President Obama tells Will Smith's son: "I can neither confirm nor deny the existence of extraterrestrials"!

By Robbie Graham [*Silver Screen Saucers*](#)

***Men in Black 3* star Will Smith today told BBC Radio 1 host Chris Moyles that his 13-year-old son Jayden (himself a Hollywood star) put President Obama on the spot recently during a private tour of the White House. The subject of Jayden's enquiry – aliens!**

Remarkably, Obama anticipated Jayden's question before the young star even had chance to ask it, and the President's response was suitably tantalising:

"The aliens, right? OK, I can neither confirm nor deny the existence of extraterrestrials but I can tell you if there had been a top secret meeting and if there would have had to have been a discussion about it, it would have taken place in this room."

Did President Obama Fumble the UFO Cover-up?

During a March 21st trip to Roswell, New Mexico President Obama came out with the following opening remarks to his speech.

We had landed in Roswell. I announced to people when I landed that I had come in peace. (Laughter) Let me tell you – there are more nine and ten year old boys around the country when I meet them – they ask me, “Have you been to Roswell and is it true what they say? And I tell them, ‘If I told you I would have to kill you.’ So their eyes get all big...so...we’re going to keep our secrets here.
