Roman statue of Thalia from Hadrian's Villa, now at the Prado Museum (Madrid)

Thalia (/θəˈlaɪə/; Ancient Greek: Θάλεια, Θαλία; “the joyous, the flourishing”, from Ancient Greek: θάλλειν, *thálllein*; “to flourish, to be verdant”) was the **Muse** who presided over comedy and idyllic poetry. In this context her name means “flourishing”, because the praises in her songs flourish through time.^[1] She was the daughter of Zeus and Mnemosyne, the eighth-born of the nine Muses.

According to pseudo-Apollodorus, she and Apollo were the parents of the Corybantes.^[2] Other ancient sources, however, gave the Corybantes different parents.^[3]

She was portrayed as a young woman with a joyous air, crowned with ivy, wearing boots and holding a comic mask in her hand. Many of her statues also hold a bugle and a trumpet (both used to support the actors' voices in ancient comedy), or occasionally a shepherd's staff or a wreath of ivy.
