# Chandra

From Wikipedia, the free encyclopedia

In Hinduism, **Chandra** (Sanskrit चन्द्र lit, Kannada ಚಂದ್ರ, Telugu చంద్రుడు, Tamil சந்திரன். "shining")<sup>[1]</sup> is a lunar god and a Graha. Chandra is also identified with the Vedic Lunar deity *Soma* (lit. "juice").<sup>[2]</sup> The Soma name refers particularly to the juice of sap in the plants and thus makes the Moon the lord of plants and vegetation.<sup>[1]</sup>

Chandra is described as young, beautiful, fair; two-armed and having in his hands a club and a lotus.<sup>[3]</sup> He rides his chariot across the sky every night, pulled by ten white horses or an antelope. He is connected with dew, and as such, is one of the gods of fertility. He is also called **Rajanipati** (lord of the night)<sup>[1]</sup> and Kshupakara (one who illuminates the night),<sup>[4]</sup> and *Indu* (lit. the bright drop).<sup>[1]</sup> As Soma, he presides over *Somvar* or Monday.

Chandra is the father of Budha, (planet Mercury) the mother being Tara. He is married to 27 Nakshatras (constellations), who are known to be daughters of Daksha.

## In astrology

In Vedic astrology Chandra represents brain and mind, emotions, sensitivity, softness, imagination, queen and mother. Chandra rules over the sign Karka (Cancer), while he is exalted in Vrishabha (Taurus) and in his fall in Vrishchika (Scorpio). The waxing moon is considered to be benefic, and the waning moon is considered to be malefic. The bright moon is considered a benefic of the highest order, while the dark moon is considered a malefic. Chandra is lord of three nakshatras or lunar mansions: Rohini, Hasta and Shravana. Chandra has the following associations: the color white, the metal silver and the gemstones pearl and moonstone. His element is water, direction is north-west and season is winter. The food grain associated with him (one of Nava Dhanyas) is rice.

Chandra (pronounced "CHUHN-drah") is a Sanskrit name meaning "illustrious." In Hindu mythology, Chandra is the god of the moon. In Hindu astrology, the moon is considered a planet, and it's considered to be one of the best planets to be born under as it promises wealth and happiness. It is also referred as Shashi (Kannada: ಶಶಿ) or Tingala (Kannada: ತಿಂಗಲ).

According to Hindu mythology Chandra has not been very fortunate in life. Chandra was born in the Ocean of Milk (the gods were churning it for millennia in order to create immortal life), and nearly blinded the gods with his bright, glowing body (hence the name that means "illustrious"). The gods unanimously decided to give Chandra the status of a planet and sent him into the cosmos.

Chandra is known for having a series of disastrous love affairs. His first lover, Tara, was the wife of Brihaspati, the planet Jupiter. From their union, Tara became pregnant gives birth to Budha (a.k.a. the planet Mercury, not to be confused with the other Buddha). Because of how he was conceived, Budha hated his father and as Chandra also knew that Budha is his illegitimate son, he began to hate his son, and their rivalry continues to this day. For the sin of abducting another god's consort, Brahma banished Chandra to the outer atmosphere. This story illustrates allegorically the prohibition of intoxicants for Brahmins.<sup>[5]</sup> After that, Chandra, set out to marry the twenty-seven daughters of Daksha. Daksha allowed this on the condition that the moon not favor any daughter over the others. Chandra failed to do this, and Daksha placed a curse on him that took away his luster, which accounts for the moon's waxing and waning.

Chandra with Rohini

## Dark spot on the moon

One popular story to account for the dark spot on the moon is that Ganesha, once filled with food, fell from his mouse and broke his stomach. Chandra laughed at this, at which Ganesha injured him by breaking off and throwing one of his tusks; and cursed him so that it would be forbidden to behold Chandra on Ganesh Chaturthi.

## Other aspects

Chandra is also the word in Sanskrit, Hindi and other Indian languages for moon. It is the middle name of the Hindu god Rama. Chandra Shekara literally refers to the 'Person who wears the moon' which links to Lord Shiva in Hindu Mythology. It is directed as both evil and good, as it could mean 'Queen of the Moon' or 'Demon of the moon'. It is also a common Indian name, both male and female and exists as a name in many South East Asian languages that originate from Sanskrit.

The god, the drink and the plant probably referred to the same entity, or at least the differentiation was ambiguous. In this aspect, Soma is similar to the Greek ambrosia (cognate to amrita); it is what the gods drink, and what made them deities. Soma is still coined as name for an entheogenic brew (avestic: Haoma) still in ceremonial use.

*Indu*, one of the other names for Chandra, is also the name of the first *chakra* (group) of *Melakarta* ragas in Carnatic music. The names of *chakras* are based on the numbers associated with each name. In this case, there is one moon and hence the first *chakra* is *Indu*.<sup>[6][7]</sup>

In India Chandra is a common surname for example 'Anurag Chandra ' and ' Tanuja Chandra' . But in America the name has been used as a girl's name. It appeared on the popularity charts in the 1950s, peaking in the 1970s, before disappearing in the 1990s. The name has several variations including Chandrah, Chaundra, etc.

There is another story about moon (Chandra), when Indra was trying to rape Ahilya, wife of rishi Gautama, Chandra was in the form of a peacock to alert Indra on Gautama's arrival . Gautama eventually beheld the act and cursed Indra with impotency and hit Chandra (in the form of peacock) with his wet cloth (Dhoti). Those marks are shown as dark spot on moon as a result of the curse of rishi Gautama. His Egyptian counterpart is Khonsu.

## In popular culture

Chandra (and the gem supposedly on the forehead of a statue of his at Somanath) plays an important role in one of the first novel-length mystery stories in English, *The Moonstone*. The Sanskrit word for moon-craft *Chandrayaan* is used to refer to India's lunar orbiters (*Chandrayan-1* & *Chandrayaan-2*).

# Supushpachandra

**Supushpachandra** is the name of a Buddhist figure, a bodhisattva who was commanded by the king's law to abstain from teaching dharma. Supushpachandra ignored the statute, and was executed by King Shuradatta. An account of his tale can be found in the Samadhiraja sutra. He is also mentioned by Shantideva in the chapter on meditation, verse 106 in *A Guide to the Bodhisattva's Way Of Life*.
