Reiki

This article is about the energy therapy. For the Japanese era name, see **Reiki (era)**.

Reiki (靈氣, /ˈreɪki:/) is a spiritual practice, [1] now considered to be a form of pseudoscience, [2] developed in 1922 by Japanese Buddhist Mikao Usui, has since been adapted by various teachers of varying traditions. It uses a technique commonly called *palm healing* or *hands-on-healing* as a form of alternative medicine and is sometimes classified as *oriental medicine* by some professional medical bodies. [3] Through the use of this technique, practitioners believe that they are transferring universal energy (i.e., **reiki**) in the form of *qi* (Japanese: *ki*) through the palms, which they believe allows for self-healing and a state of equilibrium. [4] These beliefs have not been verified by modern medical science, and reiki is not considered an effective treatment for any recognized medical condition. [5]

There are two main branches of Reiki, commonly referred to as *Traditional Japanese Reiki* and *Western Reiki*. Though differences can be wide and varied between both branches and traditions, the primary difference is that the Westernised forms use systematised hand-placements rather than relying on an intuitive sense of hand-positions (see below), which is commonly used by Japanese Reiki branches. Both branches commonly have a three-tiered hierarchy of degrees, usually referred to as the First, Second, and Master/Teacher level, all of which are associated with different skills and techniques.

Reiki is based on a *ki* – a supposed life force which is purely hypothetical. [6] Used as a medical treatment, reiki confers no benefit: [6] the American Cancer Society, [7] Cancer Research UK, [8] and the National Center for Complementary and Alternative Medicine [9] have found no clinical or scientific evidence supporting claims that Reiki is effective in the treatment of any illness.

1 History

1.1 Derivation of name

English *reiki* or *Reiki* is a Japanese loanword *reiki* (靈氣, usually meaning “mysterious atmosphere; miraculous sign”), which in turn, is a Chinese loanword *língqì* (靈氣, “numinous atmosphere”). [10] The earliest recorded English usage dates to 1975. [11] Instead of the standard

Mikao Usui 臼井甕男 (1865–1926)

transliteration, some English-language authors pseudo-translate *reiki* as “universal life energy”. [12]

Japanese *reiki* is commonly written as レイキ in *katakana* syllabary or as 靈氣 in *shinjitai* “new character form” *kanji*. [13] It compounds the words *rei* (靈: “spirit, miraculous, divine”) and *ki* (氣; *qi*: “gas, vital energy, breath of life, consciousness”). [14] The *ki* (better known as Chinese *qi* or *ch’i*) in *reiki* is understood as meaning “spiritual energy; vital energy; life force; energy of life”. [15] Some *reiki* translation equivalents from Japanese-English dictionaries are: “feeling of mystery”, [16] “an atmosphere (feeling) of mystery”, [17] and “an ethereal atmosphere (that prevails in the sacred precincts of a shrine); (feel, sense) a spiritual (divine) presence.” [18] Besides the usual Sino-Japanese pronunciation *reiki*, these *kanji* 靈氣 have an alternate Japanese reading, namely *ryōge*, meaning “demon; ghost” (especially in spirit possession). [19]

Chinese *língqì* 靈氣 was first recorded in the (ca. 320 BCE) *Neiye* “Inward Training” section of the *Guanzi*,

Chujiro Hayashi 林忠次郎 (1880 - 1940)

describing early Daoist meditation techniques. “That mysterious vital energy within the mind: One moment it arrives, the next it departs. So fine, there is nothing within it; so vast, there is nothing outside it. We lose it because of the harm caused by mental agitation.” [20] Modern Standard Chinese *lingqi* is translated by Chinese-English dictionaries as: “(of beautiful mountains) spiritual influence or atmosphere”; [21] “1. intelligence; power of understanding; 2. supernatural power or force in fairy tales; miraculous power or force”; [22] and “1. spiritual influence (of mountains/etc.); 2. ingeniousness; cleverness” [23]

