutron counts. During recent NATO naval

maneuvers, the USS Franklin D. Roosevelt had been trailed by numerous UFOs for long periods on-and-off since 1950.

CONCLUSIONS

The future of American citizens and the world for that matter are jeopardized today by developments as portentous as those leading to World War II. Given the growing challenge from the Soviet Union and her satellites and the intrusion of extra-terrestrials, the United States is compelled, therefore, to initiate realistic lines of action to protect United States' strategic interests.

RECOMMENDATIONS

It is recommended: that the United States Government provide as early as practicable--moral, advisory and material support to the MAJESTIC12 Project in order to contribute to the early establishment of peace in the world in

consonance with the enunciated principles of the United Nations and to protect United States' strategic interests against forces which now threaten them.
