Secrets of the Unknown ("Secrets and Mysteries") - Pyramids - Part 1

Back in the late 80's/early 90's an old friend of mine introduced me to what was called at the time "Secrets and Mysteries", featuring host Edward Mulhare (aka "The old guy from Knight Rider") and his weekly exploits exploring unexplained phenomena like Bigfoot, UFOs, and... 'Mystic Hitler'? The show was always good for a chuckle, in addition to some strange and mostly useless information about things like Pyramids and Stonehenge, etc. I think the show has since completely vanished from availability, and the only copies of this old show I could find with Google were old used VHS copies, which is a shame, as this show is great for a chuckle.

The Orion Mystery - Archeo-Astronomy and Ancient Advanced Technology - Robert Bauval

The Orion Mystery presents startling facts about a star-correlation with the Giza Pyramids in Egypt. Why did the Egyptians align their monuments with such high precision? Why did the ancients put so much emphasis on astronomical alignments? The answers to these questions will shock and amaze you. Included in this presentation is a detailed demonstration of how the Sphinx and Pyramids were designed and positioned to track a 26000 year celestial cycle called the Precession of the Equinox, a star-correlation that gives us insight that the Sphinx and Pyramids are far older than Archeologists and Egyptologists would allow us to believe. The original uncut interview was filmed for the documentary "The Mysterious Origins of Man - Rewriting Human History," NOW on DVD in a New 3-DVD Special Edition – LOADED with Bonus Features and Interviews - Cat# U664 - Go to www.UFOTV.com.

Andrew Collins Talks About His Discovery in Egypt Part 1

Beneath the pyramids of Egypt lies a network of catacombs, hewn chambers, and cave tunnels that were lost for nearly 200 years. They have now been rediscovered and explored for the first time by science and history writer and best-selling author Andrew Collins. Using the newly uncovered memoirs of Henry Salt, the British Consulate General to Egypt in 1816, along with astronomical alignments featuring the constellation of Cygnus, Andrew Collins, whos search was funded by Edgar Cayces Association for Research and Enlightenment (ARE), has found the entrance to a hidden world. Collins talks about what exactly he has found, whether or not these caves lead to the lost Hall of Records, their relationship to the stars, what Egyptian authorities and Zahi Hawass have to say, and more.