1.2 Origins

See also Five Precepts and Timeline of Reiki history

The system of Reiki was developed by Mikao Usui (臼井 甕男) in 1922 while performing *Isyu Guo*, a twenty-one day Buddhist training course held on Mount Kurama. [24] It is not known for certain what Usui was required to do during this training, though it most likely involved meditation, fasting, chanting, and prayer. [25] [26] It is claimed that by a mystical revelation, Usui had gained the knowledge and spiritual power to apply and attune others to what he called Reiki, which entered his body through his crown Chakra. [25] In April 1922, Usui moved to Tokyo and founded the *Usui Reiki Ryōhō Gakkai* (“臼井靈氣療法學會” in old style charac-

ters, meaning “Usui’s Spiritual Energy Therapy Method Society”) in order to continue treating people on a large scale with Reiki. [25] [27]

According to the inscription on his memorial stone, [28] Usui taught his system of Reiki to over 2000 people during his lifetime, and sixteen of these students continued their training to reach the *Shinpiden* level, a level equivalent to the Western third, or Master/Teacher, degree. [28] [29] While teaching Reiki in Fukuyama (福山市, *Fukuyama-shi*), Usui suffered a stroke and died on 9 March 1926. [28]

1.3 Early development

After Usui’s death, J. Ushida, a student of Usui, took over as president of the Gakkai. [30] He was also responsible for creating and erecting Usui’s memorial stone and for ensuring the maintenance of the grave site. [30] Ushida was followed by Iichi Taketomi, Yoshiharu Watanabe, Kimiko Koyama and the current successor to Usui, Kondo, who became president in 1998. [30] The sixteen masters initiated by Usui include Toshihiro Eguchi, Jusaburo Guida, Iichi Taketomi, Toyoichi Wanami, Yoshiharu Watanabe, Keizo Ogawa, J. Ushida, and Chujiro Hayashi. [30] [31]

Before Usui’s death, Chujiro Hayashi (林忠次郎 *Hayashi Chūjirō*) approached Usui about developing a different form of Reiki that was much simpler. Usui agreed. [32] After Usui’s death, Hayashi left the Usui Reiki Ryōhō Gakkai and formed his own clinic where he gave Reiki treatments, taught, and attuned people to Reiki, and it was to this clinic that Hawayo Takata was directed in the 1930s. [30] Hayashi simplified the Reiki teachings, stressing physical healing and using a more codified and simpler set of Reiki techniques. [33]

After Hawayo Takata received multiple Reiki sessions from Hayashi’s trainees at his clinic for illnesses including abdominal pain and asthma, Hayashi initiated and trained Takata to use Reiki, [34] [35] and she became a Reiki Master on 21 February 1938. [34] [36] Takata established several Reiki clinics throughout Hawaii, one of which was located in Hilo, [34] and then went on to travel throughout the United States, practising Reiki and teaching the first two levels to others, [37] and it was not until 1970 that Takata began initiating Reiki Masters. [38] At this stage, Takata also introduced the term *Reiki Master* for the *Shinpiden* level. [39] She stressed the importance of charging money for Reiki treatments and teachings, and fixed a price of \$10,000 (roughly £6,500 or €7,400) for the Master training. [38]

Takata died on 11 December 1980, [38] [40] by which time she had trained 22 Reiki masters, [41] [42] and almost all Reiki taught outside Japan can be attributed to her work. [43]

1.4 Usui's concepts and five principles

Usui was an admirer of the literary works of the Emperor Meiji (明治天皇 *Meiji tennō*). While in the process of developing his Reiki system, Usui summarised some of the emperor's works into a set of ethical principles (called the “Concepts” 概念 *Gainen*), which later became known as the Five Reiki Precepts (五戒 *Gokai*, meaning “The Five Commandments”, from the Buddhist teachings against killing, thievery, sexual misconduct, lying, and intemperance). It is common for many Reiki teachers and practitioners to abide by these five precepts, or principles. * [44]

Mikao Usui

Mikao Usui (宇内 彌生, 15 August 1865 – 9 March 1926, commonly *Usui Mikao* in Japanese) was the founder of a form of spiritual practice known as **Reiki**,^[1] used as a **complementary therapy** for the treatment of physical, emotional, and mental diseases. According to the inscription on his memorial stone, Usui taught Reiki to over 2000 people during his lifetime. Sixteen of these students continued their training to reach the *Shinpiden* level, a level equivalent to the Western **third degree**, or Master level.^[2] Usui died on 9 March 1926 of a stroke.

