## UFOs Vs Nuclear Weapons - National Press Club Meeting: 27/9/2010

Big news here - a new [National](#) Press Club meeting is scheduled on September 27, 2010.

It will include numerous retired military personnel discussing the dangers that UFOs pose to our most powerful defense - nuclear weapons (a topic I have [discussed here](#) for many years).

Witness [testimony](#) from more than 120 former or retired military personnel, points to an ongoing and [alarming intervention](#) by unidentified aerial objects at nuclear weapons sites, as recently as 2003. In some cases, several nuclear missiles simultaneously and inexplicably malfunctioned while a disc-shaped object silently hovered nearby. Six former U.S. [Air Force](#) officers and one former enlisted man will break their silence about these events at the National Press Club and urge the government to publicly confirm their reality.

One of them, ICBM launch officer Captain Robert Salas, was on duty during one missile disruption incident at Malmstrom Air Force Base and was ordered to never discuss it. Another participant, retired Col. Charles Halt, observed a disc-shaped object directing beams of [light](#) down into the RAF Bentwaters airbase in England and heard on the radio that they landed in the nuclear weapons storage area. Both men will provide stunning details about these events, and reveal how the U.S. military responded.

Captain Salas notes, "The U.S. Air Force is lying about the national [security](#) implications of unidentified aerial objects at nuclear bases and we can prove it." Col. Halt adds, "I believe that the security [services](#) of both the United States and the United Kingdom have attempted—both then and now—to subvert the significance of what occurred at RAF Bentwaters by the use of well-practiced methods of disinformation."

The group of witnesses and a leading researcher, who has brought them together for the first time, will discuss the national security implications of these and other alarmingly similar incidents and will urge the government to reveal all information about them. This is a public-awareness issue.

Declassified U.S. government documents, to be distributed at the event, now substantiate the reality of UFO activity at nuclear weapons sites extending back to 1948. The press [conference](#) will also address present-day concerns about the abuse of government [secrecy](#) as well as the ongoing threat of nuclear weapons.

### WHO: - Look at these credentials!

Dwynne Arneson, USAF Lt.Col. Ret., communications center officer-in-charge

Bruce Fenstermacher, former USAF nuclear missile launch officer

Charles Halt, USAF Col. Ret., former deputy base commander

Should be interesting to see what kind of mainstream media coverage this gets. Also interesting to see how the US military and skeptics try to deny all of this. I will be watching.

Here's an interesting theory: Maybe UFOs are time travelers that are trying to stop WW III. You ever think of that? Hm?

Judging from my past observation, you can count on the presence of at least a dozen journalists from the Club's various foreign-press bureaus. Especially so during this year of several overseas governments' decision to release more and more of their UFO-related records. Besides becoming a third-world nation economically at a fairly fast clip, America is losing its strangle-hold on the principle of the public's right-to-know and the government's duty-to-tell. To sample the growing international interest in the politics of UFOlogy, see the petition at <http://www.petitiononline.com/etaffair/petition.html> . -- Larry W. Bryant (26 Sep 10)

Is this going to be aired, and if so? Anyone know where it can be seen? Cannot wait to see and hear this.
