

# Coast to Coast AM

## Global Turmoil/ Alchemy

Date: 09-05-11

Host: George Noory

Guests: [Jay Weidner](#), [Steve Quayle](#)

---

In the first half, author and researcher [Steve Quayle](#) offered commentary on current events and global turmoil. There are many disruptive earth changes all converging this month such as volcanoes, earthquakes, hurricanes, and fires, he said, adding that the quakes in Colorado and the East Coast were rather anomalous. [Strange sounds](#) or hums have been heard in Kiev, as well as in Colorado before the quake, and he connected them with the possible use of what he called "shockwave weapons." There's a lot of manipulation going on, and "there is technology that can not only steer or direct hurricanes, but can initiate volcanoes and earthquakes," according to two former Secretaries of Defense, Quayle cited.