1 Life

Usui was born on 15 August 1865 in the village of Taniiai (now called Miyama cho) in the Yamagata district of the Gifu Prefecture, Japan, which is now located near present day Nagoya.^[3]

A 19th century scholar, Mikao Usui seems to have earned a doctorate of theology at the University of Chicago, in the theological seminary.^[4]

Usui is also said to be Usui Shiko Ryoho method.

Shugendō is a Japanese mountain ascetic shamanism, which incorporates **Shinto** and **Buddhist** practices.^[5] Roles of Shugendō practitioners include offering religious services such as **fortune telling**, **divination**, **channelling**, **prayer**, **ritual incantations** and **exorcism**. Shugenja was often used by family clans to heal disease or to avoid misfortune.^[6]

1.1 Family

Usui's father's common name was Uzaemon,^[7] and his mother was from the Kawai family.^[7] His brothers, Sanya and Kuniji, grew up to become a doctor and a policeman respectively. He also had an older sister called Tsuru. Usui married Sadako Suzuki, who bore children by the names of Fuji and Toshiko. Fuji (1908–1946) went on to teach at **Tokyo University**, and Toshiko lived a short life, dying at the age of 22 in 1935. The entire family's ashes are buried at the grave site at the Saihō-ji Temple in Tokyo.^[8]

As an adult, it is believed that he traveled to several Western countries, including Americas, Europe, and China as a part of his continued lifelong study.^[7] His studies included history, medicine, **Buddhism**, **Christianity**, **psychology**, and **Taoism**.^{[6][8][9]}

Usui's ancestors were the once influential Chiba clan and were **Hatamoto samurai**. According to the inscription on his memorial, Tsunetane Chiba,^[7] a military commander during the end of the **Heian period** and the start of the **Kamakura period** (1180–1230), was one of Usui's ancestors. In 1551, Toshitane Chiba conquered the city Usui and thereafter all family members acquired that name.^[8] Usui was raised as a **samurai** from childhood, specifically in the martial arts techniques of **aiki** (合気道).^[6]

1.2 Claims of Reiki's Christian origins

Hawayo Takata, a Reiki Master attuned by Chujiro Hayashi (宇内 昌次郎, 1880–1940), construed Reiki's history of development in order to make Reiki more appealing to the West.^[10] To this end she made a relation of Reiki with Jesus Christ and not with Buddhism. She also presented Usui as the dean of a Christian school. While he had obtained the knowledge of Reiki from the Buddhist religious book *Tantra of the Lightning Flash*, Takata claimed that he had been inspired from the story of Jesus Christ, who had healed with the touch of his hand, and so had come to America to learn Reiki. She told this to spread Reiki among Christians too, believing it would otherwise be extinct. However, in 1994, the original manuscript of Usui's was found, which revealed him to be a Christian and that Reiki had originated from **Gautam Buddha**.^[11]

1.3 Teachings

It is believed that the aim of Usui's teachings was to provide a method for students to achieve connection with so-called energies, that would help them in their self-development. What sets Usui's teachings apart from other hands-on healing methods is his use of reiju or attunement to remind students of their spiritual connection. It seems that all students of Usui received 5 precepts and those with a further interest in the teachings became dedicated students. There does not appear to have been a distinction between clients and students in the beginning though this may have changed at some point. People began coming to Usui Mikao possibly for different purposes – some for healing and others for the spiritual teachings.

1.4 Activity in the 1920s

During the early 1920s, Usui did a 21-day practice on Mount Kurama-yama called discipline of prayer and fast-

ing, (according to translator Hyakuten Inamoto. Common belief dictates that it was during these 21 days that Usui developed Reiki. As Mount Hiei is the main Tendai complex in Japan, and is very close to Kyoto, it has been surmised that Usui would also have practiced there if he had been a lay priest. This teaching included self-discipline, fasting and prayer.

“In April of the 11th year of Taisho (1922 A.D.) he settled in Harajuku, Aoyama, Tokyo and set up the Gakkai to teach Reiki Ryoho and give treatments. Even outside of the building it was full of pairs of shoes of the visitors who had come from far and near.” –

“In September of the 12th year (1923 A.D.) there was a great earthquake and a conflagration broke out. Everywhere there were groans of pains from the wounded. Sensei, feeling pity for them, went out every morning to go around the town, and he cured and saved an innumerable number of people.
