

New Thought Kabbalah

The mission of New Thought Kabbalah is to provide ancient Kabbalistic wisdom in the form of public speaking, classes and literature to audiences that are open to the philosophies of new thought. Our mission is to pass wisdom to others that they may find the Creator and the Creator within themselves. Cheryl's goal is to raise consciousness: awareness of these positive and negative thoughts and help people create for themselves a better life.

New Thought Kabbalah's goal is to provide the bridge back to the ancient teachings and tools and provide a synergistic methodology. Both Kabbalah and New Thought believe that "THOUGHTS", more specifically, our thoughts form our world. If we have negative thoughts we produce negative outcomes. It explains why "nice" people end up having bad things happen. Our subconscious thoughts or our subconscious negative thoughts produce them. When we have positive thoughts we produce positive outcomes.
