Since early April this year when I first started bringing through the "Creating New Earth Crystalline Circuitry" Program of Light I knew it had a very deep power inherent within it. I really had no idea where it was going to lead though. I first thought it was just a stand-alone webinar that resonated into the matrix with all the others I was doing.

However, the Metatronic Councils kept revealing new aspects of it to me after that initial webinar. They kept encouraging me to stay with it and keep developing it further. This was not easy to do given everything else I was facilitating for my Family of Light through the 9th Wave.

I listened to them, and did my best to stay with it though. As I engaged it more and more deeply, my dedicated efforts to create what was needed at this level to make it available to others led to these energies and tools re-creating me!

Every step of the way I was faced with major personal and business transformations just trying to figure out how this could be offered wherein it stayed true to the vibration that the Metatronic Councils had imbued it with.

In this lengthy 4 month process I trashed many hours of hard work over and over again. I would get so far, and then realize it could not be done in the way I was attempting it. My awareness was expanding so rapidly that it outstripped my ability to actually create the program on a manifest level!

You see, this Program of Light is not just talking about New Earth consciousness, it is a living example of it just through the way it is

being offered and conducted. I could speak to the details of this for a long time, but this is the essence.

About mid-summer the Metatronic Councils of Light also started sending me messages that were attempting to prepare me for some sort of huge shift coming later in the year. I saw of course that this shift was clearly in association with the end of the 9th Wave and 11:11:11, but I was not aware of all that entailed at the time.

There is a lot that can be said about this shift which has now happened. But right in the heart of it is a powerful movement towards a much deeper integration of everything that we have done previously on higher-dimensional levels. It all has to be fully brought down now into the manifest physical plane as a living reality that we can sustain with stability NOW.

We have arrived at the time when the Metatronic Oneness-Love rubber must meet the New Earth road! THAT is what the Metatronic Councils of Light designed the New Earth Crystalline Circuitry program to help us accomplish.

It supplies the missing component to what I have been doing with the higher-dimensional transmissions in my webinars. Those induce peak experiences and expand awareness. We generally do not sustain those peak experiences permanently. We will partially retain and entrain to the energies and awareness they offer and this has served us well and will continue to be a part of our journey.

However, the Metatronic Councils of Light are saying to me now that the time is upon us to make what these powerful higher-dimensional transmissions have delivered to us a more permanent and integral part of our human experience.

This means that we will have to make a very serious commitment and dedication to engage the essence of what they offered us. The New Earth Crystalline Circuitry program has many new tools to help us develop the necessary skills to be able to sustain these more rarified and expanded states of awareness and consciousness.

Our success is rooted in learning how to shift what we feel in our body and feelings/emotions at will. If we can do that, then nothing can take us from the experience of our Oneness-Love, and we will truly stand in our core power regardless of what is happening around us.

THAT is what this New Earth Crystalline Circuitry program is

meant to accomplish. THAT is why I am now starting to offer classes to facilitate others in achieving at least as much as I have myself in this regard by using these tools.

I can honestly say that these tools have transformed me in ways I did not know was even possible before it all began. You have to be willing to dedicate yourself and make the commitment though. You have to learn what these tools truly are and then use them.

They are not for the faint of heart by any means. This Program of Light is for those courageous souls who wish to develop highly refined states of New Earth consciousness. It is for those who want to learn to live amidst whatever is going on here on Earth and still be able to feel the Oneness-Love that they are in truth vibrating strongly within themselves.

When you are in such a state you are then also pouring forth Oneness-Love to others and into the world energy environment as an unstoppable and unlimited power that transforms everything it touches.

There is still space available in the FREE class being offered on 11/27. This is not just an introductory class either, I have been working on it all week. It offers some real serious benefits, and it will help you develop the foundational skills necessary to make effective use of the rest of the New Earth Crystalline Circuitry Program of Light.

