Autotheism is the viewpoint that, whether divinity is also external or not, it is inherently within 'oneself' and that one has a duty to become perfect (or divine). This can be in a selfless way, a way following the implications of statements attributed to ethical, philosophical, and religious leaders (such as [Jesus](#)^{[18][19]} and [Mahavira](#)^[*citation needed*]).

Autotheism can also refer to the belief that one's self is a deity (often the only one), within the context of [subjectivism](#). This is a fairly extreme version of subjectivism, however.
