### Description:

Filmed by Duncan Taylor in Scotland 2012 (Portion of the email Duncan sent to the ADG). "I was awoken by a loud noise at approx 2.30am yesterday, i went to the window to see if i could find out where the noise was coming from, it was so loud my windows were vibrating, I spotted a bright light in the sky moving about and pulsating, so i grabbed my camera and managed to get some footage. Not sure if the light was making the sound but iv heard of these strange noises from around the world on the internet and i am shocked it has happened here, i thought they were fake. The noise was heard by my neighbours and my local police have had dozens of calls from people who live in the area who heard the noise too, most are elderly and alot of them were terrified. Noise disappeared after about 10 minutes" The ADG would like to hear from anyone else who heard this sound or has footage etc. If you have then please email us here.
