

What Is A Oneness Blessing –And How Can I Get One?

by Barbara Bottner for Vision Magazine

.....

Twin avatars Sri Bhagavan and Sri Amma, acknowledged as teachers and bringers of god-realization to more than 20 million adherents around the world, began the Oneness Movement in Southern India in 1991. Their campus is called The Oneness University.

Sri Bhagavan has stated that the "Oneness University can be considered as the university of universities. It exists to make a person into a true human being. The function of the University is not only to give an understanding of the human mind, human consciousness and life itself but also to bestow the state of Oneness.

Seekers are not only given the state, but are also empowered to transfer this state to others. One is fully empowered to help others become [awakened]. The effort is to create a new humanity which would have discovered Oneness."

Attendees from around the world and from all religious denominations come to the University to experience Grace and deepen their connection to the Divine. For receivers of deeksha or the Oneness Blessing, a re-patterning of neural functioning in the brain results. In turn, a shift in thought processes is created which dissolves the personal perceptual filters that foster the illusion of separateness.

The Oneness Blessing is a completely transformative process that exposes the obstacles that hide inside our lives and allows people to liberate themselves from the past, the unconscious, the collective, their ancestral lineage, karma, and all other ingredients that add up to human suffering. Although there are many modalities that would make the same claim, the Oneness Blessing alone has at its source a true avatar—Sri Bhagavan. Sri Bhagavan has said that humans have tried hard to liberate themselves throughout history, but have failed. Sri Bhagavan explains that humans need the help of the Divine.

On June 17th, 2007 in Los Angeles, the public was invited to attend the largest gathering of Oneness Blessing givers ever held in the world outside of India. This was a day of intense experience of Grace, intelligent energy, healing, personal breakthroughs, and powerful experiences of causeless joy. This exceptional opportunity was rendered even more unique because of the appearance of Sri Acharya Anandagiriji pictured above, one of the three main disciples of Amma Bhagavan.

A special celebration on Amma's birthday will be held at the Burnside Community Centre in Tusmore on August 15 at 7pm. Cost is \$25 and proceeds will help a Buddhist Lama attend a 21 Day Process in India. Phone **8379 1331** for details.

Sri Anandagiriji, born in South India, was twelve years old when he joined the residential School Jeevashram, founded and run by Sri Amma Bhagavan. When he was 14 years old, the Spiritual Phenomenon of Oneness Blessing/ Deeksha had just been birthed among the pupils of the school. These young students were awakened to the divine presence in their hearts. Mystical realms of consciousness were opened within them. Sri Anandagiriji was among the earliest to receive this divine benediction, which was accompanied by a series of mystical experiences and deep insights that led to a radical transformation in his consciousness.

Having experienced deep states of love and compassion by the divine grace of Sri Amma Bhagavan, he felt a deep passion to always serve them and be a part of their divine vision of awakening humanity to Oneness. Now, he travels worldwide, sharing the wisdom of the Oneness University, especially at Oneness Conferences. Innumerable spiritual seekers, young and old, in India and abroad have been deeply touched by his humility, wisdom, innocence and friendly nature. Many others have been fascinated by the immense simplicity with which he presents even the most profound spiritual insights.

Presentations were given by Sri Raniji, the lay monk and leader of the movement in the North America and Canada. Sri Raniji is beloved by thousands who attend her powerful workshops, which she gives tirelessly and throughout the world as well as her Oneness Blessing/Deeksha teleconferences. She is known for her wisdom, humor, compassion and dedication to the liberation of mankind. Tony Robbins, father of life coaching, is now affiliated with the Oneness University and he also presented at the conference.

Evelyn Cole, a participant from last year's L.A. conference, who suffered from fibromyalgia & Chronic Fatigue writes:

"When I told my family I was going to attend this conference, they were blown away, because two weeks before I could barely go around the block... but once I got to the conference, I knew I had done the right thing."

In three short years, millions of individuals around the world have received the Oneness Blessing. Their lives have changed significantly in terms of internal happiness and their capacity for love and peaceful coexistence in the world. Other famous adherents to the Oneness Blessing Process are actors Brad Pitt, Catherine Oxenberg and Casper Van Dien, Jim Carrey, and others, and author Arjuna Ardagh.

To learn more about where you can receive the Oneness Blessing worldwide, go to Deeksha Links on the website at <http://www.bhagavandharma.org> or call Robert March on +618 8379 1331.

For greater details on the Oneness Phenomenon and a history of the first 21 Day Process in India for westerners, please see the book [Bringers of the Golden Ball](#). Bringers is also available at Cosmic Pages, New Dimensions, and Quantum Books in Adelaide Australia.
