

GOD'S MESSAGE TO THE WORLD

DISTINCTION

The time has come for a clear distinction between the ETERNAL KINGDOM OF GOD and the temporary kingdom of satan.

GOD'S ETERNAL KINGDOM is characterized by perfect happiness, now and forever, while satan's temporary kingdom is characterized by chaos and misery.

Out of His great mercy, God has commissioned me to deliver a message from Him to the world, providing the specific methodology for enjoying His infinite grace by entering His ETERNAL KINGDOM.

What makes this message an extraordinary gift is that every piece of divine information is proven by tangible evidence. My commission as God's messenger to you is supported by a computer-age miracle that leaves no doubt whatsoever in your mind. You will know that God is speaking to you.

Please note that one commandment in this divine message is: "Follow those who do not ask you for money" (36:21). I do not want any money from you; my wage comes from the Lord of the universe.

This is an invitation for you to make a choice right now. You may choose one of three alternatives:

1. You may decide to join GOD'S ETERNAL KINGDOM now, and enjoy the privileges of such a membership. Congratulations. In this case, you must do two things:
 - (i) Send for the free brochure containing specific details of the computer-age miracle, i.e., the physical evidence supporting this message, and the specific methodology for entering GOD'S ETERNAL KINGDOM. Please send a self-addressed and stamped standard envelope (4x9") with your request.
 - (ii) Make at least 10 copies of this letter and give them or mail them to people you know.
2. You may wish to stay neutral. In this case, you will be granted a grace period of 4 months from the date you receive this letter. After the 4 months are over, if you do not make a decision to join GOD'S ETERNAL KINGDOM, you will be automatically admitted into satan's kingdom. To enjoy the 4-months grace period, you must make at least 10 copies of this letter and give them or mail them to people you know.
3. You may choose to disregard this letter. In this case, you throw away all hope for a happy life. Whether you're aware of it or not, you have made a decision to be a subject in satan's chaotic kingdom.

Please note: Out of God's infinite mercy, He gives you limitless chances to freely make a decision, any time, to join His ETERNAL KINGDOM. Even after joining satan's kingdom, and suffering the terrible consequences, you may exit such misery any time in the future. The damage you incur under satan's incompetent godhood, however, may not be reversible.

As I mentioned above, I come to you with incontrovertible, tangible proof. It behooves you to at least examine the evidence. Your own personal happiness is in the balance. The choice is absolutely and freely yours.

Good luck.