I am also doing everything I can to make it available to everyone. I wish I could just offer it gratis to all. I do not need the money to be motivated to facilitate it. It is some of the most rewarding work I have ever done on every conceivable level.

However, I have to make ends meet like everyone else. That said, I have still offered payment plans without any additional charges. I have also given a couple of honorary packages to people who resonated very strongly, and who felt very motivated and guided to engage the program, but who simply could not even make payments under their specific circumstances.

I share this only so that you are aware that this Program of Light is truly operating outside the Old Earth box in every way imaginable. This is also why I am offering anyone who engages this program the privilege of facilitating this work themselves by integrating it into their own work for the benefit of others without any additional costs at all! Like where ya gonna see that offered elsewhere on something that took nearly 500 hours to produce?

This is a world class Program of Light. I agree that it is not for everybody though. It is only for those who really want to make a deep dedication and commitment over time to develop highly refined states of universal awareness and consciousness with a core group of people that have a similar dedication and to thus become a living example of what a New Earth human being really is.

If you resonate, I hope you will join the core group of people that is now forming for this work and join us for the class on 11/27, more info appears below on that.

This is also the final reminder for this class!

Listen, do you hear the conch shell being blown....?

, earlier this year the Metatronic Councils of Light provided us with the Program of Light I am offering entitled "[Creating New Earth Crystalline Circuitry.](#)"

This began as a powerful webinar back in April 2011. It has since expanded greatly into what it is now.

This Program of Light currently has **3 videos, 7 eBooks and 18**

hi-res images as well as the assorted additional PDF's that act as overview guides to the program so you can find what you want more easily.

At this Program of Light's core are the nine [New Earth Temples of Pure Consciousness](#). These together form a nine-fold hologram which "docks" together with the New Earth Hologram on the rim of the 44:44 Ascension Star Grail/Gate.

The "[Creating New Earth Crystalline Circuitry](#)" Program of Light is designed to help us re-program the patterns of energy being held within our epigenetic and neural circuitry so that they are in resonance with the nine New Earth Temples of Pure Consciousness.

This in turn **will help bring us into the living experience of the New Earth reality of Oneness-Love** even as the rest of the world struggles to complete its journey. We can thus become living examples of New Earth humans operating in Oneness-Love which then helps others on our planet in many, many ways to do the same.

This Program of Light offers numerous tools and pathways for accomplishing this. Quite a variety of tools/pathways were provided by the Metatronic Councils of Light to ensure that there would be tools/pathways that would resonate for just about everyone who would be drawn to such work.

It does not mean we have to use all the tools/pathways all the time! We can choose what feels right in the moment, and using the Core Energy Resonance techniques being taught in this upcoming class is a key to doing this and a whole lot more that facilitates our ascension into Oneness-Love!

I am excited to announce that I am now beginning the series of classes with this Program of Light which I recently mentioned would be coming. These classes are limited to 25 people and are thus different than my webinars. They are also interactive, so you will get the personal assistance you need.

I recently offered a FREE class to people who had purchased a New Earth Crystalline Circuitry package by a certain date. **I am now re-introducing this offer again so that you can take advantage of this upcoming FREE class.**

If you purchase a New Earth Crystalline Circuitry Package prior to 7:00pm UTC/GMT on November 26th you will be included in this FREE class on November 27th.

Additionally, because this is a more expensive item, I have now setup the ability to offer you an installment payment plan. You can thus use a credit card to make automated payments that you can afford.

You will be able to make these payments without incurring any credit card interest, and I will not charge you anything more for this option! FREE credit from the First Universal Bank of Oneness-Love!

If you would like to take advantage of this payment plan offer, you can simply hit "Reply" and let me know what type of payment plan works for you and we'll work together to get it done so you can benefit from this Program of Light now!

Space is limited in the live class, so if seating reaches capacity you will still receive access to the video recording. If you do not get into the live class because it fills, or you because cannot attend on that time/day, you will then also get FREE access to another live class in the future!
