

The Voice of Satanism

Grand Magister Blackwood, Leader of Theistic Satanism

Dangerous Days Ahead Satanic Priest Recieves Message From Satan Again

Temples of Satan Message to Members.... REPRINTED AND POSTED

In the recent days I have been involved along with several other Satanic Priests, working directly with channeling to Satan, and his somber message warns of coming disaster and coming turmoil.

His image came to Satanic Priests in a circle that was used along with several icons of power including a slain goat, this message was interpreted by Grand Magister Blackwood a famous Satanic Conservative and Satanic Priest.

Satan warned against riots due to rising gasoline prices and the general consumers inability to cope with higher prices at the pump, his vision included laughter and general thrill in the promise of impending riots as the masses are forced in near servitude to gasoline prices.

Satan also made it clear that many will take up arms against the very founding document of freedom, attempting to change it, a feat that he also found amusing.

Satan also warned about Obama and his attempt to install Marxist Policies that were ill designed and how this indirectly could harm the people of America through vast changes to the economic structure causing again widespread price hikes in consumer goods and even higher oil prices.

His demeanor seemed amused at mankind and his goal are coming full circle in his attempt to cause Chaos and usurp even more power over this planet, his servants including the summoning Priests feared the visions and felt almost as Satan had a hand in the destruction of America.

Rest assured that more is to come clear in the days ahead as Satan continues to appear and speak with not only Grand Magister Blackwood, but Grand Mage Wynter, and Magister Noxurna and others who request their names be held in confidentiality.

Satanism has been changing as it continues to see growth, it is believed that soldiers ready to join Satan in this Chaos will benefit from their behaviors, however somethings must be done to help the economic trends that are damaging everyone and everything that makes America great.

Grand Magister Blackwood is currently working with several others to help society and negotiate with Satan to bring this Chaos to a minimum, however it is no easy task as Satan has controlled the planet since expulsion from the Kingdom of Yahweh.

Beyond Satans message we as a society must provide a strong message to lawmakers to prevent the gasoline prices from soaring and begin reformation of the trading policies of commodities, and stop blaming the oil companies whose profit is less than that of the government.

Satan is welcomed and his priests and ministry welcome his use of power to cause chaos, it however as anything they are able to communicate with him and provide some answers and promise to the current situation, a situation that the Christians God, and the Muslim's God seemingly ignore, in masses.

Satan desires chaos, be warned as you select chaos because no church, no cross, and no minister will save you from Satans chaos and during the rioting and chaos his return power is assured.

The Priests are certain Satan is moving towards reappearance to everyone evident in his multiple appearances in dreams and during rituals and prayer to him.

Where will you be?

Grand Magister Blackwood
